MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no *guarantee* or *warranty* that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest *known* *retail* price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We do not publish Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

“When it was time for certification,
the obvious choice was NGC
because of their grading credibility and experienced team.”

— Walter Perschke, owner

NGC Grades the Perschke Brasher Doubloon *The First United States Gold Coin*

Valued at \$10 million, this doubloon may be the world's most valuable coin. NGC is honored to have graded such an important piece of American history. At MS 63, it is the finest certified of just seven known examples. For details and images, visit NGCcoin.com/Brasher

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Gold Type Firms Up Summer FUN On Deck

Most major dealers along with many advanced collectors are in Maryland thru July 1, attending the Baltimore Expo, now in its 40th year. Traditionally, the action within the electronic trading networks would slow with dealers being away from their home offices. Not so this week as over \$620K changed hands in dealer-to-dealer trading with over \$430K of these transactions taking place sight-unseen. Most of these trades involved common date Dollars, generic Gold Type and late date Walkers from the short-set. Precious metals have been rather volatile these past couple of weeks. Gold Spot has dropped some 5% from a week ago Monday to just under \$1,550 an ounce today. It has been a month since Gold has fallen this low, while Spot Silver is faring even worse, declining 9% since mid June. Silver lost 70¢ an ounce today to close at \$26.25, a level not seen since November 17, 2010. Platinum fell below \$1,400 an ounce to \$1,389, an area not visited since late December of last year.

Silver Commems appeared as though the tide was changing for these pieces of classic Americana with few declines occurring. This is not the case, as 35 minus signs have been recorded versus only a single increase. New Rochelles are the beneficiary of this week's sole advance within this segment, increasing 24% in PCGS MS67, to a level not seen in five years. PCGS has graded 147 at this level, with 7 finer, while NGC has slabbed 118 with 18 in MS68. Gold Commems are just as soft as their Silver brethren with declines recorded throughout. Generic Morgan Dollars are a bit softer in PCGS MS65, now Bid \$107. Even at this lower level, these common cartwheels are nearly double

their lows of \$62 from a decade ago. There is some positive activity taking place for a handful of select issues, most notably being the 1892-CC increasing up to 3% in grades MS61-MS63. Very Choice Peace Dollar commoners are slightly higher with bag quantities needed in addition to higher Bids tendered for the PCGS 1928-S in the same grade. One such example of the 1,704 graded MS64 by PCGS just sold for \$720 at retail public auction. Both Silver and Gold Proof Type are shining brighter

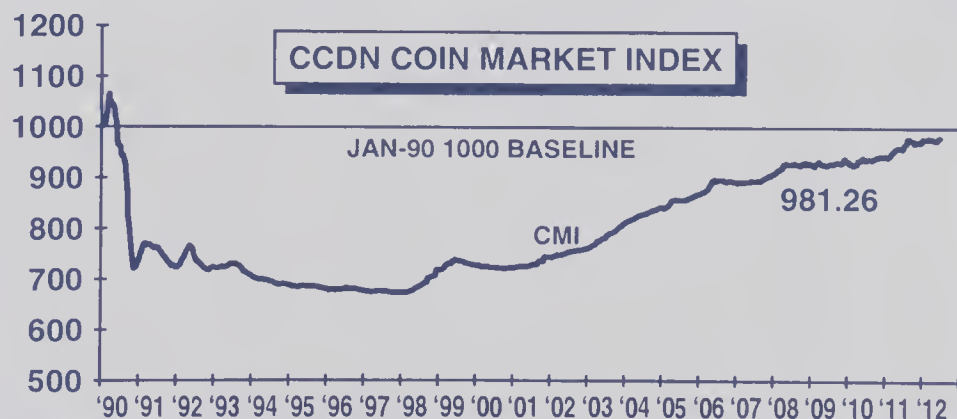

by way of numerous Bid increases, a welcome yet unusual occurrence in the sight-unseen marketplace. Hands down, the standout leader are \$10 Indians in PR61-PR62 with sight-unseen Bids doubling to \$7,000 and \$9,000 respectively. A total of only 11 of these coins have been certified in these grades by PCGS and NGC combined.

No mercy for Mercury Dimes this go 'round as over 22 Bid reductions have been implemented. Most of these declines are rather moderate on a dollar basis, though percentage wise, the damage appears worse with declines as much as 22%. Walking Liberty Half Dollars are stepping it up a notch with over 25 advances in place. These popular 20th century Halves have been going both up and down these past several weeks with no clear indication of their future direction. Gold Type is chock full of increases despite Spot's precipitous drop. This area of the market is finally receiving some much needed attention and appreciation. All of this week's positive movement is concentrated on the minor denominations in grades MS61-MS63 similar to last week's activity, with some issues now increasing four weeks in a row. Quarter Eagle Liberties are leading the advancers in this report with a \$45 Bid jump in MS62. Common date Double Eagles are quiet for the most part as only Gem \$20 Saints are lower, now Bid \$1,835.

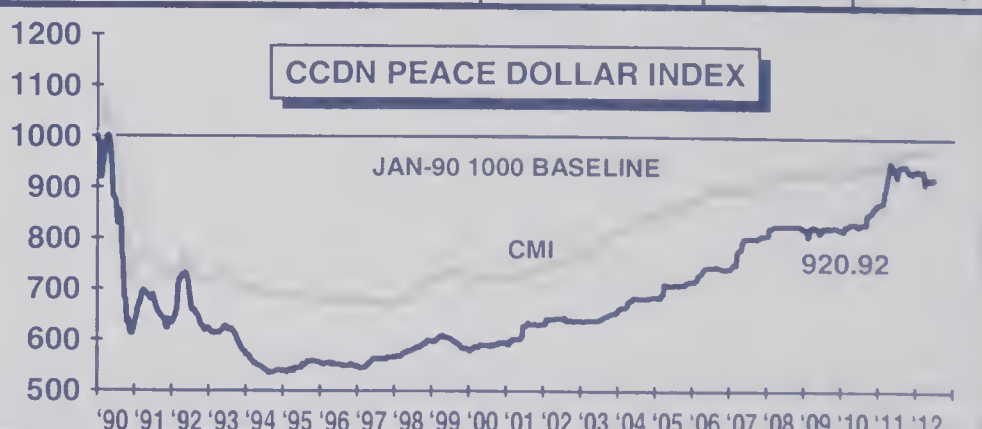

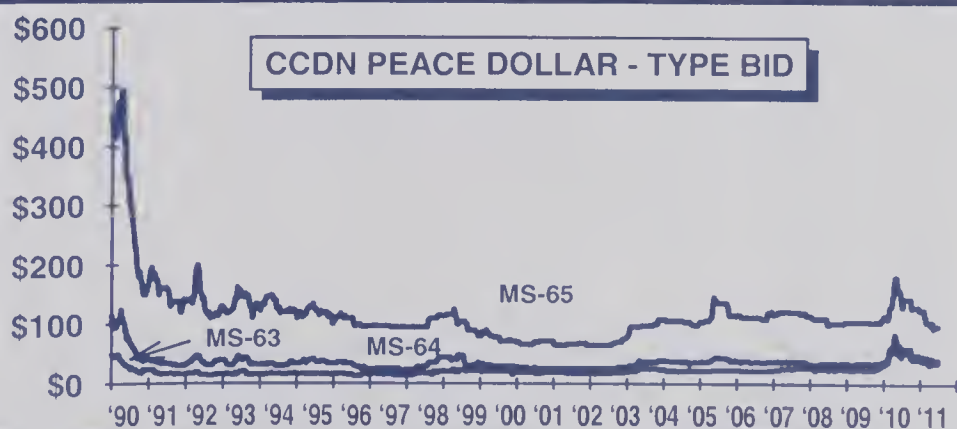

Heritage's summer FUN sale will be one of their last major coin auctions before buyer's fees jump to 17.5%. This new rate for all coin and currency auctions becomes effective on August 1, and will equal those of Stack's Bowers. We have listed a preview of a few highlights above that will be up for auction in Orlando July 12-15 in conjunction with the summer FUN show that begins on July 12.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity, nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of a supported Bid. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Stack's Bowers Hammers Over \$10 Million

Minor Gold Continues Climb

Baltimore is in the rearview mirror now, and many dealers reported having an excellent show, though public attendance was a bit light due to the extreme weather conditions. Participants at the Expo did express some frustration in finding those high-end, problem free coins that are in such short supply currently. When this material is found, it often comes with a premium price that not everyone wants to pay. Stack's Bowers, the official auctioneer of the Expo, hammered over \$10 million. We have included several of the many highlights from the auction herein. The star of the auction was the Ultra High Relief \$20 Saint-Gaudens graded PCGS PR69, which sold to Steve Contursi and Don Kagin for \$2.76 million. These two dealers teamed up before when purchasing the unique Brasher Doubloon for \$2.99 million seven years ago, and recently selling it for \$7.4 million. Liberty Nickels did well at the auction garnering nearly \$600,000 for 91 examples, with most being CAC approved and/or Plus graded. The majority came from the Land of Smiles Collection, which was ranked as the #1 Set of Circ strikes in the PCGS Registry.

Virtually every major auction venue of the recent past has been offering large quantities of Classic Commemoratives, and it has become clear that neither the Gold nor Silver segments are immune to the poor auction prices being realized from overhanging supplies. This week's trading was not as punishing for the Silver Commems, however, but Antietam Halves in MS66 are still sliding lower, as those of the latter grade in NGC slabs have fallen by 16% this year, and Hawaiian issues in NGC MS63 were jostled with a \$140 reduction. PCGS graded issues bore the brunt of the declining action among Gold Commems, which included another mild pull-back for Grant Dollars in MS62 and MS63, as well as a \$205 loss for those \$2½ Pan-Pacs in MS65. This was one of the least volatile weeks for the Morgan Dollar segment in recent memory as Bids for only a handful of mostly better-date issues receded. Among them were 1886/7 Dollars in MS64, which disappointedly contended with discounting activity resulting in their decline of 9%. Among the top contenders for Bids so far at Heritage's Summer FUN Orlando Auction is a very clean looking 1884-S Morgan Dollar in PCGS MS63, with a combined pop of 80 and only 28 finer – and one of only three graded as such with a CAC sticker. It was all good news for Peace Dollars this week as generics in MS64

jumped back up nicely to a sight-unseen Bid of \$45, while those elusive 1922 S issues in PCGS MS66 are now being sought by market makers at a cool \$1 000 higher.

In a somewhat odd twist of fate, Capped Bust Half Dollars in NGC MS64 have resumed in their descent to slightly lower ground while their peers in PCGS MS65 and MS66 are picking up steam resulting in those of the latter grade to settle at an even \$10,000. Twenty-Cent Pieces and Barber Halves in NGC MS61 and MS62 each made slight gains while Proof Type material of all grades and denominations remained unchanged. Some semi-key dated Buffalo Nickels went up against rough headwinds after this segment has had fairly positive results these past few weeks. The toughest blow was struck against 1926-S issues in NGC MS65, which lost \$4,000 due to weak auction results.

Mercury Dimes, including the more common late-dated issues, are all back to assuming a neutral posture again this week and remain unchanged after last week's rather tough outcome. Offerings of Gem quality, semi-key Mercs with Full Bands have been elusive lately, even through the on-line auction circuit. Those early key-date 1919 D Walkers in PCGS MS64 didn't perform quite so well at auction recently to maintain their previously long held Bid, causing them to slide down by \$650. On a broader view, Bids for several late-date Walkers in MS67 are taking quite a tumble and some in PCGS slabs have seeped down by as much as 12%. Four of their peers in MS66 also posted declines, albeit less severely. A lot of generic Gold Type fractional issues are continuing

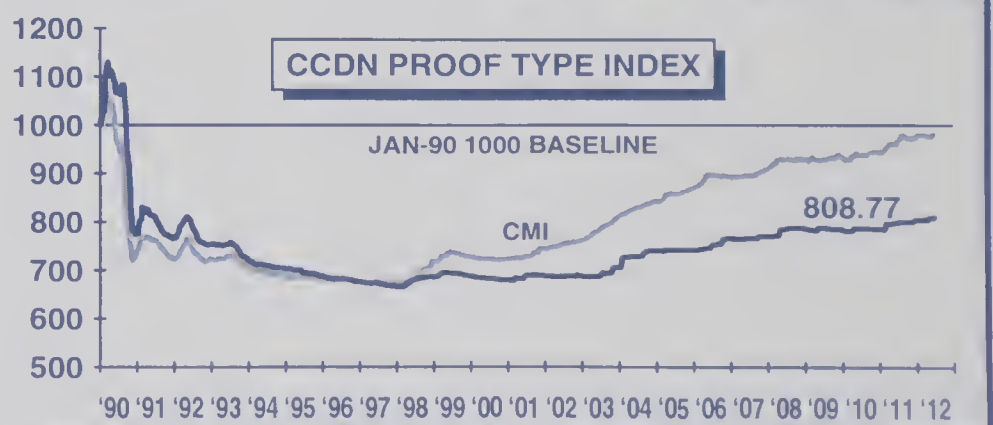

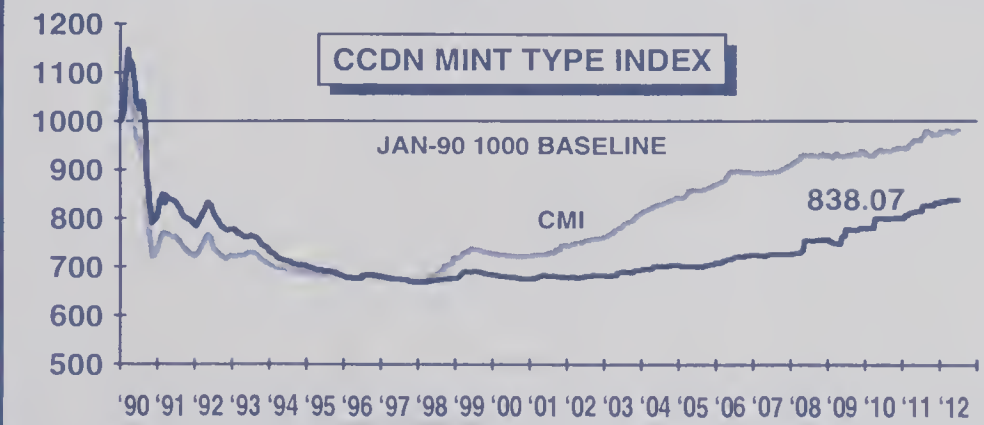

in their ascent. Type I Gold Dollars and \$2½ Libs in MS61 and MS62, for example, are up once again, with a second straight week of gains for comparably graded \$10 Indians. Super high-grade rare Proof Gold did extremely well this past week during Stack's Bowers auction in Baltimore.

Summer FUN is just around the corner July 12-14 in Orlando with Heritage as the official auction house. Scotsman will hold an auction July 27 in conjunction with the Missouri Numismatic Society Show at the Saint Charles Convention Center.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

“When it was time for certification,
the obvious choice was NGC
because of their grading credibility and experienced team.”
— Walter Perschke, owner

NGC Grades the Perschke Brasher Doubloon *The First United States Gold Coin*

Valued at \$10 million, this doubloon may be the world's most valuable coin. NGC is honored to have graded such an important piece of American history. At MS 63, it is the finest certified of just seven known examples. For details and images, visit NGCcoin.com/Brasher

Small Gold Explodes Low Mint State Grades High

Dealers are in Florida attending the Summer FUN Show which runs until July 14. Heritage is the official auction house for this numismatic gala. Following this event, some dealers will head to Las Vegas for the mid-week PCGS Members Only show, July 18-21. These trade n' grade gatherings have proven to be quite popular because of their unique, informal and pleasant atmosphere often resulting in a profitable experience for many.

Classic Commems that are among the most available at some of the lowest Bids within this segment have not yet shaken off the effects of market weariness. Within the last three months, two Commem Halves in MS65 have declined to below a sight-unseen Bid of \$100 — the Cleveland and 1935-S San Diego — and the downward pressure on the former issue across multiple NGC grades persisted this week, while also forcing rather stiff reductions for NGC graded Maryland issues in MS66 and 1926 Oregon Halves in MS61 thru MS63. 1947 Booker T. Washington PDS Sets in MS66 are the only PCGS issues to fall short at maintaining current Bid support amidst the discounted trading activity. NGC has graded 755 1916 McKinley Gold Dollars in MS64, which are now Bid \$15 less as a result of lower wholesale Asking prices. Market participants are gravitating towards those harder to come by "O" and "S" mint-marked Morgan Dollars in the low Mint State grades of MS61 thru MS63, resulting in loftier Bids for many of these cartwheels. The upswing was most significant for those desirable 1883-S Dollars in PCGS MS63 with a 12% rise. Several varieties of first-year issued Morgan Dollars in Prooflike are also moderately ascending, and Bidders are willing to pay \$10 more for those quite elusive 1890-CC issues in NGC MS64PL. Peace Dollars saw some ups and downs, but there's heightened call for more early S-Mints in MS64, especially 1922-S and 1923-S, as each also benefited from a \$10 gain.

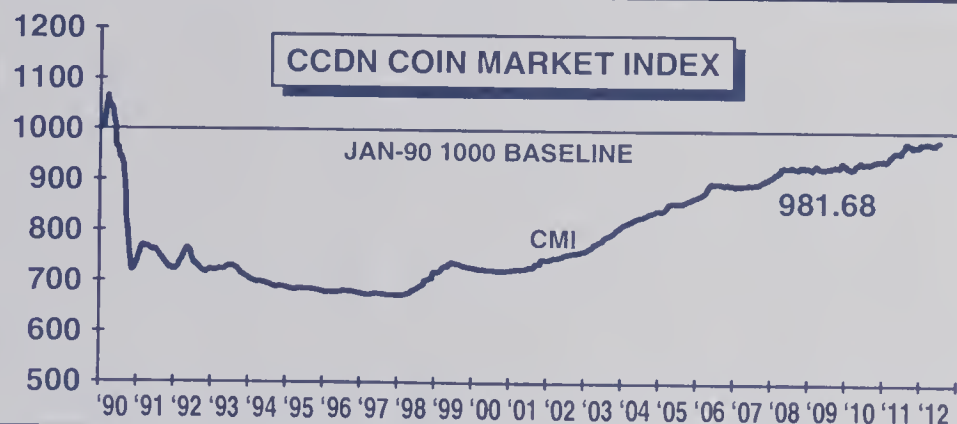

Early Coppers of virtually all varieties, dates, and denominations, remain red hot, especially genuinely rare, key date specimens that rank within the highest qualitative tiers of their respective grades. One such example is the 1872 Two Cent Piece graded MS65RD+ by PCGS and approved by CAC. Unique in this grade with only three finer, it is currently up for sale at Heritage's Summer FUN Show auction. Bidders appear to be highly receptive to material that may not be of great rarity, but has exceptional eye-appeal, particularly with multi-colored peripheral toning and Cameo appearance. Liberty Seated Dollars of

the No Motto variety in NGC MS65 have increased by \$2,000, a bold gain of 15%. 1936-S Buffalo Nickels in NGC MS65 couldn't conjure up enough Bidding action in online auctions, losing 6% this week. Key date, original-looking Buffs, especially with attractive toning, continue to excite collectors when brought to market. Late-date Walkers are fighting back in MS66, staving off the effects of discounting activity, as the most common issues rose back up to above the \$140 Bid level for the first time since early May. PCGS graded 1945-S and NGC graded 1947 Walkers, both in MS67 shot up by 25% this week while those of the former issue have now cumulatively gained \$1,500 since January.

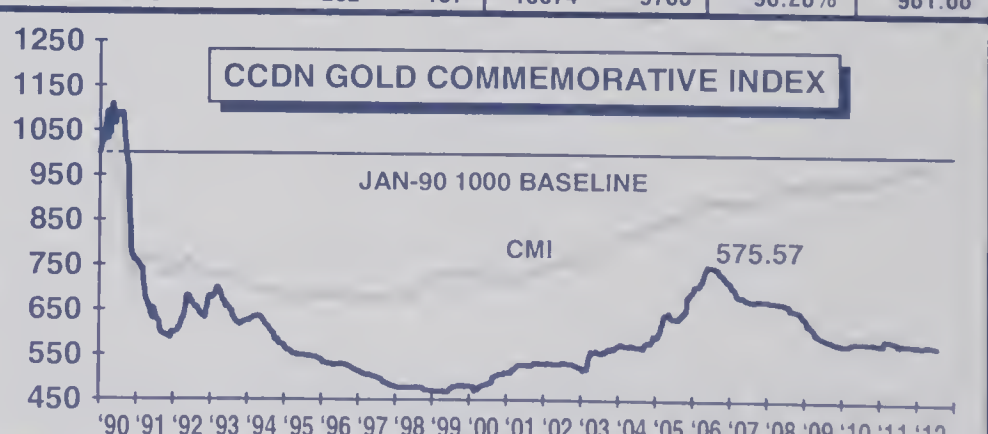

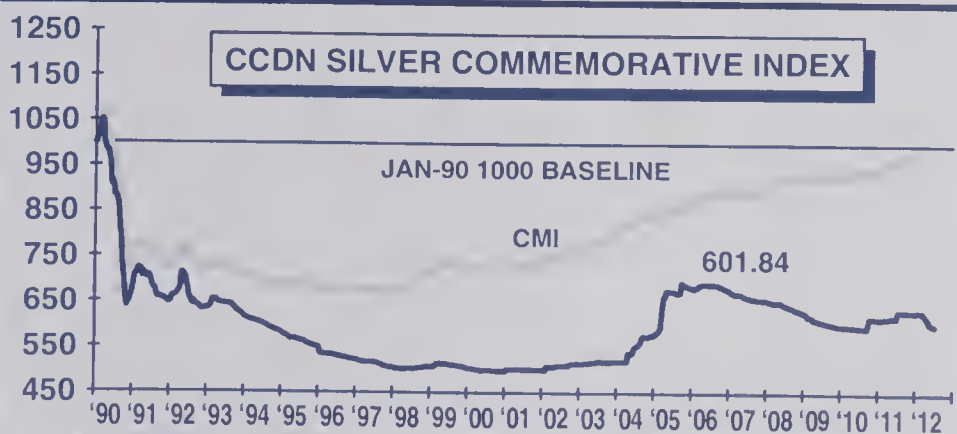

There remains considerable upswing within the Gold Type segment despite Gold Spot's retraction this week to an intraday trading level of just above \$1,550 per ounce. \$5 Indians in NGC MS63 and MS65 appear to be gradually recovering as those of the latter grade are back up to Bidding \$6,000 after plunging by \$1,900 late last April. Generic Type Three Gold Dollars and \$2½ Libs in MS61 thru MS63 have risen by between 13% and 16% this month. Even though Gold Type is continuing to improve, premiums over melt remain extremely low for common Eagles and Double Eagles. Small denominations are exploding to higher Bid levels, with many setting new peaks. See the chart at left for the top 10 advancers since the year began. Type Three Gold Dollars lead the way in MS61 with a 37% jump over the past six months. Bids for these Gold Princesses have actually doubled since July 2007 but remain distant from the record levels set in 1986 and '89. Within our top 10 list, these Gold

Dollars retain the title of having the lowest combined pop of 4,685. Liberty Quarter Eagles are also propelling nicely in the lower Mint State grades jumping over 6% in MS61 this week alone. Combined pops reveal that \$2½ Indians are 3-4 times more common in each of these grade levels than \$2½ Libs and are much more popular amongst collectors. Type One Gold Dollars are Bid \$100 higher in MS63 since the year began while Gold Spot has lost over \$50 an ounce in the same time. PCGS has encapsulated 2,764 in Choice while NGC slabbed 3,543 — this is about 4% fewer graded at this level than their Type Three counterparts.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the high nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks, Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the property of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CAC[®]

"Because Confidence is Priceless"

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVII No. 29

July 20, 2012

Single copy price \$5.00

Cartwheels Roll Higher MO Show & Auction Up Next

Now that the FUN gala is complete, action in the rare coin market is a bit slow with summer here, kids out of school, and vacations before the next big show. Sight-unseen trades through the electronic dealer-to-dealer networks over the last week amount to a comparatively modest \$290K+. Two 1911-D \$2½ Strong D Indians grading NGC AU58 and NGC MS61 traded sight-unseen for \$5,000 and \$7,100 respectively. Big money was spent on the Heritage auction in Orlando totaling \$9.3 million. See a few of the many highlights herein.

Sight-unseen trading activity was very brisk again for Silver Commems, but that briskness brought on another wave of frenzied discounting which reduced Bids for many CAC and + graded issues as well. Among those issues confronting multiple grade reductions again are Huguenot Halves in MS63 thru MS65, 1933-D Oregon issues in PCGS MS61 thru MS63, Robinsons in MS64 and MS65, and Wisconsin in MS61 thru MS64 and MS66. 1904 Lewis & Clark Gold Dollars in NGC MS61 and \$2½ Sesquicentennials in PCGS MS63 each shed \$20. Common date Morgan Dollars in MS63 are ascending moderately again this week, settling at \$48, and several of their NGC MS65 peers each made additional strides by \$10. 1904-S cartwheels in PCGS MS61 thru MS63 moved higher yet again after a moderate rise just last week along with comparably graded NGC examples. 1934 Peace Dollars in PCGS MS61 lost \$18, a proportionately large amount of their previous Bid. Trading results weren't too positive for a few other better-date Peace Dollars in MS64 as 1928-S Dollars slabbed by PCGS were reduced by 16%, wiping out all of this year's gains, and those 1928 and 1934-D issues in NGC holders both slid lower as well, albeit more moderately.

Some declines took hold within the Type segment this week but they were not extreme. Liberty Seated Half Dimes and Dimes, both with Legend, in PCGS MS66 didn't quite reach their level of expectation at the auction block, as each was forced to pull back moderately. This past weekend, Teletrade auctioned off an 1885 Liberty Head Nickel, graded MS66 by PCGS, one of only four in this grade with a CAC sticker, for a hefty \$21,275. 1883 No Cent Nickels in MS64 and PR65 slipped by a tad, as those in the latter grade now Bid at \$465. And while Bids for a couple of Liberty Seated Quarters in PCGS MS64 shrank mildly as well, any such issues With Arrows in MS64 thru MS66 with CAC approval are now Bidding significantly higher. Barber Half Dollars in PCGS MS65 fell down to \$1,900.

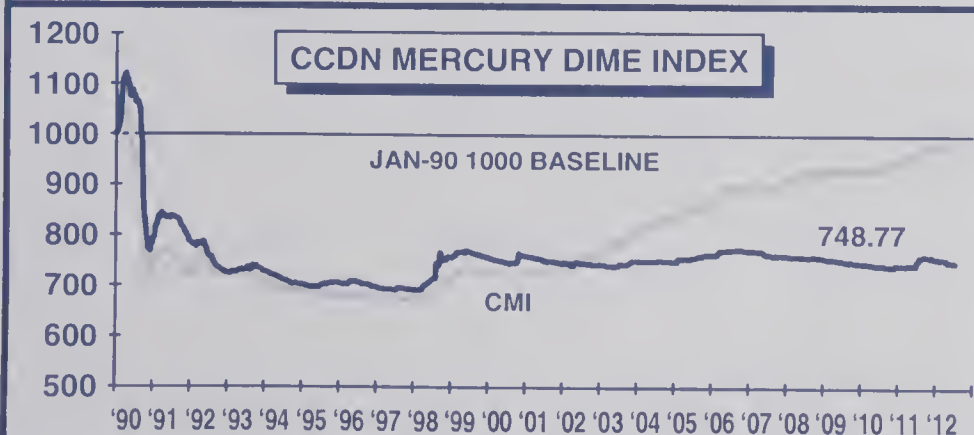

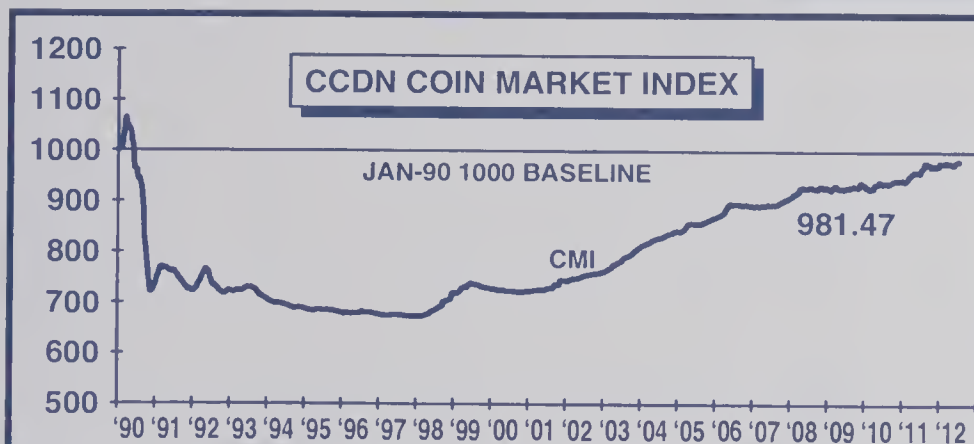

Those rather scarce 1917-D Buffalo Nickels fell short of expectation during online Bidding this week, dropping by an average of 10%. 1920-D and 1923-S issues in PCGS MS64 and NGC MS64, respec-

tively, went up against some tough auction headwinds as well. Online Bidders just love Gem quality Full Band Mercury Dimes that are CAC approved. If you have a 1925 D in MS66FB with the green bean on its slab, dealers are paying \$1,800 more sight unseen since last month's report. Declines in small numbers can be quite detrimental to certain Merc issues, as is the case for the 1945-S in PCGS MS66FB, plummeting by 28%. However, it's worth noting that a 1944 Merc graded MS67FB by PCGS, approved by CAC, sold through Teletrade this past weekend for an amazing \$1,265. Despite their key-date recognition and desirability, 1919-D Walking Liberty Halves can have their vulnerabilities in the market place, as NGC MS64 issues were rocked by a \$1,250 shortfall at auction. Bid columns for the Gold Type segment this week in terms of the advances posted overall appears similar to that representing the segment in recent weeks, except that the declines for \$20 denominated issues has ceased. Bidders still seem to have an insatiable appetite for small denomination Gold Type material in MS61 thru MS63, especially for Type I and Type III Gold Dollars and \$2½ Libs, and these issues are going out the door in quantities from wholesale and bourse floor venues. \$5 Indians and \$20 Type III Libs in NGC MS65 continue to gain more new fans and now Bid \$6,100 and \$3,300 respectively.

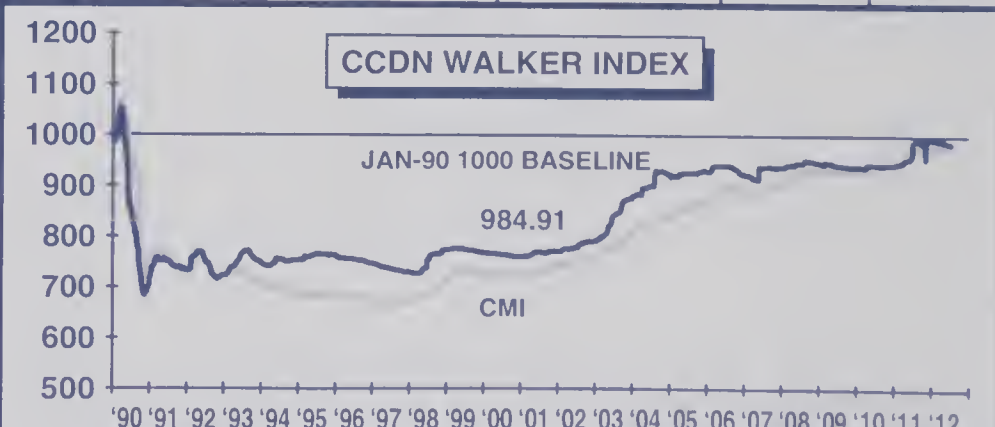

The Missouri Numismatic Society's 52nd annual show is coming up July 26-28 in St. Louis, and Scotsman will hold the official auction July 27. A few offerings include an 1856 Flying Eagle Cent in PGCS PR64; a 1917-D Buffalo Nickel graded and NGC MS66; an 1897 Barber Half graded NGC PR68 UCam; a CAC approved 1864 \$3 Indian Princess graded NGC PR64★ UCam; and a 1925-S \$20 Saint Gaudens in NGC MS64.

Numismatists and collectors alike are awaiting the ANA extravaganza and PNG pre-show. One of the many special features of the upcoming World's Fair of Money, August 7-11 in Philadelphia, is the PCGS "Walker Showdown." This display features the two highest ranked circulation strike Walking Liberty Half Dollar collections from the PCGS Set Registry. Both sets consist of 66 coins and include the Gerald Forsythe Collection, ranked as the current and all-time finest, and the High Desert set, ranked second. Both collections will be displayed side-by-side at the show, and can also be viewed online.

Heritage	Price Realized
1909-S V.D.B. Lincoln Cent	PCGS MS66RD \$10,350

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity (including nationally reported sight-unseen Bids, Asks, Trades, prior levels and auction prices). The CCDN may not respond to the removal of a high Bid but will be strongly influenced by the lowering of a unsupportable Bid by Auction. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

\$1.7
billion

CAC has evaluated over ~~250,000~~^{350,000} coins with a market value over ~~\$1.3 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$200,000,000~~ worth of coins.

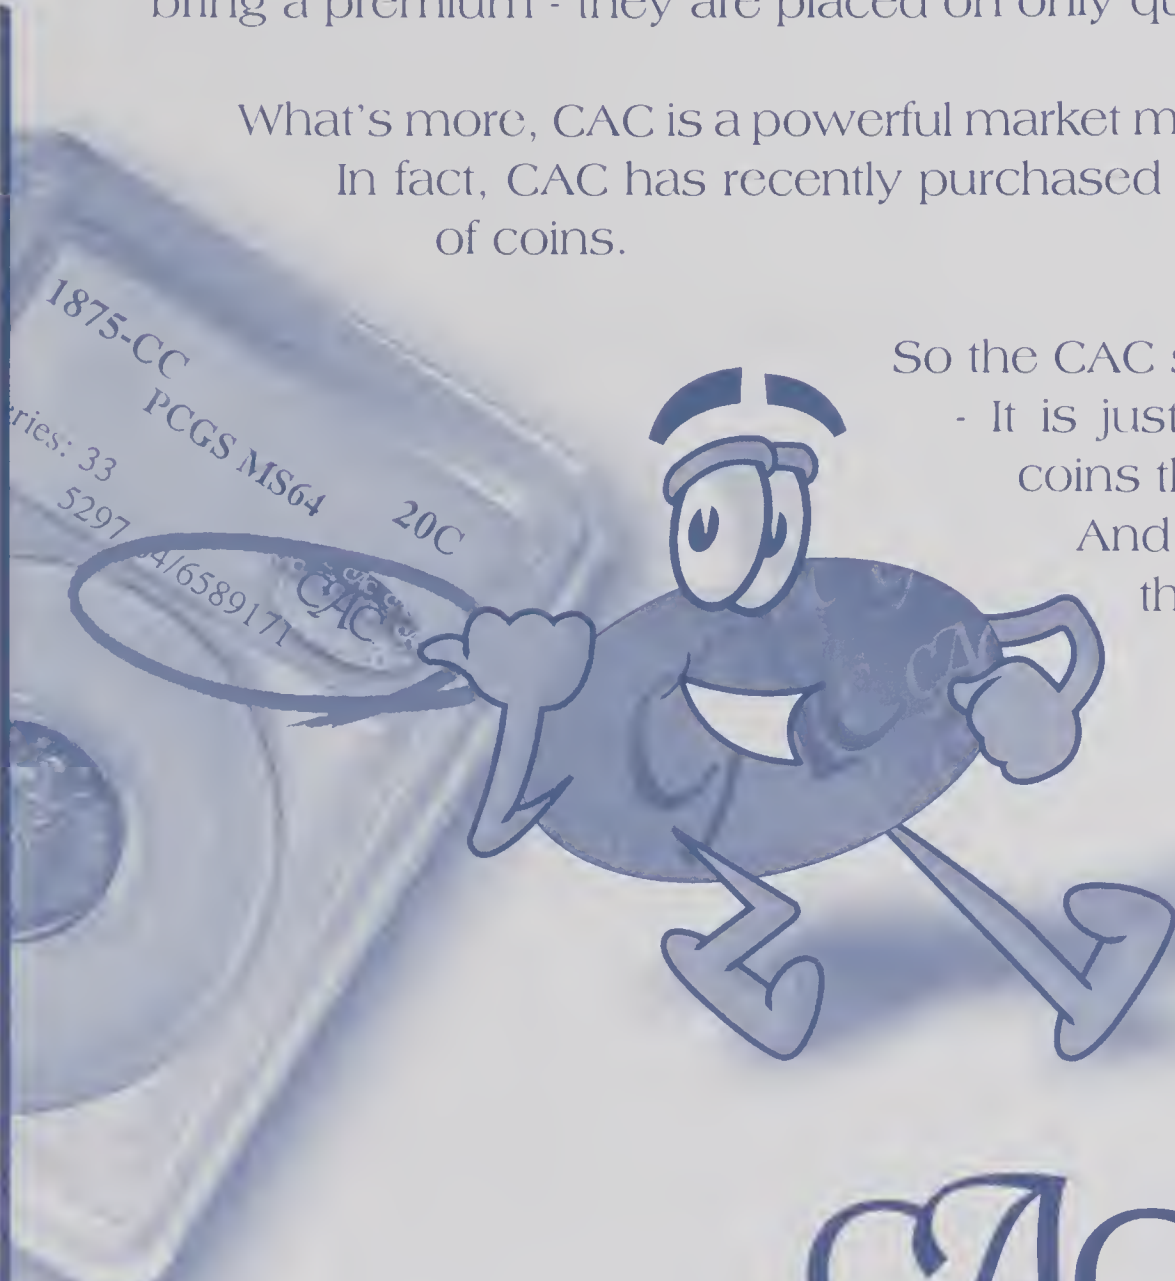

\$[^]250,000,000

So the CAC sticker does not add value

- It is just an easy way to identify coins that are solid for the grade.

And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXVII No. 30

July 27, 2012

Single copy price \$5.00

Sight-Unseen Market Quiet

Gold Dollars Up Another 5%

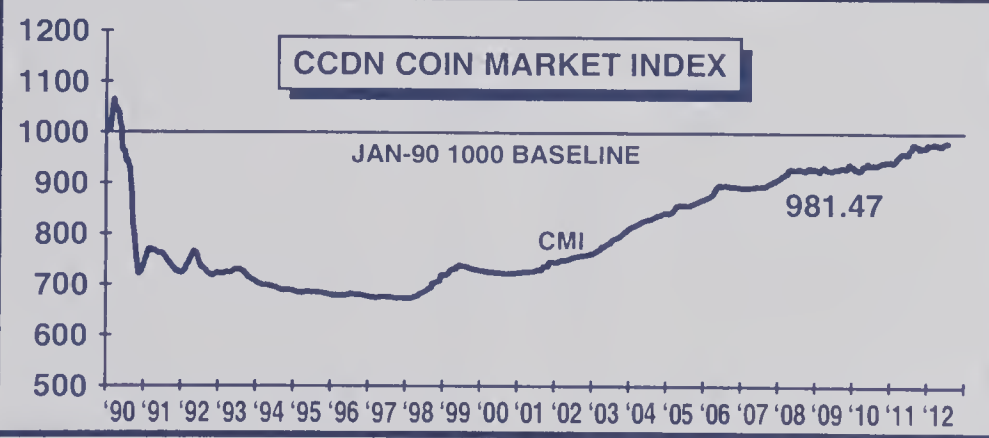

Many dealers are currently attending the 52nd annual Missouri Numismatic Society coin show at the Saint Charles Convention Center, where Scotsman is holding the official auction July 27. Next, Heritage will hold one of their Platinum Night sales August 2-5. The much anticipated ANA World's Fair of Money follows shortly after with the PNG Pre-Show August 4-6, and the show proper running August 7-11. Stack's Bowers is the official auction house for this numismatic gala. Multiple collections will be offered at the sale, including the Battle Born Collection, which includes a complete Carson City amassment; the Werner Family Collection of 1796 Coinage, and the Just Having Fun Collection, a complete Standing Liberty Quarter collection, to name a few. As usual, the fair will have an abundance of activities, lectures and exhibits to keep attendees busy. Currently, things are a bit slow in the sight-unseen marketplace as summer brings a time for vacations and preparations for upcoming events.

Sight-unseen trading action concluded with far less disconcerting results for Silver Commems, but this segment is still clearly wrenched with weakness despite a deceleration in declines. Bids are up just slightly, however, for Grant (No Star) Halves in PCGS MS67, as these issues have been among the most stable within the series. Only a handful of Silver Commems traded sight-unseen through the exchanges this week, all in Gem or better with the most notable being a Spanish Trail graded PCGS MS66+. This coin blindly changed hands for \$1,950—just over the MS67 Bid level of \$1,900. There was nothing gained, but nothing lost among the Gold issues. It was a mixture of gains and losses this week among Morgan Dollars as several common-date cartwheels in MS63 readjusted lower after two straight weeks of predominantly positive momentum within this segment. Better-dates, and not just CC Dollars, are certainly maintaining strong demand, and Bidders are pursuing them even in the less than Choice and Gem Mint State grades. Many generic issues in NGC MS66 are a tad higher, but the noteworthy gainers in this grade column are 1893 Morgans advancing by \$1,100. Fewer coins are selling at public auction for less than sight-unseen Bid, but occasional examples still fall through the cracks. This should not occur to begin with since consignors are leaving money on the table. A few such examples can be seen in this week's Market columns realizing as much as 45% under Bid, including: '83-O in PCGS MS63, '78-7TF in PCGS MS61, and a '91 graded MS63 by NGC. Peace Dollars are soft with 1922-S in MS62, 1923 in PCGS MS65, and 1926 in MS61 and MS62, all falling.

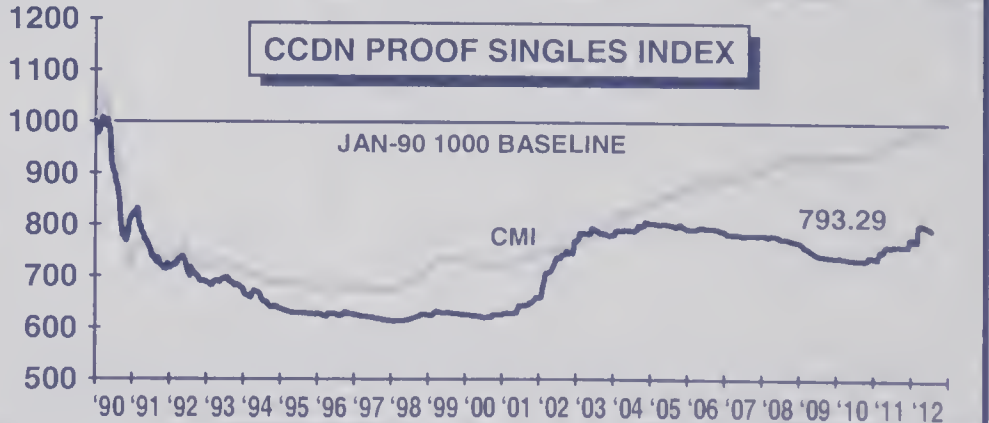

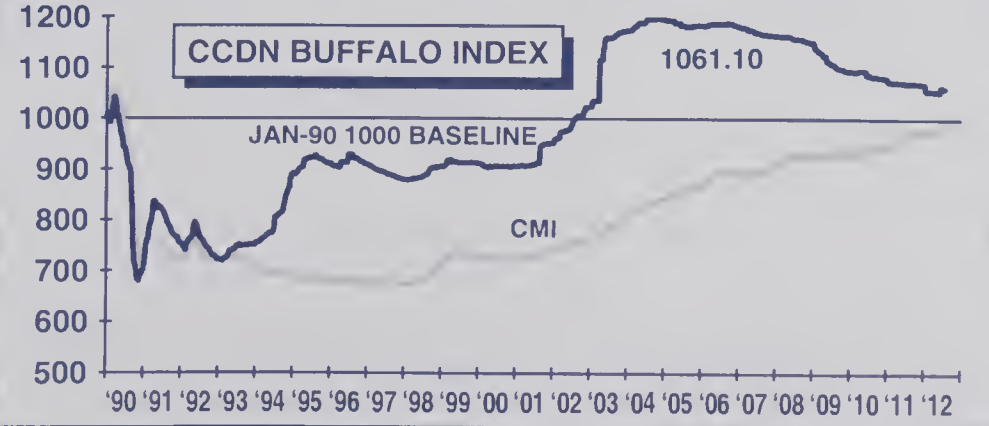

It was not a bad week for the Type segment as some plus signs denote mostly moderate advances that include some early Coppers again, namely Draped Bust and

Classic Half Cents in the lower Mint State grades. Capped Bust Halves in PCGS MS63 are back up to Bid on parity with their NGC slabbed peers of comparable grade. Liberty Seated Dollars, No Motto in NGC MS65 have been Bid up by another \$2,000 as they had been two weeks before, achieving a most impressive cumulative gain of 31% within this short period of time. While the Proof Type segment remains unchanged, market participants will soon get a chance to compete for some of the most stunning Proof Type material due to appear at the upcoming auctions in Philadelphia. 1917-D Buffalo Nickels in MS66, which suffered an average pullback of about 10% last week, will have a chance at redemption as a specimen graded as such by NGC will go up on the auction block during Scotsman's Midwest Summer Sale event. Mercury Dime collectors are eagerly awaiting the outcome of the Stack's Bowers ANA auction in Philadelphia which features the finest known 1921-D Mercury Dime, graded MS66FB+ by PCGS with CAC approval. This week's trading activity didn't bode well at all, however, for 1939 Full Band Mercs in a variety of grades, especially for those graded PCGS MS67FB, which tumbled 31%. These declines are due to lower wholesale Asking prices as seen in this week's Market columns. Among the closest watched lots at Heritage's upcoming Signature Auction in Philadelphia is an NGC MS67 1919-S Walker, a truly unique coin in that it is the only one graded at this level by either service with none finer. 1941-S Walkers in NGC MS64, which teetered somewhat last week, couldn't stabilize well enough to avert another mild decline, causing their comparably graded PCGS peers to descend as well.

With Gold Spot surging back up above the \$1,600 per ounce level once again, closing at \$1,615, it remains to be seen whether or not the yellow metal will sustain itself and continue on up to new highs. In the meantime, some generic Gold Type material has already responded accordingly, including some of those highly bullion sensitive Double Eagles. \$5 Indians in NGC MS65 added \$200 since last week and now are Bidding 8% higher since the month began, but comparably graded \$10 Indians are still deemed as being in an over-supply phase. Fractional Gold is still performing very well with Type 3 Gold Dollars increasing by 5% in grades MS61-63. \$2½ Libs are pushing higher as well in the lower Mint State grades, with a PCGS MS62+ example trading sight-unseen for \$605 amounting to 9% over MS62 Bid. Scotsman's auction this week will feature lots comprised of some truly rare and spectacular Proof Gold Type specimens of various denominations with UCam designations, including an 1898 \$10 Lib graded PR66★ UCam by NGC.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from wholesale trading networks, websites, and other sources of wholesale transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded items. The Publisher assumes that it has exercised due diligence; presently, there is no practicable method of following all wholesale postings or transactions. Readers should be aware that there is no guarantee that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin could display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest asking price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We do not report Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

World's Fair of Money Nears

Small Gold Strength Continues

Dealers and collectors are awaiting the Philadelphia ANA World's Fair of Money, set for August 7-11, with many already in the City of Brotherly Love attending the Heritage auction and preparing for the PNG Pre-show running the 4th-6th. Stack's Bowers is the official auction house for the show, and we have listed several highlights herein. This auction includes over 6,000 lots of US numismatic material and concludes August 10.

Declines persisted within the Silver Commems segment, albeit not as prolifically as in recent past weeks. Grant Halves in PCGS MS67, however, were the only exceptions with another mild \$10 added to last week's similar advance. Hawaiian issues in NGC MS63 are \$125 lower, and Missouri 2X4 Halves in MS62 came up short by \$30. Gold Commems remain soft as well, with 1917 McKinley Gold Dollars in MS67 down by an average of 10% for the year. Generic Morgan and Peace Dollars are still grappling with the lulls of a market that appears to be inundated with generic material. 1881-S Morgan Dollars in MS66, graded by PCGS or NGC, are now lower, to a sight-unseen Bid of \$215. Slightly better Dollars are also suffering, as is the case for 1880 Morgans in NGC MS65, which are lower by 8% this week. A better-date but, perhaps, an all too common issue for some Dollar enthusiasts as well is the 1883-CC cartwheel in MS65, also sliding a bit lower again to Bid \$365. Be it as such, these Dollars will still remain popular and highly appreciated simply by virtue of their high-quality strike consistency, beauty, and historic lore. 1921 Morgans and their D-Mint peers in PCGS MS64 regained all their losses from last week, but 1923 Peace Dollars in NGC MS65 got a harsh reception with a steep \$12 pullback. Every GSA CC Dollar in its original box with papers has a visible sight-unseen buyer at Bid. At least one dealer is looking for up to nine examples of the 1878-CC and has raised Bid in hopes of acquiring some. GSA Dollars with the NGC wrap-around grade label have buyers willing to pay slightly over Bid for white coins, with the sight-seen return privilege.

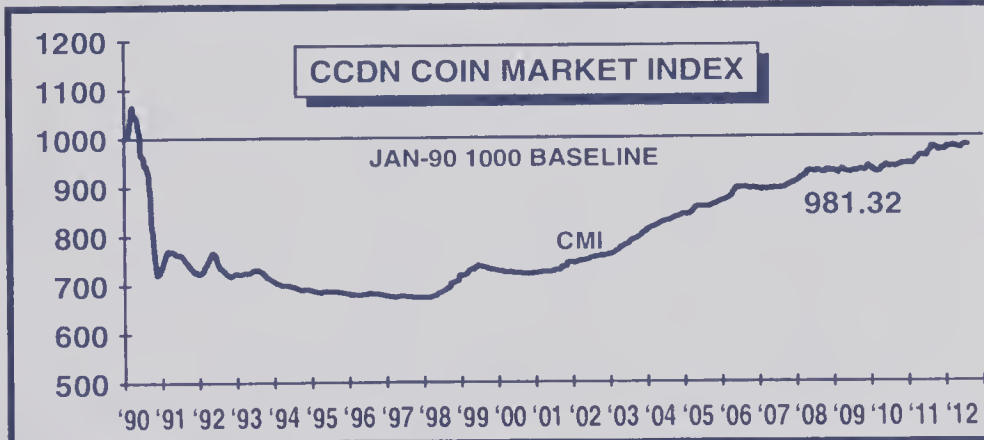

Most Type material remains stable, if not strong, compared to other segments of the market, but early Nickel material has been noticeably weak as of late. Bids for Three Cent Nickels in NGC MS61 and MS62 each dropped a bit, and 1883 Liberty No Cent Nickels in NGC PR65 lagged somewhat at auction this week, falling \$15. A diversity of Gem quality Type material is already eliciting highly competitive online Bidding before the finalizing

hammering sessions of the Stack's Bowers auction that is in progress this week at the annual ANA World's Fair of Money Exposition. Included among the lots are several early dates and varieties of some of the most pristinely preserved Capped Bust Half Dollars not seen in recent memory. Liberty Seated Half Dollars with Motto in PCGS MS63 and MS64 are on the rise as those of the former grade are Bidding on equal footing with comparably graded NGC examples at \$650.

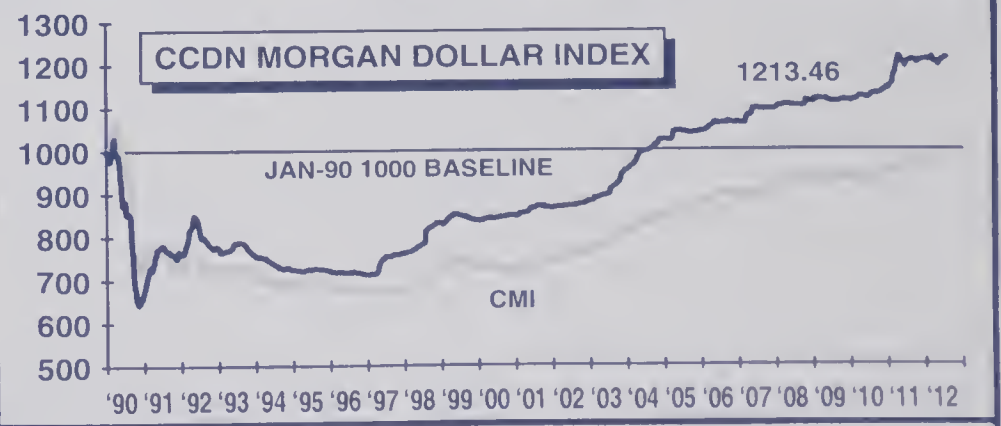

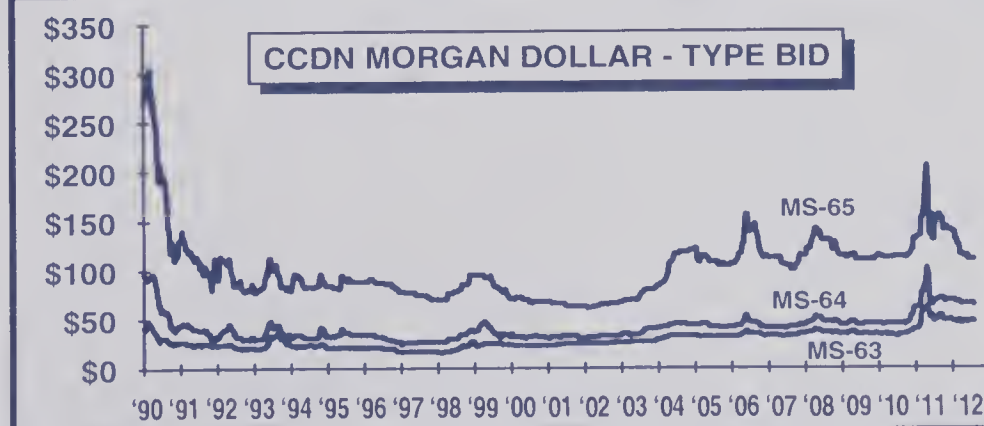

Buffalo Nickels couldn't have had a quieter week on the sight-unseen market as all issues demonstrate unflinching steadiness. Some incredibly beautiful rainbow toned Buffs are up for grabs during Stack's Bowers ANA auction in Philadelphia, including a finest known 1916 S graded NGC MS67 with extraordinary eye-appeal, and a 1927 S graded MS66★, by NGC. Mercury Dimes in PCGS slabs bore no news this week, but two NGC Mercks, the 1920-D in MS67 and 1944-S in MS65FB, both incurred considerable reductions in Bid due to disappointing auction performances, as those of the former issue settled downward by 14%. Large numbers of late-date Walkers, particularly in MS65, are in a moderate state of decline again, and market weakness is taking a toll to a greater extent on several of their peers in both the lower and higher Mint State grades. However, there is a resurgence of interest for 1940-S issues in MS67, as Bidders are offering \$200 more for these elusive NGC graded Halves and as much as \$500 more for them in PCGS slabs.

In an August 1 press release the Fed announced it would keep the federal funds rate at 0 to 1/4 percent and expect such exceptionally low interest rates to continue through late 2014. This was done to support a stronger economy and control inflation. Following this announcement, Gold Spot fell from its perch above \$1,600 and is currently at \$1,587 per ounce. Bids for Type III Indian Princess Gold Dollars in MS61 thru MS63 have risen by an average of 18% since early last month, and \$5 Indians in NGC MS65 continue to rise as well, as these issues are up by 11% since then, thanks to four consecutive weeks of advances. Bidders are also in hot pursuit of comparably graded Type III \$20 Libs in PCGS slabs and, although these issues are recovering quite well, they are still Bidding sight-unseen at \$600 below their level of almost one year ago when Gold Spot began ascending to its all-time high.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Sight-Unseen Market Up

Commems See Increased Bids

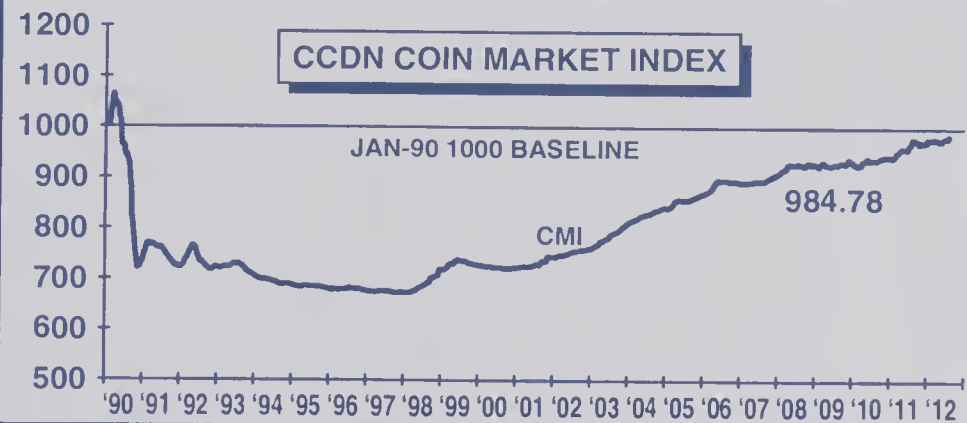

After Heritage brought in \$27.5 million with their August 2 auction, dealers and collectors are looking forward to the Stack's Bowers Rarities Night sale, Thursday, August 9. As part of the official Philadelphia ANA show auction, this offering includes several rarities that will be closely watched, including the following: a 1793 Chain Cent, America no periods, graded MS66BN by NGC; an 1873-CC Liberty Seated Dime, no arrows, graded MS65 by PCGS; and a CAC approved 1920-D Standing Liberty Quarter, graded PCGS MS68FH+. Within the sight-unseen market, we have recorded over 950 advances, a rare occasion for such a high number of plus signs in a single issue. One would have to travel back to April 15, 2005 when 1,036 increases were published. This explosion of higher sight-unseen Bids has propelled the CCDN CMI to 984.78 which hasn't taken place since June 1, 1990 when the index was at 1,008.

Many market participants will likely express sighs of relief upon glimpsing at this week's Bid columns for Silver Commems. Even though over 325 advances have been recorded, not a single Commem traded this week through the dealer-to-dealer exchanges. Several of these Classic Halves are recovering appreciably within multiple grades, while Albany and Cleveland issues graded by NGC are up across the entire grade spectrum. Despite the positive turnaround, there were some decliners, including Isabella Quarters in MS63 and those bellwether Lafayette Dollars in MS67, which lost steam due to auction weakness, while Vermont issues in MS65 fell below \$400. A second straight week of decline for 1917 McKinley Gold Dollars in NGC MS67, a pop 49 coin with none higher, has now brought Bid for these issues down this year by \$585. Over the past few weeks we've seen increased demand for better-date Morgan Dollars in the lower Mint State grades, and this is now spilling over to include many issues in higher grades. In fact, the CCDN CMI for Morgan Dollars is up 13 points this week. All 1884-CC Dollars in Prooflike condition are increasing in popularity and are being lured into the market with slightly higher sight-unseen Bids. Among the biggest gainers this week is the 1894-S Dollar in NGC MS66, which have a pop of only 9 coins with just 1 finer, and have jumped by 32% to \$7,050 Bid. Morgan Dollar buffs are also offering \$600 more for those alluring 1895-S in MS64. This new sight-unseen Bid of \$4,120 for either PCGS or NGC is quite a bit more than their last public auction results of \$3,880 and \$4,025 respectively. Positive momentum dominated within the Peace Dollar segment as well, as market-makers have been

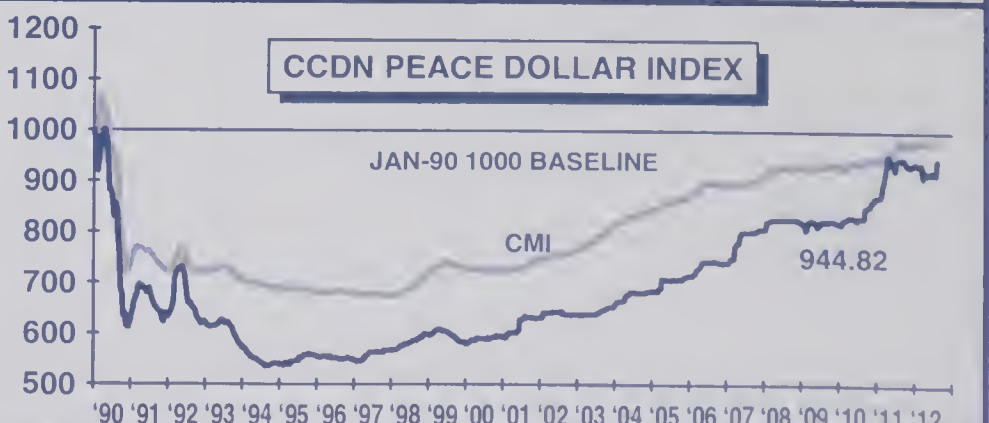

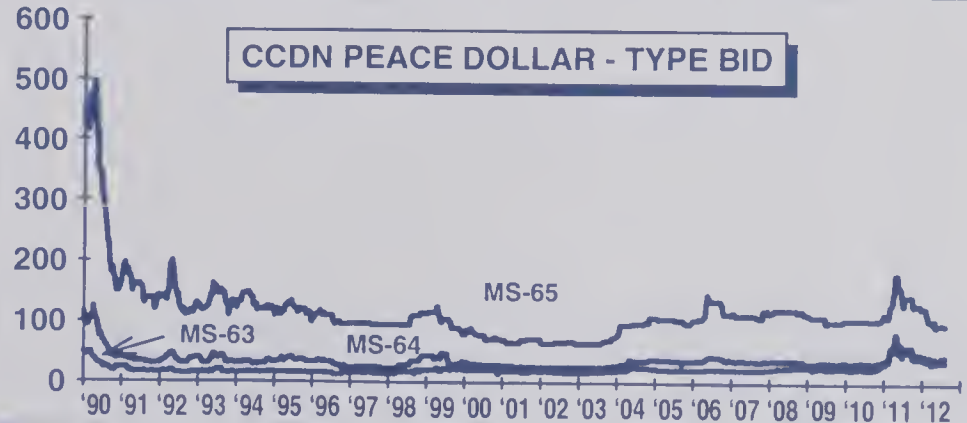

increasing Bid for quantities of mostly better-date issues in the Choice and lower Mint State grades.

Standing Liberty Quarters in a variety of grades are becoming more buoyant and the more common Type 2 issues are now back up a bit, with buyers paying at least \$650 for any NGC example grading MS66FH, regardless of what the coin looks like. There's never a dull moment whenever an early Proof Copper in pristine condition appears at auction. Such was the case for an 1843 Braided Hair Half Cent graded PR65RD by PCGS, which realized over \$38,000 during Heritage's Philadelphia auction held last week. Among other Proof Type material, Matte Lincoln Cents in PR64RB got a mild boost, but those often highly prized Liberty Seated No Motto Halves in NGC PR67, surprisingly, failed to maintain posture during their last public auction appearance. Those popular 1923-S Buffalo Nickels in PCGS MS65 fell \$300 shy of their previous Bid as a result of a poor auction outing. As impressive as they are to see when found, the current availability of 1930 Buffs in MS67 (P = 22; N = 5) is forcing these issues further down to the extent of a cumulative reduction of 22% for the year, but comparably graded 1938-D issues advanced moderately by \$6. Auction reception wasn't all that great for 1917-D Mercury Dimes in MS66 either, as those in NGC slabs sank by 5%. However, several late-date Mercs in Gem grades, mostly with Full Bands, are showing some teeth by way of 91 higher sight-unseen Bids in a turbulent market.

A not very invigorating auction session for 1917-S (Rev.) Walkers in NGC MS67 brought these issues down to an even \$30,000, and the Bidding activity also proved challenging for 1921-S Halves in PCGS MS65, ending lower for the second time this year with a cumulative decline of \$8,500 since January. A number of late-date Walkers in the lower tier of the Mint State grade range are rebounding somewhat while many of their peers in Gem grades are looking a bit anemic, such as 1935-D issues in MS66, which appeared on the verge of reclaiming that \$3,000 Bid level until now. However, two PCGS graded Walkers approved by CAC, a 1946-S in MS67+ and a 1947 in MS67, each realized just over \$11,000 during Heritage's auction held just prior to the ANA. The rush for Gold Dollars subsided a bit, but Type 3 examples in MS63 kept on accelerating to post another \$25 increase for an impressive current year gain of 42% so far. Common Eagles, both Indian and Liberty, are also up in MS63 condition, now Bid as much as 4% higher at \$990 and \$930 respectively, as Gold Spot hovers near \$1,620 an ounce.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported bid. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 19 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Morgans Peppered With Plus Signs Philly Auctions Combine For \$58 Million

Dealers have left Philadelphia and many are vacationing while others are attending regional and local shows, such as the Griffin Santa Clara show, running August 17-19. At last week's ANA World's Fair of Money, a unique 1873-CC No Arrows Dime graded PCGS MS65 was sold by Stack's Bowers for a record-breaking \$1.84 million, helping the official auction house to bring in a total of \$30.3 million. We have listed several of the many highlights herein. Heritage held their own PA auction just prior to the fair, selling a 1907 \$20 Saint-Gaudens Ultra High Relief Sans Serif Edge, graded PCGS PR58 for just over \$1 million. Their total in auction prices realized was a hefty \$27.5 million.

Last week's activity might be remembered as a much needed shot in the arm for Silver Commems, but the relief was short lived as some sporadic discounting resumed within this segment. Most of the declines were minor; however, Alabama 2X2 issues in MS65 and MS66 graded by PCGS were reduced quite significantly, and their comparably graded NGC peers descended as well, though, to a lesser extent. Hawaiian Halves in NGC MS61 thru MS65 and Missouri issues in PCGS MS66 were among the other important entries to drop. Three \$1 Gold Commems graded MS66-MS67 by PCGS traded lower, while a fourth in NGC MS61 was discounted. Dealers are paying \$3,750 sight-unseen for 1917 McKinley Gold Dollars in PCGS MS67, yet one sold in auction this week for \$415 less.

Better-date Morgan Dollars continue to fare very well across the entire grading spectrum, while generic issues all stood firmly in place throughout this week's trading. Collectors appear less fussy about the slab, as they just want nice Dollars for the grade and will pay premiums to get them, especially those that are usually a bit harder to come across. 1879-CC cartwheels in MS66 with CAC approval are Bidding \$10,000 higher sight-unseen since last month's report with more than a 100% premium over those of comparable grade without the green bean. So far, 16 examples have stickered in MS65, with none higher. Peace Dollars didn't rake in the many gains as they did last week, and some buckled lower by pressures of weaker activity. As common as they may be even in MS66, 1923 issues graded as such by NGC sold last week at public auction \$110 short of current sight-unseen Bid. Early Copper enthusiasts will be able to whet their appetites during the upcoming Long

Beach Pre-Show auction hosted by the Goldbergs in Beverly Hills, September 2-5. A rare 1831 Original Proof Half Cent, graded PR62RB by PCGS, will be offered among the featured lots. A bit of downside activity took place within the Type segment this week, as Capped Bust Half Dimes in PCGS MS66 trickled down by \$50 and Barber Quarters, both in NGC MS61 and PCGS PR63 slid by as much as \$30, bringing the latter issues down to an even Bid of \$600. Nearly \$200 was left on the table when a Liberty Seated Dollar, No Motto, in PCGS PR64 sold off at auction for less than sight-unseen Bid.

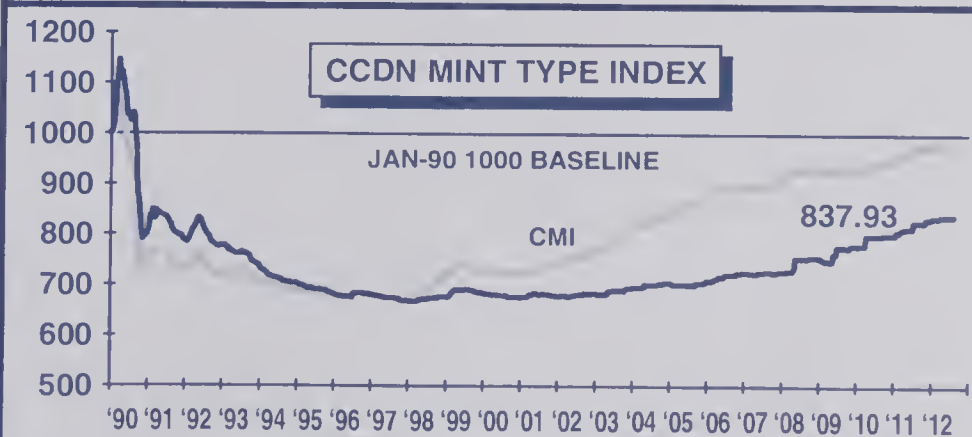

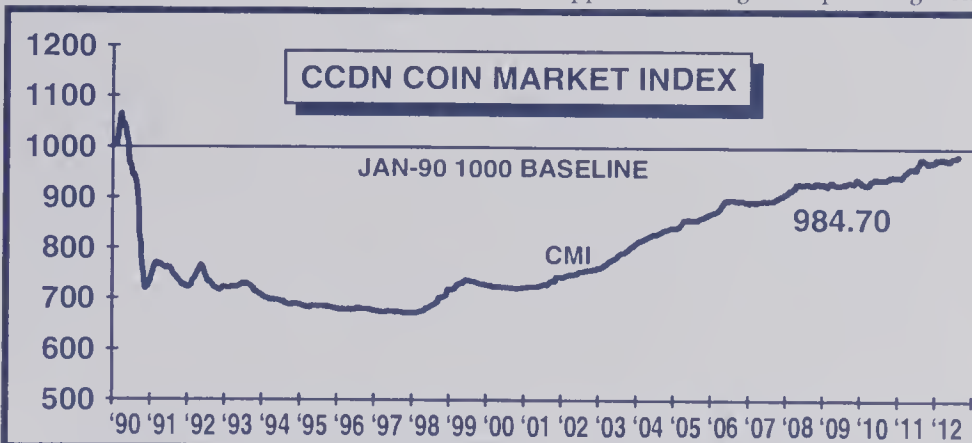

It was very quiet all week on the Buffalo Nickels front, as only 1938-D Buffs in NGC MS67 dipped slightly after a gain of \$3 last week. The past two weeks have been mildly volatile for the most common of late-date Mercury Dimes, especially in Gem and better grades with Full Bands, and several of these Mercs have given up some, if not all, of their gains from last week. The market weakness that led to the

mild decline for semi-key 1921-S Walkers in PCGS MS65 last week had a proportionately similar effect on those same issues in PCGS MS64. Market-makers are in search of one or more of only six 1936-S Walkers in MS67 graded by PCGS, offering \$400 more for these very elusive coins. Late-date issues in MS62 and MS63 are maintaining their buoyancy from last week, as several of their peers in Gem continue to slide lower. 1947 Walkers in NGC MS67 couldn't sustain themselves too well either and have lost all of this year's gains, and then some, with a drop of \$200.

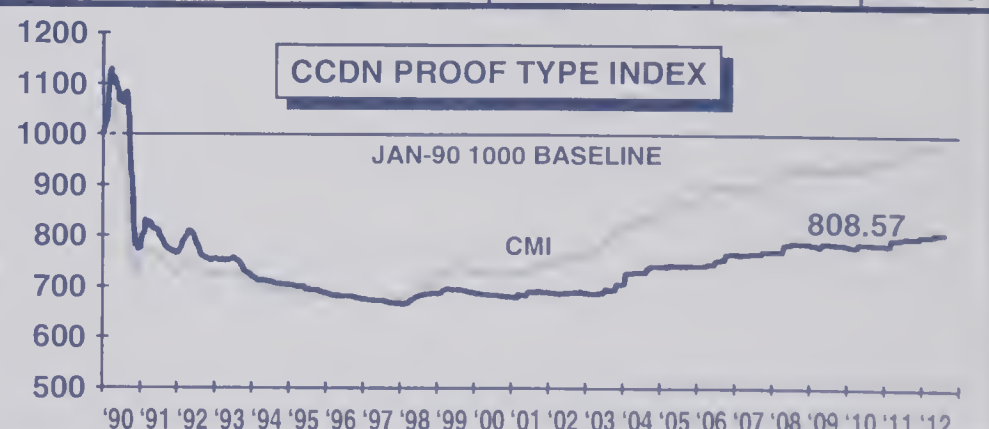

This week's activity within the Gold Type segment revealed little, if any, definitive outcome in terms of the direction of and prospects for generic Gold. The extent of the declines affecting only a handful of issues hardly denotes any significant near future trend. Bids for most of these issues in Mint State remained unchanged from last week while \$3 Indian Princesses in MS62 and \$5 Libs With Motto in MS63 advanced just marginally.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported Bid. Bids and Asks, Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are not the same as the dealer's, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

\$1.7
billion

CAC has evaluated over ~~250,000~~^{350,000} coins with a market value over ~~\$1.3 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

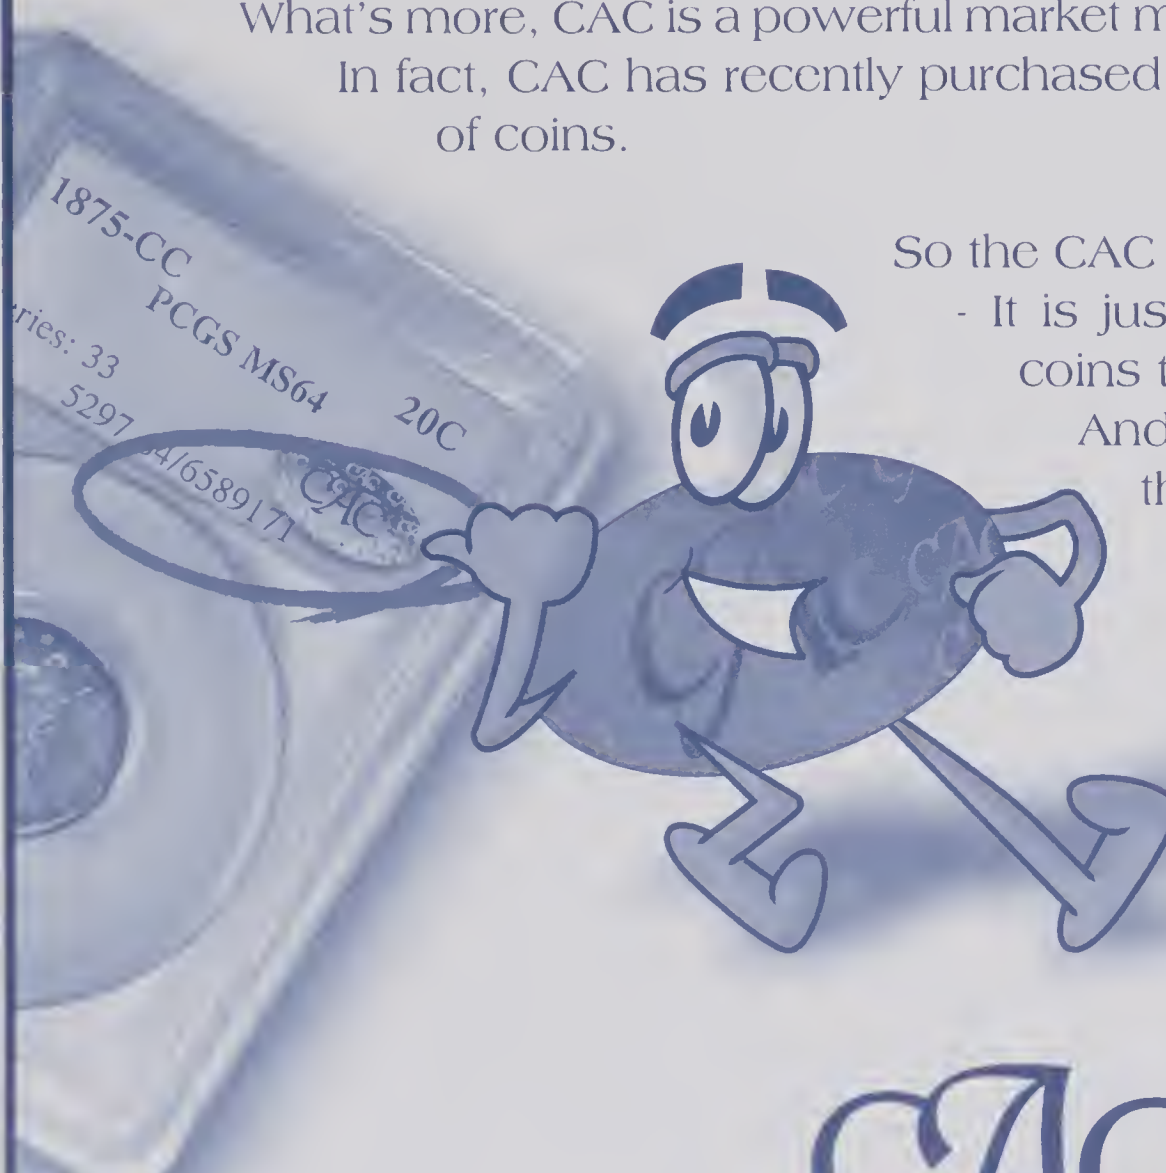

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$200,000,000~~ worth of coins.

~~\$200,000,000~~^{\$250,000,000}

So the CAC sticker does not add value
- It is just an easy way to identify
coins that are solid for the grade.
And it gives you confidence in
the value of a coin.

*The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.*

CAC[®]

"Because Confidence is Priceless"

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVII No. 34

August 24, 2012

Single copy price \$5.00

Better Gem Morgans Ascend Pre-Expo Auctions On Horizon

Gold, Silver and Platinum have all spiked, with the yellow metal closing at \$1,670, a level not seen since early April. Silver jumped 9% in the last five trading days to \$30.45, a 15 week high. Platinum took off with a gain of \$162 since the start of last week, now at \$1,555. Even with this surge in precious metals, most Gold Type material has yet to react to the more than \$55 increase in Gold Spot since last week, as only \$5 Indians in MS63, Type 3 \$20 Libs in MS61 and MS62, and \$20 Saints in MS61 thru MS65 have demonstrated any buoyancy. Those creamy-looking generic \$20 Saints in NGC MS67 actually fell by \$350.

Moderately higher offers for several Silver Commems may reflect renewed interest for this segment, but the Bidding activity was not charged up enough to entirely preclude the downside effects of over supply that have been burdening this segment for so long now. Some of the scarcer Commems, such as Hawaiians in NGC MS64 and MS65, and Missouris in MS66, extended their descent from last week as those of the latter issue graded by PCGS have settled lower by \$600 in just two weeks, and those low mintage 1939 Oregon PDS Sets in PCGS MS65 also descended \$50 below their previous Bid. One minute gain for \$2½ Sesquicentennials in NGC MS64 is outweighed by the three far more extensive declines posted among the Gold Commems for an overall net loss within this segment.

While there is some slackening off among common-date Morgan Dollars in MS63, the increasing appetite for better date examples in MS65 got quite a bit more voracious. Bidders are anxious to get their hands on as many of these tougher to find Gem cartwheels before the next major show takes place. 1879-CC and 1880-O Dollars in NGC MS65 are now Bidding sight-unseen at \$15,000 and \$10,000, respectively, while Bids for several comparably graded later date S-Mint issues such as the 1891-S, 1895-S, 1896-S, 1898-S, and 1904-S have been elevated appreciably since our last report. Generic Peace Dollars in MS65 have been continuously Bidding below \$100 since early May, and neither a generic nor a better date issue in any grade has been able to gain ground this week despite a significantly more robust Silver Spot.

Braided Hair Large Cents in MS61 and MS63 of both Brown and Red-Brown color designations and Copper Nickel Indian Head Cents in MS61 thru MS63, as well as their

Bronze peers in NGC MS63RB thru MS65RB, are all benefiting from a market that no doubt, has been among the most popular within the Type segment this year. Lots featured during the upcoming auctions in conjunction with and preceding the Long Beach Coin Expo are chock full of fabulous Type material, from some of the most eye-catching Mint State and Proof early Coppers to Liberty Seated, Trade, and Morgan Dollars. Common late-date Walkers in MS66 have now given back one-third of their sight-unseen Bid from this time last year, as volume discount trading is again causing each of these issues to incur further losses to a considerable extent. Those 1945-S issues graded NGC MS66 are continuing to be sold for 13% less than dealers are paying sight-unseen, as seen in this week's Market column. Heritage will be offering an extensive selection of some of the most sensational scarce-date and condition rarity Buffalo Nickels during its September Long Beach auction, including a 1938-D/S, one of only five graded

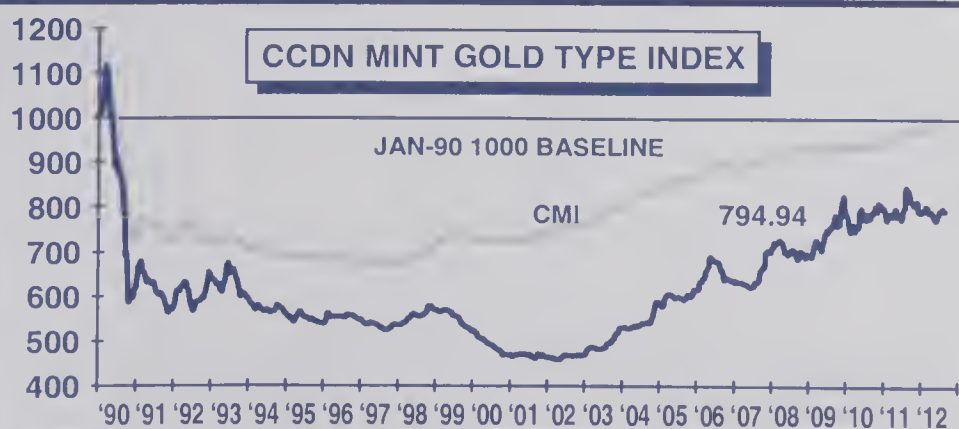

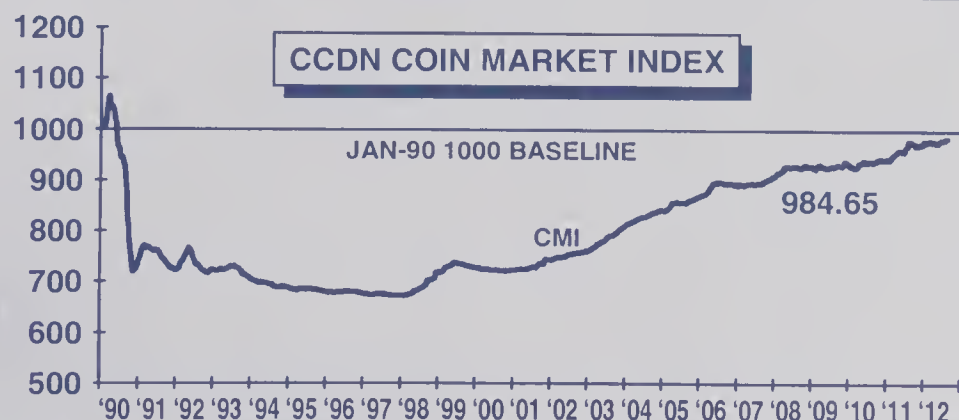

MS68 by NGC with non finer. After two previous weeks of ups and downs, Mercury Dimes saw the dust settle again with not much noteworthy activity to report. A mere \$1 decline for 1945-D issues in PCGS MS64FB marked the only Bid change within this segment.

Teletrade will hold a two-day "Post ANA Sale" August 26-27. This auction will include over 5,300 newly consigned coins from the ANA World's Fair of Money. Also, the PCGS #1 finest Everyman Silver Dollar registry set will be on sale. Buyers in this auction will automatically be entered to win one of three Liberty Head \$5, \$10, and \$20 certified Gold coins. Bonhams will hold an auction September 2 in Los Angeles. A few PCGS examples include an 1877 Indian Head Cent graded PR66R; an MS64 1921-D Walking Liberty Half; an 1857 ex-S.S. *Central America* \$20 Liberty in MS66; and a 1925-S \$20 Saint-Gaudens with a grade of MS64. The Goldbergs will host a Pre-Long Beach sale September 2-3, also in the City of Angels. We have listed several highlights herein. The Long Beach Expo will be held September 6-8, with an auction by Heritage.

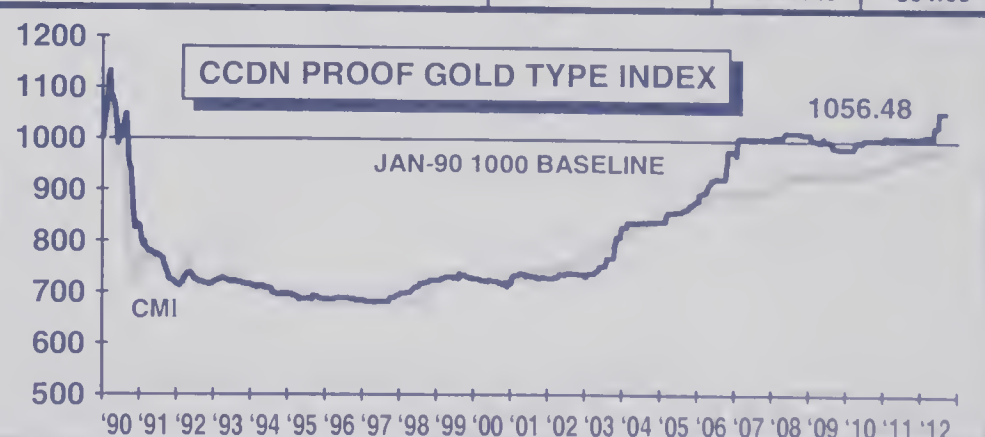

ICTA has recently released a warning to dealers not to talk with IRS agents without an attorney present. The IRS has a task force currently investigating cash businesses, and over \$500,000 has recently been seized from coin dealers. ICTA also advises not to take advice from your bank teller in regards to structuring cash deposits to avoid being reported. Banks must file a Suspicious Activities Report to the federal government when cash deposits are consistently just under \$10K.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of a high Bid. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading network. *sell* to *buy* prices and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that a list exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied warranty or level that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin may display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We do not state Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis

A SMART APP *for smart collectors*

Introducing NGC Coin Details

NGC's greatest research tools
in one free mobile app.

With a simple barcode scan, you
can verify NGC® certification and
uncover all the details you need:
NGC US Coin Price Guide values,
VarietyPlus® attribution listings,
images and specifications, and
auction data. NGC Coin Details
is free and easy to use—and you
can take it wherever the hobby
takes you.

Scan the code or visit
NGCcoin.com/app
to download the app.

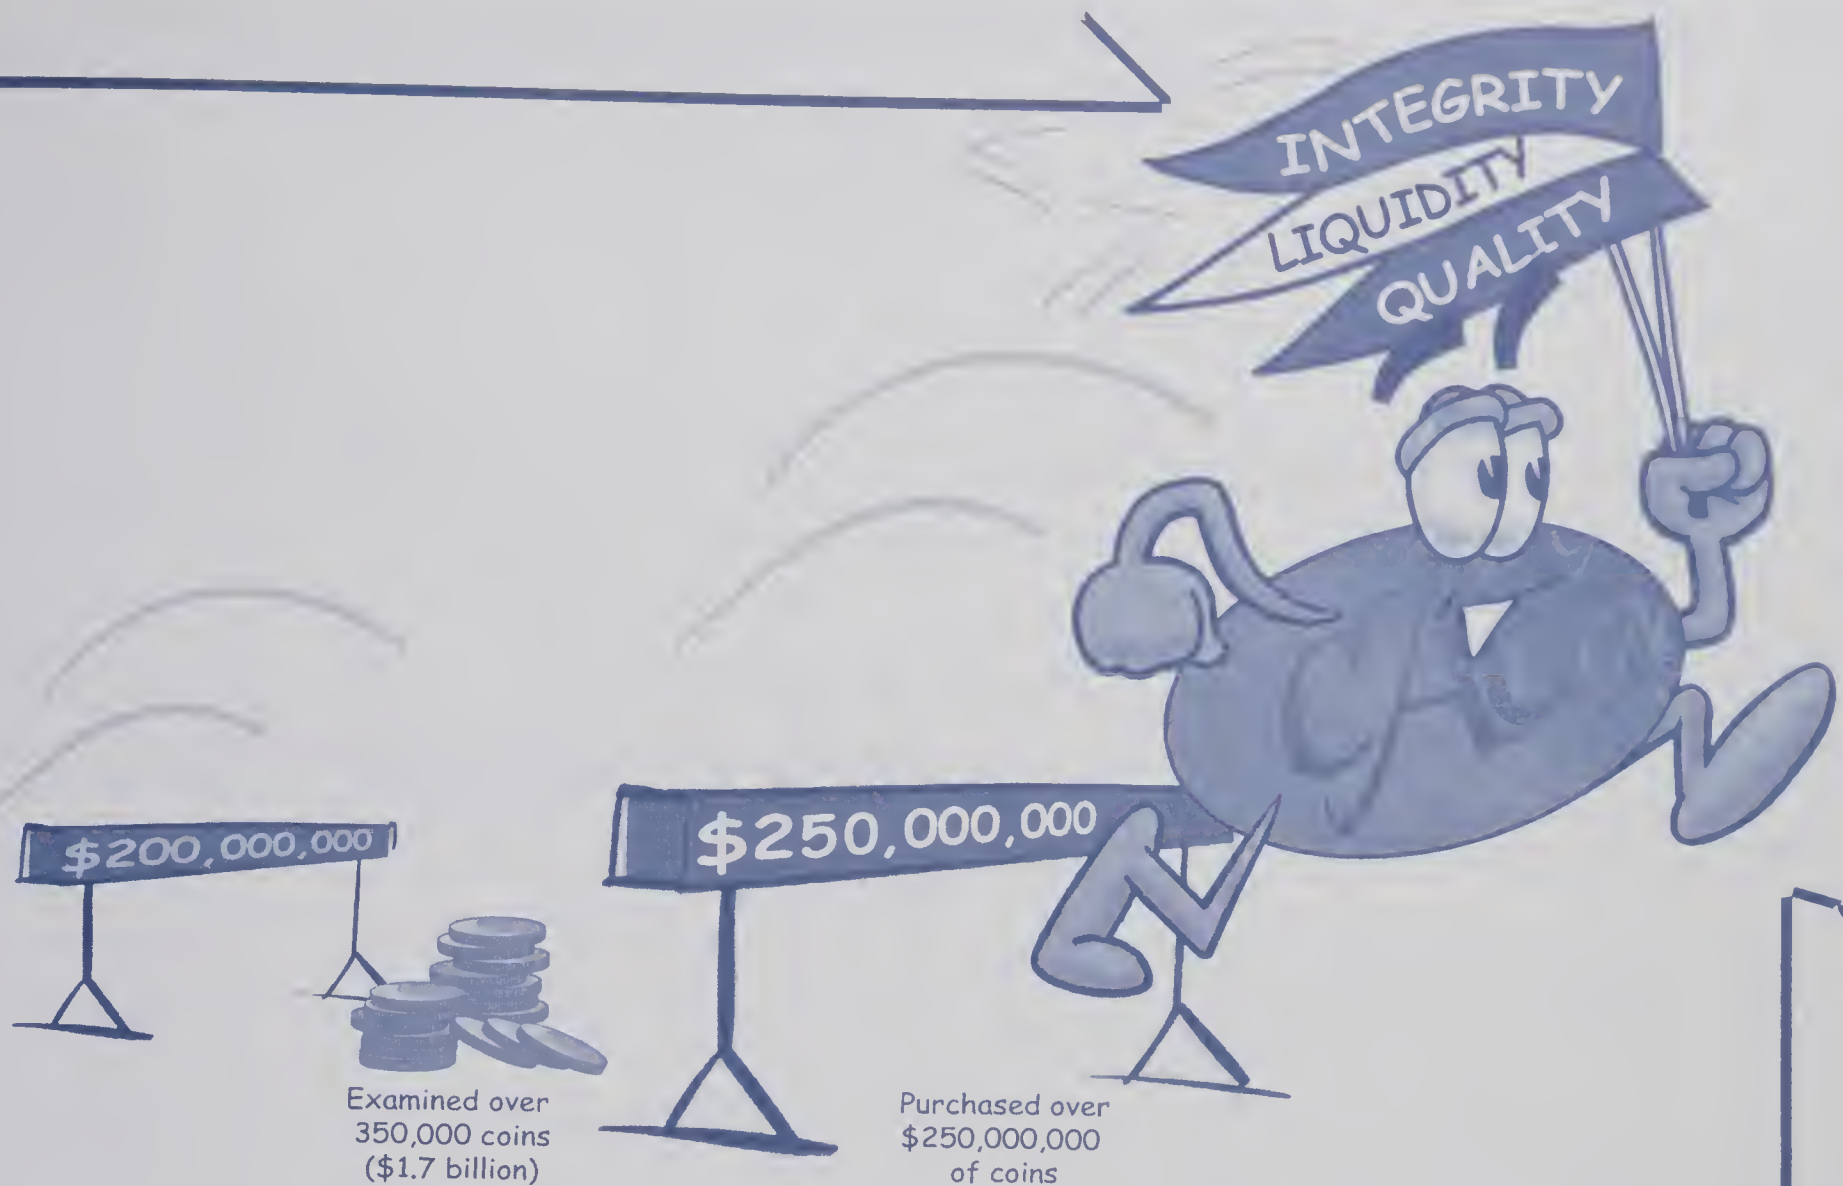

Available on the
App Store

App Store is a service mark of Apple Inc.
iPhone is a trademark of Apple Inc.,

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVII No. 35

August 31, 2012

Single copy price \$5.00

All Eyes On Precious Metals

Sight-Unseen Market Healthy

Gold was on a tear, trading at over \$1,670 before falling back a bit in anticipation of Fed Chairman Bernanke's speech on monetary policy to central bankers this Friday, August 31 in Jackson Hole, Wyoming. Gold is currently at \$1,654 with Silver Spot closing at \$30.40, after surpassing \$31 in intraday trading earlier this week. Since January, over \$7.7 million in sight-unseen trades have taken place. Last year, from January to August 30, 2011, sight-unseen trading was at a much higher \$14.3 million, when Gold was \$1,827 and Silver was \$41.40 at the end of August 2011.

Silver Commems managed to make it through this week with relatively light trading activity that, nevertheless, boded well for 1935-1937 Arkansas PDS Sets in MS62 and in MS63. However, the persisting pressure posed by offers to sell at a discount was entailed by yet more reductions for a few other issues. Elgin Halves in PCGS MS65 slid further, bringing these issues down by 17% this year. Gold Commems remain steady with no advances or declines to report. After several weeks of appreciable gains, Bidders of most better-date Morgan Dollars have held off on posting another round of increases. Quite a few sight-unseen trades have occurred this past week for these slightly to better date Dollars. However the majority of trading activity was centered around the more common issues with buyers now paying \$108 for any PCGS or NGC Gem example, regardless of what it looks like. NGC examples grading MS65 that are blast white are receiving a \$4 premium while white PCGS Morgans have buyers lined up paying \$23 extra. Trading activity within the Peace Dollar segment leaned more so to the negative with marginal declines concentrated amongst the generic issues in MS64. Liberty Seated Dimes With Legend in MS62 caught a bit of a chill as their Bid receded back to a level where it stood early last year with those graded by PCGS dipping even a bit further and pulling down their peers in MS61 as well. Trade Dollars remain in heated demand with increases in MS62. A beautiful Proof 1853 Liberty Seated Quarter With Arrows & Rays, graded PR65 Cameo by NGC, is currently among the top watched lots in Heritage's upcoming Long Beach sale and may well be one of only five known specimens of its kind.

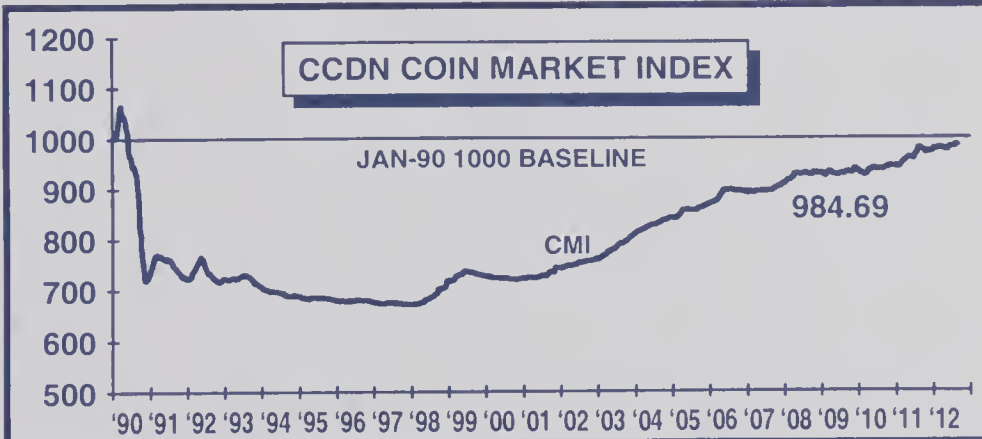

Buffalo Nickel enthusiasts are aware that 1923-S Buffs in Gem and better grades have had stages of vulnerability in the recent past, and their peers in MS64 have now also been tainted this week with a bit of a destabilizing effect that can

come and go from time to time within this segment. Declines were fairly moderate for these issues, but less so than the 1935 Buffs in PCGS MS66, which posted an 11% loss. Internet only auction sites are leaving plenty of money on the table by selling Buffalo Nickels for far less than dealers are willing to pay sight-unseen. A 1928 PCGS MS65 realized \$154 while buyers have been in place for years offering to pay \$205. Gem PCGS 1936 and 1935-S Nickels realized 18% and 11% below highly visible standing sight-unseen buy offers. Even the worst possible examples of these coins could have been shipped for a check with no chance of a return.

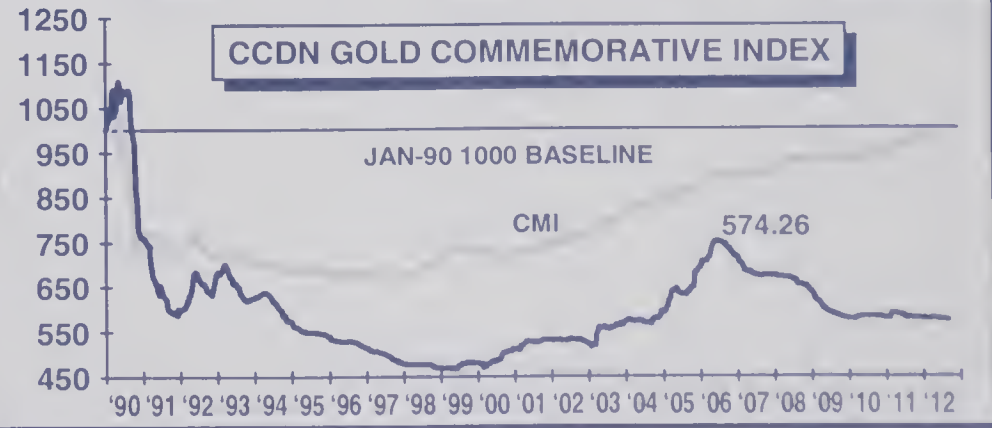

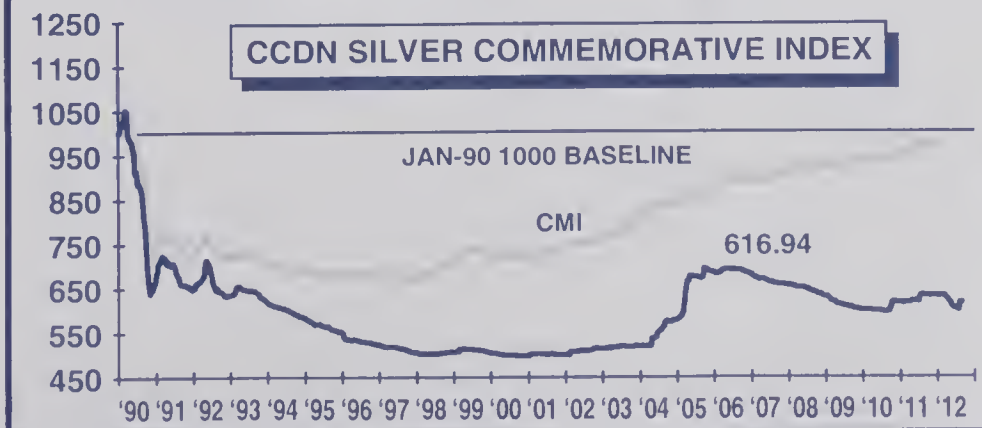

Results from next week's Heritage's Signature Auction will reveal the price realized for a closely watched key-date 1921-S Walker, graded PCGS MS64 with CAC approval, and its performance will be considered somewhat of a gauge of the market's fortitude insofar as classic 20th century material is concerned. Late-date Walkers are having tough days, no doubt, but too many of these issues in Gem and better grades, such as the 1942 in MS66 and 1946-D in MS65, are being turned over at auction for less money than what some Bidders are offering for them, similar to the Buffalo Nickels mentioned earlier.

Prospects for across-the-board vitality within the Gold Type segment have been dimmed somewhat by Gold Spot's slight pullback to the \$1,654 per ounce level, but the market for common Eagles and Double Eagles in MS61-MS62 remains quite vibrant. \$2½ Libs which have been strong recently in the lower Mint State grades sank by 7% in MS63. Gold Type in MS66 is generally stable barring a \$50 decline for \$5 Libs With Motto.

Long Beach is up next, September 6-8 with an official auction by Heritage. This Expo will feature the special Collectibles Display including the "Walker Showdown," which consists of the top two ranked registry sets within the Walking Liberty Half Dollar Major Varieties Circulation Strike category. Also on display will be one of the two known 1907 Ultra High Relief, Sans Serif Edge Saint-Gaudens, graded PCGS PR58. In addition, the only known complete set of Matte Proof US Gold coins from 1910 will be offered for viewing. Among major non-numismatic attractions will be the first west coast display of 1910 era baseball cards recently discovered in an Ohio attic. Another special exhibit will showcase financial documents signed by well-known historic figures.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of the most active nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the new, lower, or no Bid. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary according to the needs of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

WALKING LIBERTY HALVES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Single copy price \$5.00

Gold Surpasses \$1,700

Long Beach Kicks Off Strong

Gold has spiked nearly \$50 in the last week to \$1,703 an ounce, a level not seen since early March. Such positive movement in the yellow metal tends to bode well for coin shows, perfect timing for the Long Beach Expo which is currently underway. Last year at this time, Gold was \$1,870, not too far from its all-time high. Silver is also on the rise. At \$32.62, one would have to trek back to early April to see a Spot this high. Going back to this time last year, Silver was a very strong \$41.82 an ounce.

More juice is getting squeezed out of the Silver Commem segment with little or no replenishment in sight as those that are in decline again have been reduced in recent months by sellers offering them for discounted levels. As Choice and Gem examples were reduced to levels that may well test this market's bottom limits at times, their peers in the lower grades are often subjected to downward pressure as well. All Gold Commems remain on solid ground for a second straight week.

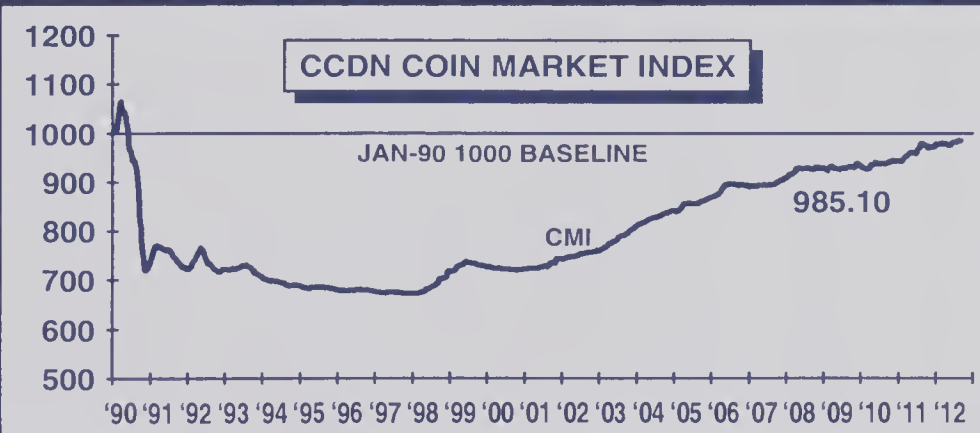

There's still positive momentum permeating the Morgan Dollar segment as common date issues in MS63 readjust back up to wipe out their mild declines from last week and a few of the better-date cartwheels in lower grades made considerable gains. Among the star performers this week were 1894-O Dollars in MS62, which are up by 27%, and 1897-O issues of the same grade getting Bid up by \$125. Select CC Morgan Dollars in their original GSA holders are higher. Some dealers are paying much more than the sight-unseen Bids listed on Page D for white or whitish examples on a sight-seen basis. NGC has recently begun adding the plus (+) designation to the wraparound grade labels, and market-makers are paying handsome premiums for them. Peace Dollars are still being weighed down, largely by a lack of fresh material needed that would likely stir up more enthusiasm for them.

The very strong prices realized for several of the lots representing the Carvin Goodridge Collection of Half Cents offered up for auction by the Goldbergs this past week attest to steadily increasing demand for Early Copper. Sight-unseen Bids for several Copper and Copper-Nickel issues in a variety of grades are again being elevated as a consequence of the low supply relative to the number of collectors in pursuit

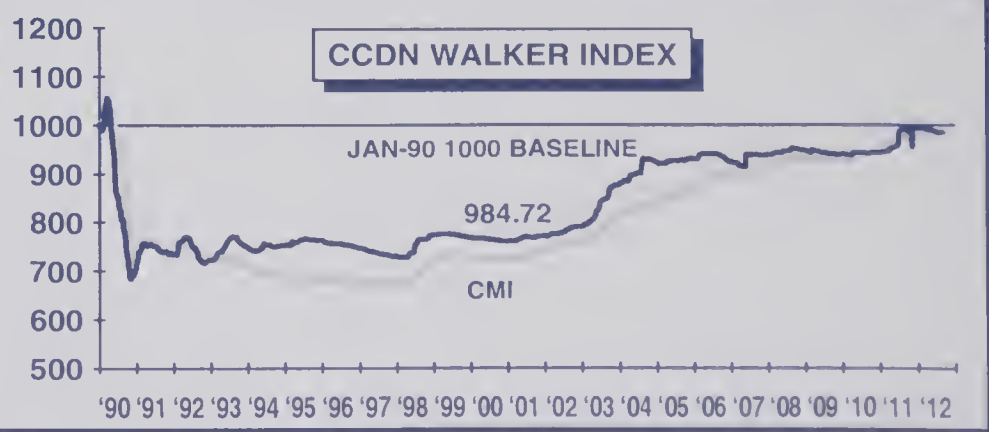

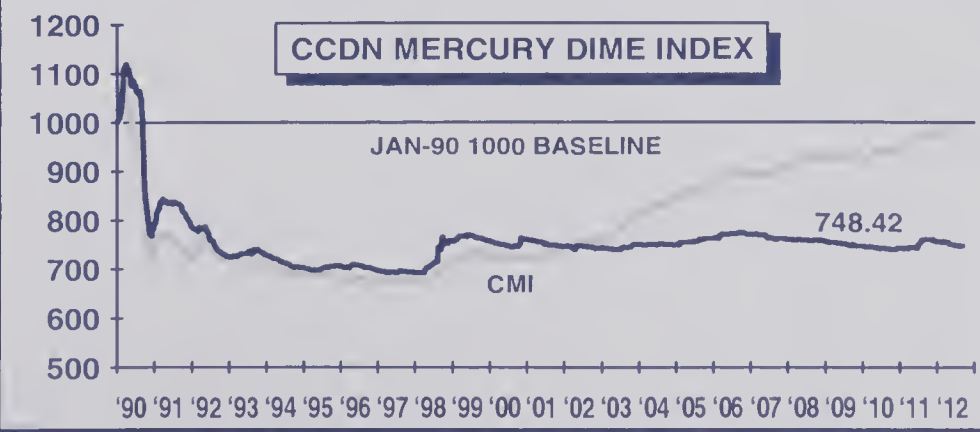

of them. Exceptional quality Copper material, of any variety and denomination, is still capable of realizing astounding prices at public auction. A 1941-S Lincoln Cent graded MS67RD+ by PCGS with CAC approval, for example, sold through Teletrade this past weekend for \$3,680. The remainder of the Type segment appears to be in a wait and see posture, along with several other segments, pending disclosure of the results relating to the recent string of major auction activities in conjunction with those currently underway in Long Beach. While Buffalo Nickels have hunkered down and stayed mostly out of the spotlight this week, a gorgeously toned semi-key 1920-S Buff in NGC MS65 is due to end its Bidding session with Heritage in Long Beach, and the competition for it has been quite healthy so far. Mercury Dimes are also unable to really grab headline attention, but enthusiasts confident of their future prospects continue to devour those exceptionally high quality specimens with Full Bands. Late-date Walkers were subjected to far less harshness compared to recent past weeks in terms of the discount activity that has been prevailing within this segment throughout most of this year. 1942-S examples in PCGS MS66 and comparably graded 1947-D issues in NGC slabs fell by 9% and 15%, respectively. With Gold Spot up to just above the \$1,700 per ounce level once again, some market participants expect that there will be rejuvenated interest in hedging against economic uncertainty with much of the generic Gold Type material that is still readily available. The vast supply of such material is, perhaps, why the upward movement within this segment isn't more widespread than it is, but that condition can quickly change. \$5 Libs With Motto in MS66 are lower again this week to consummate a cumulative decline averaging 13% this year.

Twenty dealers in Long Beach are participating in the Collectors Corner CoinSearch service, which allows users to find coins on the bourse with a smart phone or tablet. This service debuted at the last Long Beach Expo, with a total of 15 participating dealers listing over 4,600 coins. Some 9,100 coins are listed this time around, though Heritage is responsible for nearly half of these coins which are being auctioned and not for sale on the bourse floor. The Goldbergs completed their Pre-Long Beach auction September 3 which totaled \$5 million. We have listed several of the many highlights herein.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

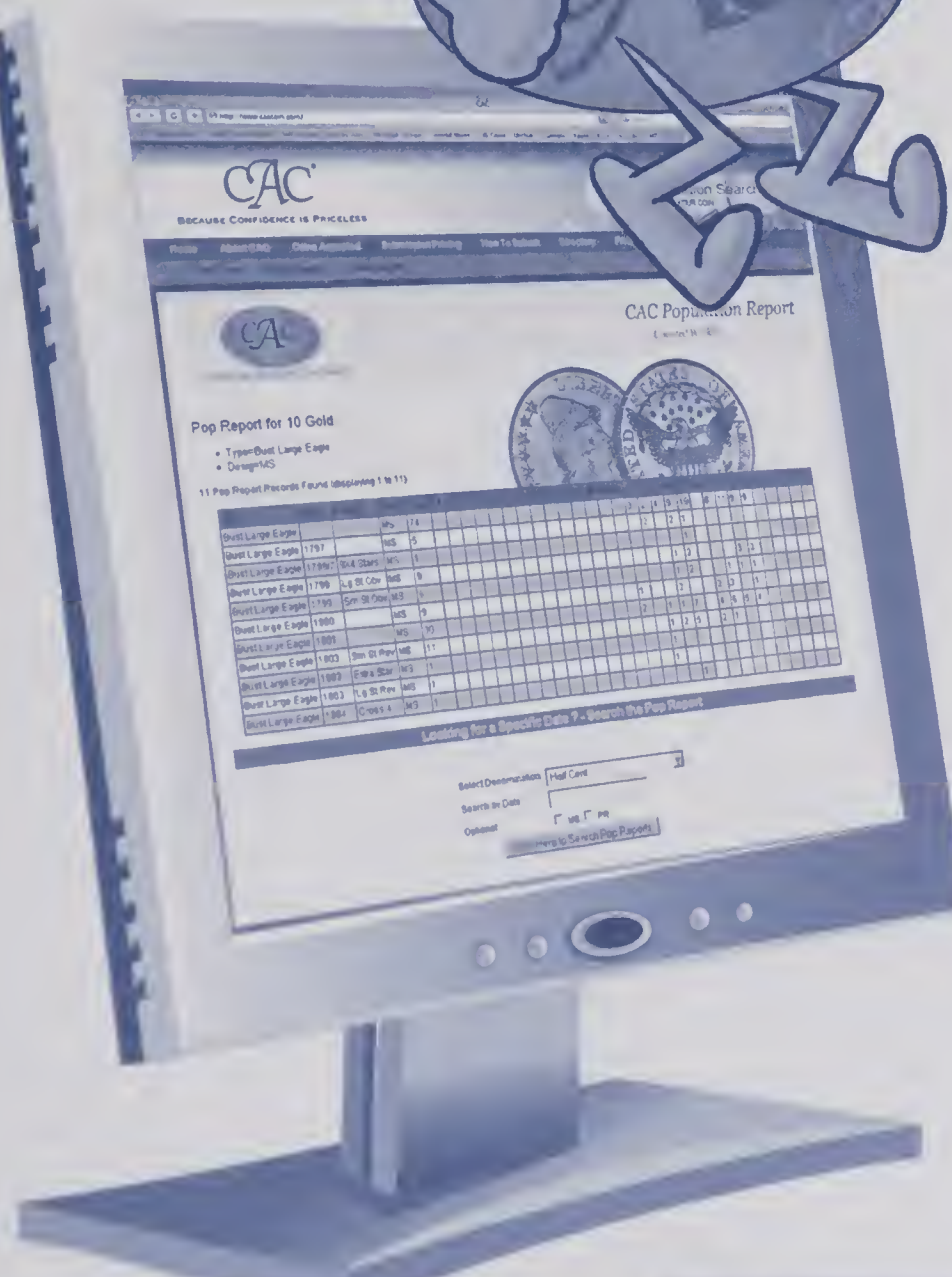

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

QE3 Pushes Precious Metals

NGC Goes Back To Black

Gold Spot jumped \$39 an ounce on the news of the Fed launching a third round of quantitative easing (QE3) a program in which the Federal Reserve will buy \$40 billion of mortgage backed securities per month until the job outlook improves substantially. This is in addition to the twist program, which makes for a total of \$85 billion per month in purchases by the Fed. Bernanke also commented that interest rates will be held near 0% through 2015. The yellow metal is now at \$1,769—a high not seen since February. Silver is just as strong, moving up \$1.48 on today's economic news to \$34.72 and hasn't been this high since March 6. Platinum, with a Spot of \$1,680 is up nearly \$300 from last month. Gold has risen to a record high in terms of the Euro, climbing above €1,360 per ounce, while the previous record high, €1,359 was reached almost exactly one year ago, on September 9, 2011. PCGS has opened a new submission center in the La Bourse-Richelieu Drouot area of Paris, accepting coins for grading from collector club members and authorized dealers in the European Union. NGC is celebrating its 25th anniversary by releasing a limited edition black "Retro Holder." American Silver Eagles, and modern golden Dollars (Sacagawea, Presidential and Native American) are the only eligible coins that may be submitted for grading and encapsulation in these holders while supplies last from October 1 through December 31. Original black slabs from 1987 are highly collectible and command a premium, often in the several hundred dollar range.

Other than mild declines for Isabella Quarters in PCGS MS61 and MS62, Silver Commems had an easy week for a change, and there even were a couple of slightly upward adjustments in Bid for NGC graded Commems making a bit of a recovery, namely 1934-D Oregon Trail and 1921 Pilgrims in MS65. For a third straight week, Bids for all Gold Commems remain stable. Dollars are quiet for the most part, with only marginal movement occurring for select Morgans. Among the gainers were 1880-CC in MS63DMPL, 1881-O in MS65, the 1883-CC and 1884-CC, both in MS66. Those 1887 and 1904-O cartwheels in MS65DMPL appear to be more appreciated as well, as are a multiplicity of PL issues. Both NGC and PCGS graded 1879-CC cartwheels in MS64PL, however, were among those that failed to keep pace with most of the other PL issues that achieved higher ground. Peace Dollars all refrained from moving in either direction.

Early Copper just keeps getting hotter, and Bidders are grabbing for any Liberty Cap and Draped Bust Large Cent they can in MS61 for considerably higher levels, regardless of color designation. Specimens of the former issue in this grade now Bid at least \$5,000, even in Brown, and those of the latter issue advanced this week by \$1,000 in NGC MS63RD. Bids for Trade Dollars in MS61 and MS62 are up \$50 so far this year. Only a couple minor declines are recorded within the Proof Type segment. Exceptionally high quality Nickels can still arouse a lot of competitive Bidding. An 1883 No Cent Liberty Nickel, graded PR67UCam by NGC, sold for \$7,590 this past weekend during an online auction session with Teletrade. Although the Buffalo Nickel segment may appear as if it can't stir up much noteworthy attention lately, scarcer key-date Buffs are still fervently pursued by serious enthusiasts who go all out to acquire them, even if they're not Gems. A 1926-S Buff in PCGS MS63 took in a hefty \$14,100 last week during Heritage's auction in Long Beach. Mercury Dimes, even in MS67FB, have been known to periodically have unfavorable encounters with the consequences of over-supply, and that's what happened again this week to a dozen or so of late-date Mercs in this grade column. Bids continue to descend for a couple late-date NGC Walkers including the 1942-D in MS67, and the 1942-S in MS66. Higher sight-unseen Bids are in place for Walkers that are deemed solid for the grade or better. \$625 is offered for any MS67 PCGS examples with CAC approval and \$875 for the same stickered coin grading PCGS MS67+.

There is an air of cautious optimism among market-makers who participate heavily in Gold Type material, despite a seemingly steady Gold Spot market passing this week's test for endurance in terms of averting another profit-taking down-spin. Just about every common date \$20 Saint is higher in grades MS61-MS65, though MS67 examples have declined to a new low of \$6,000. The key to the Indian Quarter Eagle series, 1911-D, is off a bit in PCGS MS61 in reaction to a discounted wholesale Ask price, while an NGC AU55 example sold sight-unseen through the dealer-to-dealer exchanges for \$4,200. The numismatic crime information center has been authorized to offer a \$100K reward for information that leads to the recovery of the 1870-CC \$20 Liberty graded NGC AU58 stolen October 17, 2011 from a Brinks shipment to Dallas from Los Angeles.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity. It is not a nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid, or by Ask. Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. The information of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.coindealernews.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

www.CoinPlex.com

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{350,000}~~250,000~~ coins with a market value over ~~\$1.3~~ billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$200,000,000~~ worth of coins.

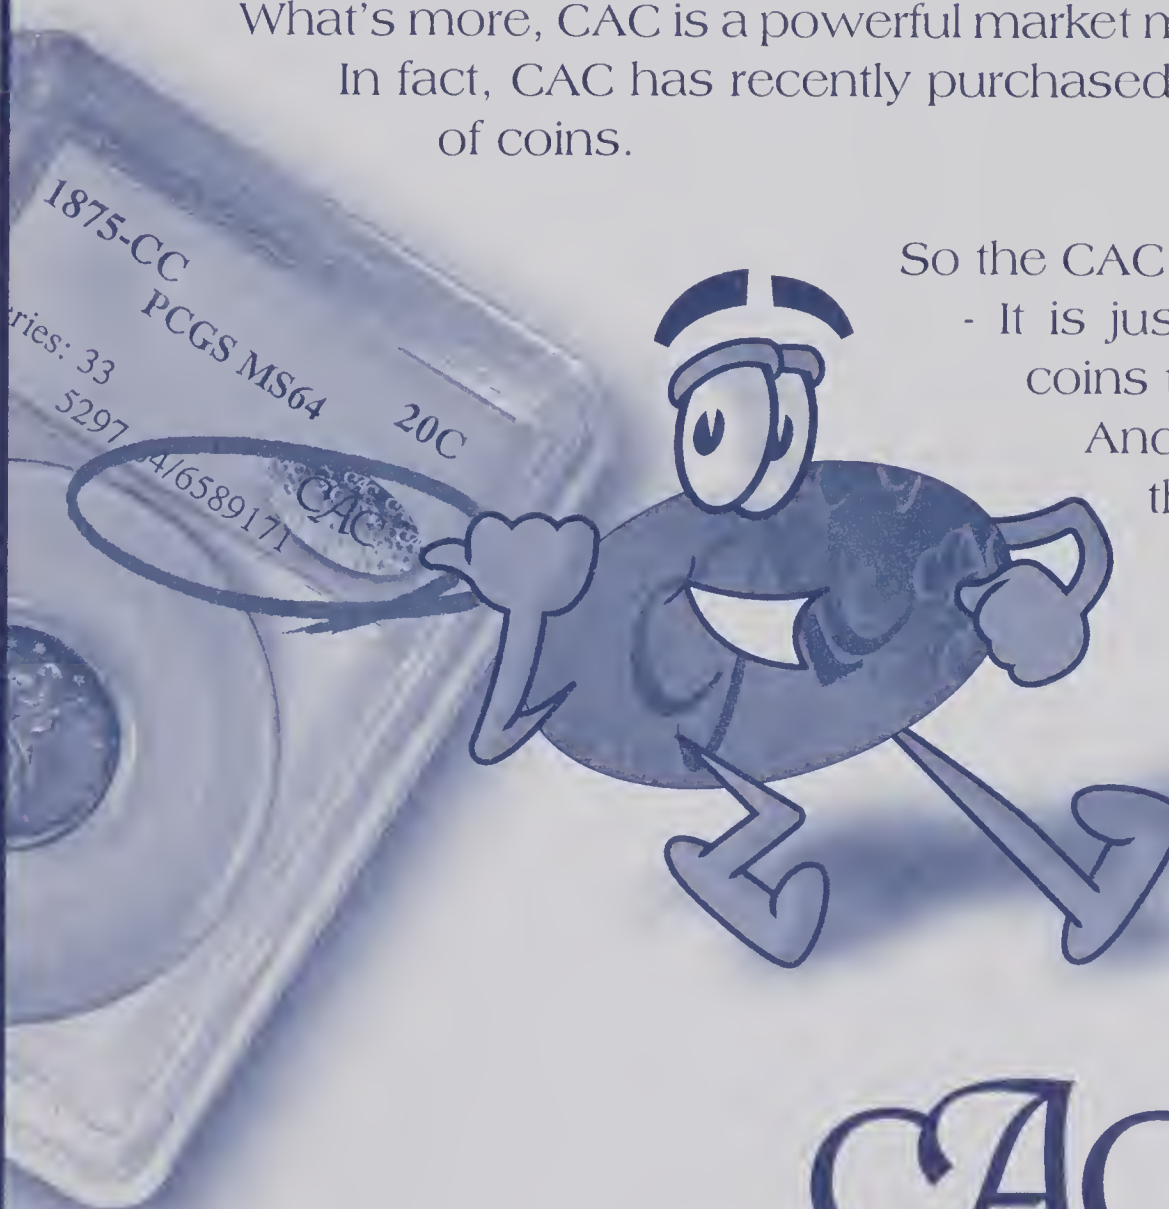

^{\$}250,000,000

So the CAC sticker does not add value

- It is just an easy way to identify coins that are solid for the grade.

And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC[®]

"Because Confidence is Priceless"

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 19 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Morgans Continue Elevation Busy October On Horizon

Gold and Silver have generally maintained their strength from their recent run-up with the former at a Spot of \$1,768 and the latter at \$34.60 per ounce. Such levels, of course, bode well for the plentiful upcoming shows and auctions. Sight-unseen trading through the dealer-to-dealer networks is a bit on the slow side, with less than 100 transactions taking place this week.

It's too difficult to predict a turnaround time for the Classic Commem segment when it apparently has not yet met its nadir as the decliners outnumber the gainers. Within the MS66 grade column, 1937-D Oregon Trail issues were forced to post another decline, as those in NGC slabs have been reduced by 25% this year. \$2½ Pan-Pacs in PCGS MS64 and NGC MS65 were among the Gold issues to slide, while Grant, No Star, Dollars in NGC MS61 and MS62 have had their gains for the year nearly completely wiped out. Choice through Gem generic Morgan Dollars are the issues that are predominantly maintaining the elevation within this segment, but a few better-date cartwheels in the lower grades are also participating in the pursuit for higher ground. Bidders are still in need of 1879-O and 1879-S (Rev. of '78) Dollars in MS61, comparably graded 1888-S issues, 1891 Dollars in both MS61 and MS62, as well as like-graded 1921 Morgans. A very scarce 1883-S Morgan Dollar in NGC MS65 will be available to the highest Bidder on October 5 during the Silver Dollar & Rare Coin Exposition in St. Louis hosted by Scotsman. Peace Dollars remain mixed with sustainability problems persisting for, among others, generic issues in PCGS MS65.

The next round of major auction events occurring throughout various parts of the country is expected to perk things up for Mint State and Proof Type material of all sorts. Drifting lower, albeit moderately, were Shield Nickels with Rays in MS66. Their No Rays peers in PR67, With Cents Liberty Nickels in PR66, both in PCGS slabs, and Liberty Seated Dimes With Legend in PR64 and PR67 in NGC holders, all missed their current Bid targets as well. No Motto Liberty Seated Quarters in NGC PR65 are now \$70 lower, while With Motto Seated Halves in MS61 and MS62 dropped rather severely after a poor auction outing. Scotsman will be auctioning off an 1875-S Twenty Cent Piece in NGC MS65PL, unique for the grade, during its Rare Coin Expo next month. The reduction for 1929 and 1930 Mercury Dimes in NGC MS65 pales in comparison to that posted for 1942-S issues in PCGS MS67, which lost nearly 19% this week. Other than the 1943-D in PCGS MS64FB,

Full-Band Merces fared well enough to stave off any real trading at a discount. 1931-D Merces in PCGS MS64FB+ and MS65FB+ are Bidding significantly higher, now \$135 and \$280 which have a pop of one and two respectfully.

Common late-date Walkers in MS65 can't break out of the shell that has been keeping them at a level well below \$100 since February. Among some of the better-dates getting hit with pull-backs this week were 1934-S issues in PCGS MS65 and the 1936-D in NGC MS66, which got hammered by down by 13% in reaction to its most recent auction appearance.

Gold Spot's ascent has yet to really have the impact on generic Gold Type many had expected, but this segment is still aglow with positive activity. Heritage's upcoming ANA auction next month in Dallas will be replete with some of the most incredible high quality Mint State and Cameo designated Proof Gold issues. Among the scarcer examples featured is an 1895 \$2½ Lib, graded NGC MS66PL with CAC approval.

At the last Long Beach Expo, PCGS graded the finest known 1943-S Bronze Cent, owned by the co-chairman of the Texas Rangers, Bob R. Simpson, as MS62BN. This coin was recently acquired from an east coast dealer by Legend Numismatics on behalf of Mr. Simpson for \$1 million. Legend has also announced they are trying their hand in the auction business once again. Partnering with Morphy Auctions, just over two hundred lots of certified coins will be offered October 10 in Denver, PA. We have listed a few of the highlights herein.

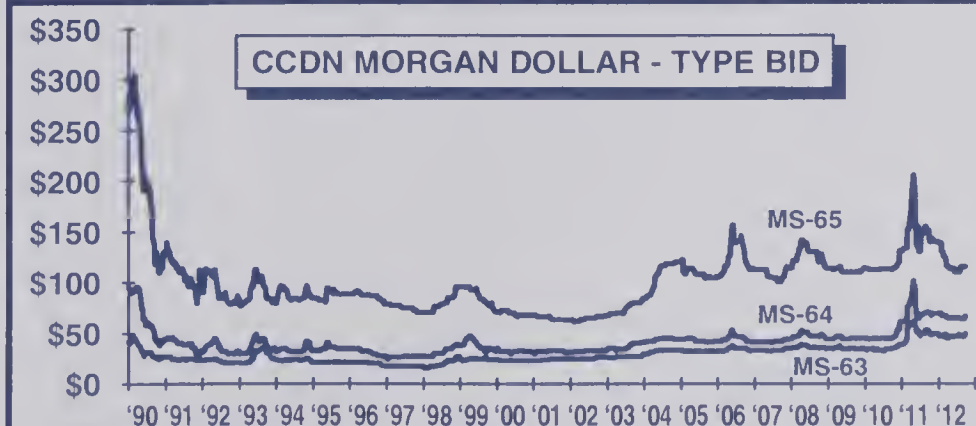

Mid-American Rare Coin Gallery in Lexington, KY was broken into September 17 and a quantity of US Gold coins and currency was stolen out of a smashed display case. Among the

items taken were 60-70 US Gold coins housed in black Coin World snap lock holders and assorted Smithsonian restrike private issue Gold in NGC holders. A second theft occurred in Carlsbad, CA from a residence where a significant amount of high grade Type was taken along with a complete set of high grade Morgan and Peace Dollars.

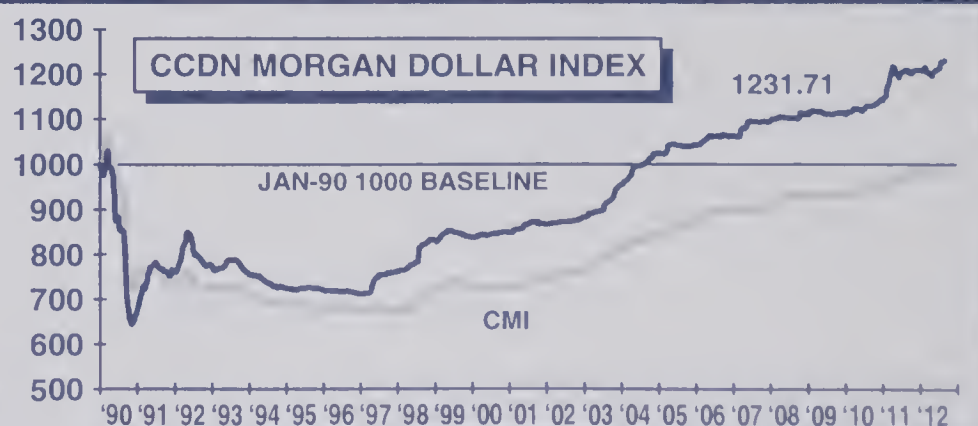

PCGS will hold a Members Only show in Las Vegas at the Venetian September 26-29. Then it's the Silver Dollar and Rare Coin Exposition with an auction by Scotsman in Saint Charles, MO beginning October 4. October remains busy as the ANA National Money Show is slated for the 18th thru the 20th in Dallas with an official auction by Heritage.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid by Auction. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the property of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Betty Morris

6 Months-\$83, 1 Year-\$148, 2 Years-\$246.

City _____ State _____ Zip _____

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

[illegible]

CCDn does not buy/sell any coins whatsoever. CCDn will not recommend any particular dealers. Bid prices are represented as authentic to the CCDn, nevertheless, CCDn implies no guarantee whatsoever.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CAC Leaps Another Milestone While Leading the Charge!

CAC was founded over four years ago by leading members of the numismatic community to set forth stringent standards for quality within a grade. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC is leading the charge to identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade - look for the CAC sticker.

CAC continues to leap impressive milestones at breakneck speed, while giving you confidence in the value of a coin.

"Because Confidence is Priceless"

A SMART APP *for smart collectors*

Introducing NGC Coin Details

NGC's greatest research tools
in one free mobile app.
With a simple barcode scan, you
can verify NGC® certification and
uncover all the details you need:
NGC US Coin Price Guide values,
VarietyPlus® attribution listings,
images and specifications, and
auction data. NGC Coin Details
is free and easy to use — and you
can take it wherever the hobby
takes you.

Scan the code or visit

Silver Dollars Move Up

Gold Reaches Seven Month High

Over \$1 million in certified coins reportedly changed hands this September thru the dealer-to-dealer trading networks. Even with the recent run-up in the precious metals, trade volume has declined steadily for months. Less than half of the total transactions were recorded this summer (June-Sept) compared to last, when nearly \$11 million was bought and sold sight-unseen. This volatility can be attributed to the record levels Gold Spot was achieving last August, topping \$1,889 an ounce. At \$1,778 an ounce, the yellow metal is now at a seven month high.

One consignor got a bit too lax giving up an Isabella Quarter in NGC MS64 at auction for more than \$100 below sight-unseen offers to buy. Prices realized at public auction can be found in this week's Market column published the fourth week of each month. Negativity within the Silver Commem segment hasn't completely subsided, but there was upbeat activity this week. Although 1936 Boone PDS Sets in PCGS MS66 are still appearing a bit unsettled, Oregon Type, along with their 1926 and 1926-S peers in NGC MS62 and MS63, edged up just a tad, and Bidders are a bit more interested in acquiring them in MS64 and MS65 grades as well, while upping the ante rather considerably for those in MS67 quality, particularly for 1926-S issues graded by NGC. Comparably graded 1921 Pilgrims in NGC holders are \$100 higher and Vancouvers in PCGS MS64 regained some of their losses from last week. Sight-Unseen Bids for all Gold Commems remain solid as they were last week.

As during the previous week, generic Morgan Dollars in MS63, MS64, and MS66 are in moderate and steady ascent, but their MS65 peers have all remained in the \$110 to \$130 Bid range. Common date Morgans are down in MS64 and MS65 by 4% and 27% from a year ago, even though Silver Spot is 10% higher at \$34.76 an ounce. Joining in with the generics for a second straight week of gains are better date 1887-O and 1889-S Dollars, both in MS64, setting new multi-year peaks of \$280 and \$505. Generic Peace Dollars in MS64 and MS65 are regaining some recent losses, but 1925 issues in NGC MS66 tanked further and are now down by 16% for the year. Gem common date Peace Dollars are down a whopping \$54 (38%) from last September. Heritage's auction during next month's Fall ANA Money Show in Dallas will feature a 1925-S Peace Dollar, graded MS65 by PCGS. An even 100 specimens comprises the combined pop for this tough to find key date coin in this grade with none finer.

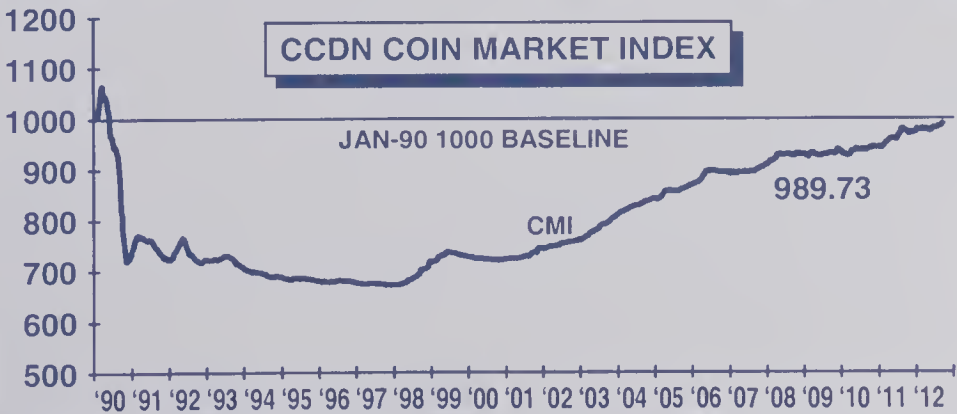

Coppers of virtually every sort remain among the most eagerly sought-after Type material, even though Indian Cents in MS62RB concluded the week a few dollars lower, and comparably graded Type II Standing Liberty Quarters with Full

Head in NGC slabs also came up short. There's little to report about Buffalo Nickels other than the fact that Bids for all issues are holding steady, and on-line auction activity confirms strong support at current levels for accurately graded specimens in high grade particularly for those late-date issues that are still Bidding for just two-digit figures in Gem and better. First year S-Mint Mercury Dimes in NGC MS65 are 6% lower, as dealers look to move out material by lowering their Asking prices. Some additional, yet mild discounting activity took hold within the Merces segment as common late-date issues, mostly in NGC MS65FB, incurred a slight pull-back. Key and semi key date Walkers are all benefiting from sufficient Bid support, while only a few late-date issues in MS65 continued on the path of descent. These include 1939-D Halves, losing nearly 5%, while NGC graded 1941 and PCGS graded 1943 issues each posted a smidgen of a loss. 1945-S Walkers in NGC MS66 are still being offered for \$30 below sight-unseen Bid. Choice

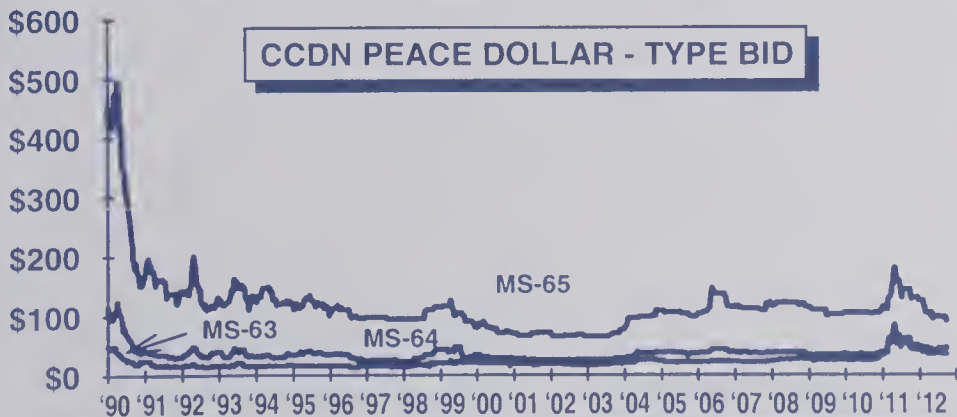

common dates are 11% higher from this time last year while Very Choice examples remain the same, though Gems are down 16%. Type Gold remains strong, benefiting from Gold Spot's \$100 jump in the past month to close at \$1,778 an ounce today. Gem \$20 Saints are \$40 lower from a year ago while MS65 \$20 Libs have declined by 8%, down \$300 from Sept 30, 2011 when Gold was \$1,620 per ounce.

Some dealers are headed to the Pacific Northwest Numismatic Association's 8th annual Fall Convention, this last weekend of September in Portland, OR, while others are headed to Fredricksburg, VA and many other regional and local shows. Then it's off to Saint Charles, MO for the Silver Dollar Expo which begins October 4 where Scotsman will hold an auction. ANA's Fall National Money Show is scheduled from October 18-20, in Dallas, with an official auction by Heritage. We have included several of the many highlights herein.

The Certified Coin Dealer Newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unappealing Bid. A few Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, self-listed, and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was even available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CAC[®]

"Because Confidence is Priceless"

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXVII No. 40

October 5, 2012

Single copy price \$5.00

Precious Metals Continue Surge

Type Gold On The Go

Gold has broken through the \$1,790 threshold, a level not seen since November of 2011 to close at \$1,794 per ounce. Silver crossed the \$35 mark, rising 30% in two months. The gap between Gold and Platinum is narrowing as the other white metal has jumped to \$1,725, up over \$332 an ounce from August.

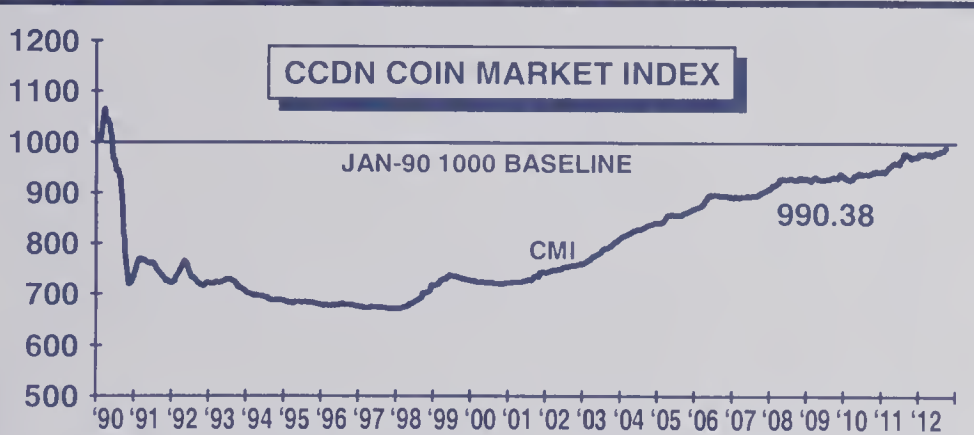

Despite their recognizably abundant supply, most Silver Commemorative Halves avoided further slippage towards lower sight-unseen Bids this week; however, those often cherished Hawaiian Halves in NGC MS65, with a pop of 372 and 79 finer, are down \$635 this year after having been discounted by \$270 this week. Nothing was lost or gained among the Gold issues, many of which are holding up well due to a second straight week of sufficient sight-unseen Bid support. There was far less spectacle concerning the trading activity within the Morgan Dollar segment this week, as only a handful of issues drifted just marginally up or down. Market-makers are offering slightly more for 1878-CC issues in MS62 and for 1885-CC cartwheels in Choice, but the most significant movers were 1896-O Dollars in PCGS MS61, advancing by \$150 to consummate a cumulative gain of 30% so far this year. Carson City minted Morgan Dollars in their original GSA holders are heating up. The fact that generic Peace Dollars in MS65 were beaten up so much lately is perhaps reason to be expected that they will eventually bounce back with a fair amount of resiliency, as this week's trading results indicate. Draped Bust Half Cents in NGC MS62BN are needed, and Bidders are offering as much as 31% over their previous sight-unseen Bid to get them, while trying to lure more of these issues in NGC MS64BN as well. A 1793 Wreath Cent of the Vine and Bars variety, graded NGC SP66BN, is currently among the top lots attracting very heated competition so far from on-line Bidders on Heritage's Dallas Signature Auction. The voracious quest for early Coppers, especially for Liberty Cap and Draped Bust Large Cents in MS63 and MS64, has expanded to include and drive Bids higher for such specimens graded by ANACS. Resurgent interest in Proof Nickel material has raised Bids for Three Cent Pieces and With Cents variety Liberty Head specimens, particularly in PCGS PR63 thru PR66. Eight examples of Proof Liberty Nickels, With Cents, traded sight-unseen over the CCE network this week in grades PR64-PR65.

Key-date Buffalo Nickels in Mint State with the really low pops are hard to come by these days but even common-date Buffs continue to fetch hefty sums at auction if

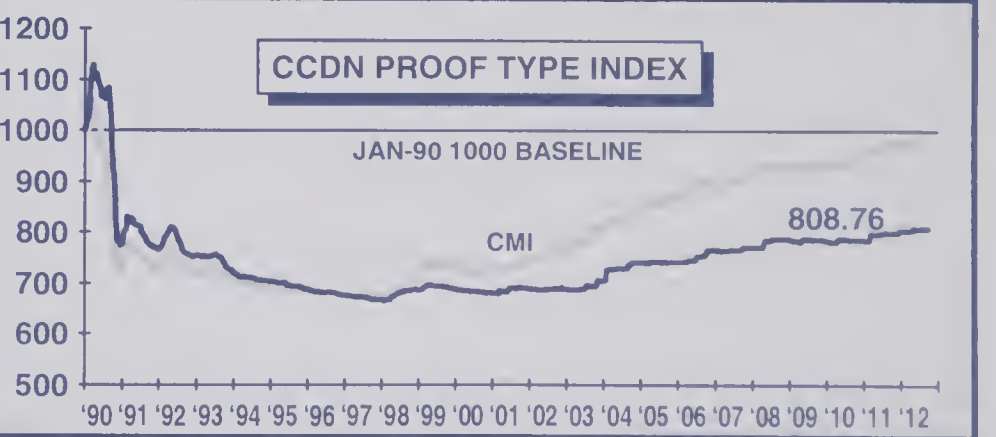

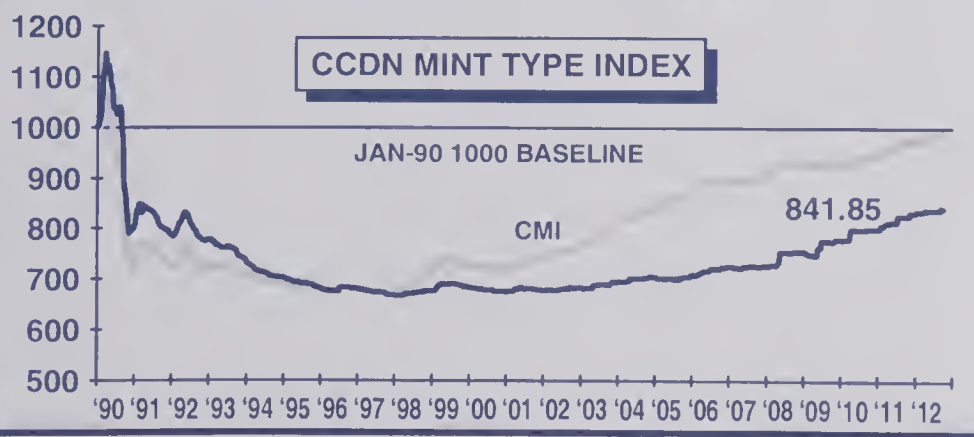

they are in super high quality. For example a 1913 Type I in NGC MS68 sold earlier this week for \$6,900 thru Teletrade. Just about any early-date Mercury Dime that is strictly graded can be alluring enough to incite a considerable amount of interest among Bidders. However, late-date Merics, even in Gem with Full Bands, can be susceptible to the shake-down occurring as a consequence of falling demand for what is often considered generic material. Late-date Walkers in Gem and better grades are still getting pelted as the market reacts unfavorably to a flood of unsolicited, common material deriving from this segment as well. This week, several war-time Walkers in MS65 receded back down to Bid just \$88, as those graded MS66 by ICG have fallen by 17% to Bid an even \$100.

As Gold Spot rises to just a few dollars short of the \$1,800 per ounce mark, Bids for nearly all generic Gold Type issues in lower Mint State grades are following in its path of ascent. Gem material is getting nudged higher as well, as \$5 Indians in NGC MS65 and \$5 Libs With Motto in NGC MS67 each recovered \$200, bringing the latter issues back to Bidding an even \$9,000 again. A \$3 Gold piece graded PCGS MS63+ traded sight-unseen thru the CCE dealer-to-dealer network this week for \$4,350.

More changes have come to the NGC black retro holder program, which is being done to celebrate the grading company's 25th anniversary since they used black slabs back in 1987. They have expanded the list of coins eligible for encapsulation which include American Silver Eagles, Presidential and Sacagawea Dollars, First Spouse Gold, half-ounce \$25 Gold Eagles, and half-ounce \$50 Platinum Eagles. Morgan and Peace Dollars are also eligible, but are exclusive to NGC authorized dealers. This program began October 1 and ends December 31, while supplies last. Some dealers are already pre-selling 2012 MS69 and MS70 ASEs. Dealers are in St. Charles, MO for the Silver Dollar Expo, beginning October 4. In addition to the traditional Scotsman sale, this show includes the inaugural Jewelry and Heirloom auction as well. Legend-Morphy will hold an auction of over 200 lots October 10 in Denver, PA. Over 40 dealers are participating in the upcoming eBay promotion—the Great CAC Event, October 11-21. Thousands of CAC stickered coins from CAC authorized dealers will be available through eBay's "buy it now" and auction format, with no buyer's premium. ANA's Fall National Money Show is coming up October 18-20 in Dallas with an auction by Heritage.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~250,000~~^{350,000} coins with a market value over ~~\$1.3~~ billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$200,000,000~~ worth of coins.

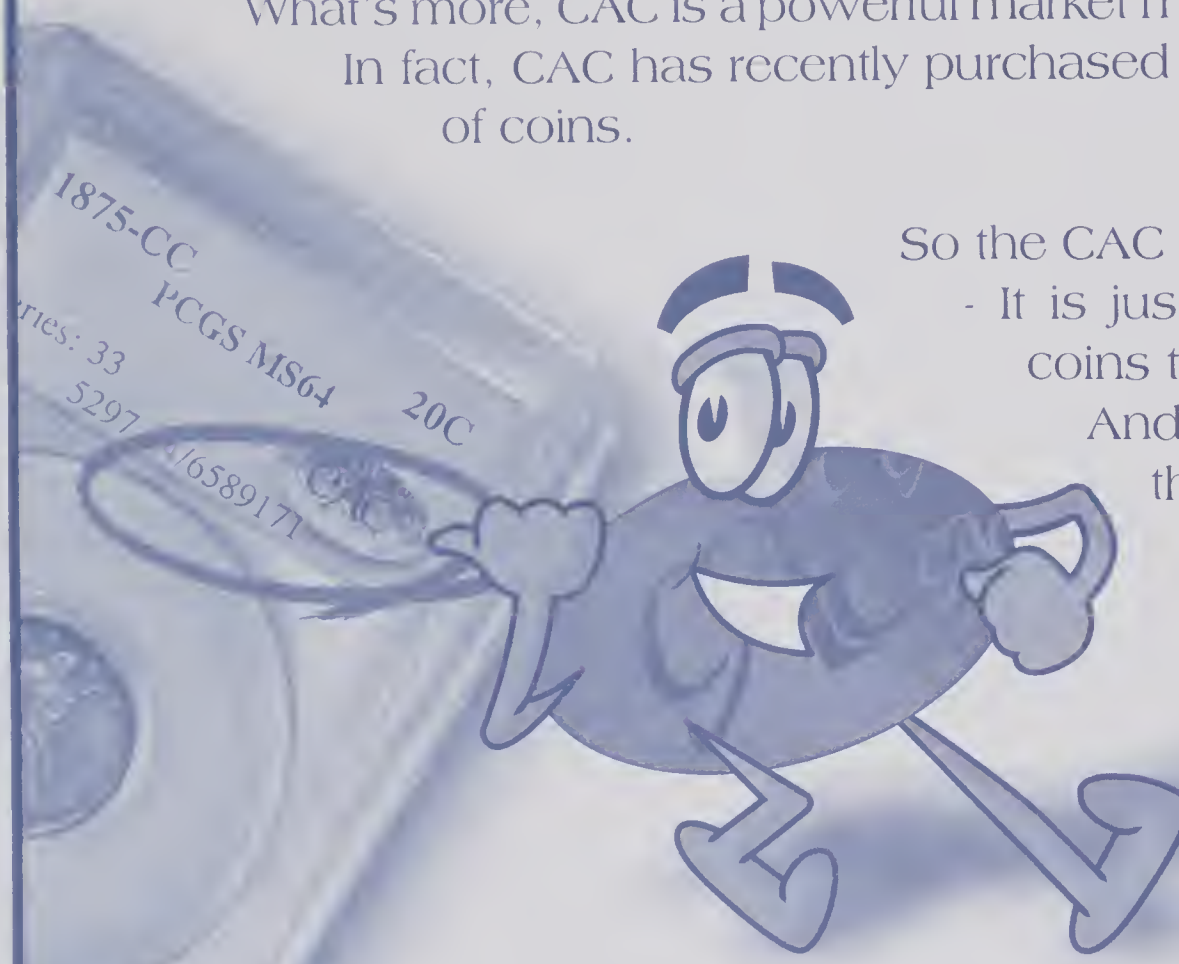

[^]
\$250,000,000

So the CAC sticker does not add value

- It is just an easy way to identify coins that are solid for the grade.

And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC[®]

"Because Confidence is Priceless"

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXVII No. 41

October 12, 2012

Single copy price \$5.00

Generic Dollars Advance

Legend-Morphy Realizes \$793K

Dealers are home from the Silver Dollar Expo and Scotsman auction held Oct 4-6 in St. Louis, MO. The sale realized \$1.17 million with the top lot honors going to an 1883-S Morgan Dollar graded NGC MS65 that realized \$19,550. Legend-Morphy held their first auction mid-week after re-entering the rare coin auction scene. Over 150 of the 220+ lots sold for \$793K in total auction prices realized. The highest priced paid for a lot was for a 1911 \$20 Saint-Gaudens graded PCGS PR66+ with CAC approval that brought \$143,750. A few additional highlights are listed herin.

One may get a sense that the Silver Commems segment is gaining some stability, largely due to the fact that the Bid columns haven't been as pulverized with the minus signs that dominated them up until fairly recently. But caution is still prevalent among market participants involved in this segment as a few issues are still teetering. Boone PDS Sets in PCGS MS66 are being discounted now by as much as \$120 back of previous Bid. Hawaiian Halves, which took a \$270 hit in NGC MS65 last week, got pulled back by \$20 in NGC MS64 this week, and comparably graded Missouri Halves took some flak with a resultant \$35 drop. Those often seen Stone Mountain issues in MS64 and NGC MS65 provided some encouragement, and those far less common ones in PCGS MS67, of which there are only 162 certified as such with only 8 finer, shot up by \$50. Pan-Pac and 1916 McKinley \$1 Gold issues, the former in PCGS MS65 and the latter in NGC MS66, were each reduced by \$25.

Bids for generic Morgan Dollars in MS65 advanced once again while common MS64 Peace Dollars also increased and are now Bid \$50. 1892-CC cartwheels in MS61 thru MS63 are adding to their gains from last summer, enabling those of the latter grade to advance by an average of 13% since March. While 1923 Peace Dollars might seem a bit too ubiquitous at times, those graded MS67 by NGC are now being aggressively pursued by market-makers willing to offer \$900 over previous sight-unseen Bid for them. These have a combined population of only 135 in MS67 with 14 approved by CAC. The early Copper craze is appearing to snowball to the extent of driving up sight-unseen Bids for even the most common of issues pertaining to this

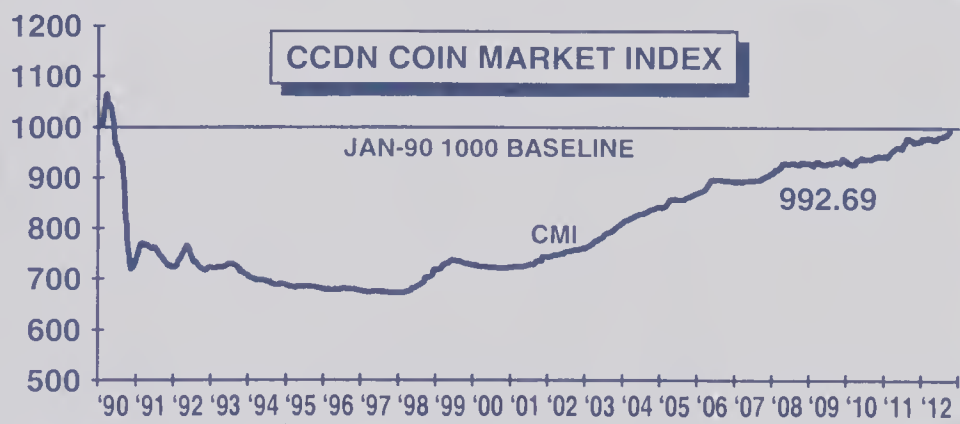

category. Bidders are now gravitating towards PCGS graded Classic Head Half Cents in MS61 and MS62, in both Brown and Red/Brown, while offering \$125 more for them in PCGS MS64RB and NGC MS65BN. Barber Dimes and Quarters in various Mint State grades are picking themselves up as well, and Reduced Size Capped Bust Quarters in MS61 and MS62 are all reflecting Bids that are \$100 higher while their comparably graded Half Dollar peers were also among the favorites this week.

CoinPlex, is one of the newest dealer-to-dealer wholesale electronic trading platforms and is gaining in popularity with over 160 active members. The Professional Numismatists Guild (PNG) recently named CoinPlex as the official coin trading network of their organization which is comprised of 250 members. CoinPlex stated that one of their goals is to have 1,000 members using the network within five years. As an added inducement for PNG members to join, CoinPlex will donate 25% of their membership dues to the PNG. Most market enthusiast understand that the vast majority of dealer-to-dealer transactions take place off of the trading networks, even with CCE reporting over \$255K in sight-unseen trades this week. Price spreads between sight-unseen Bid and wholesale Ask appear to be tightening with many dealers now utilizing both networks. See a sample of spreads below from within the Silver Proof Type segment for NGC coins.

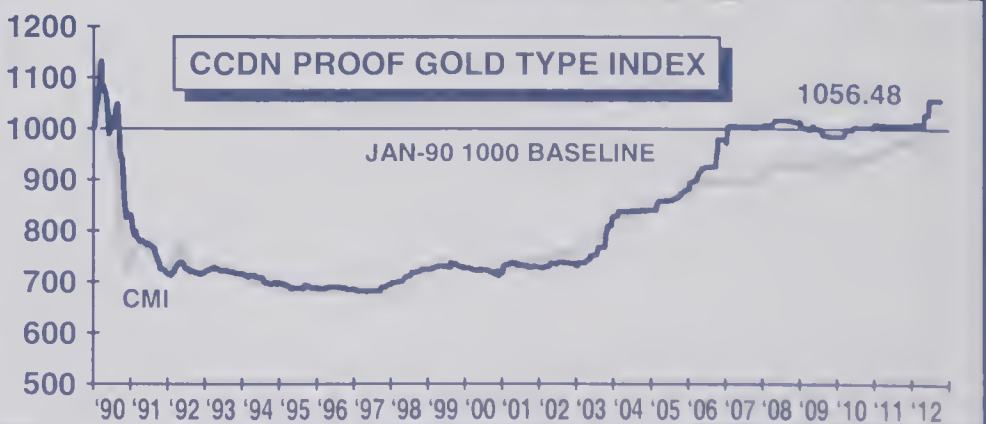

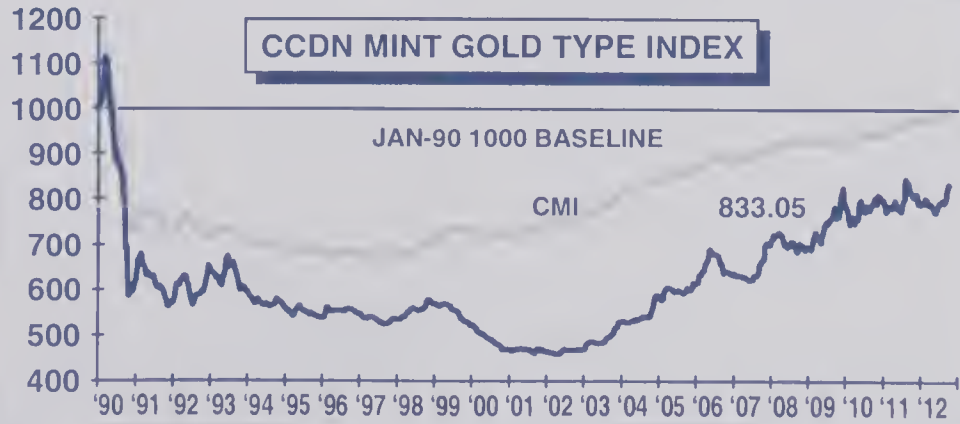

A 1913-S Type 2 Buffalo Nickel in PCGS MS67, with a combined pop of just 10 coins, none finer, is among Heritage's top performing lots so far at its Fall ANA Money Show auction. It appears to be getting far more attention than the 1926-S Buff in PCGS MS65, which Bids sight-unseen for nearly seven times more. Late-date Mercury Dimes with the lowest Bids within their respective grade columns in MS65, MS66, and MS67 are bouncing back up. Full Band designated issues all remained neutral. Common late-date Walkers in MS66 are regaining strength and, although their recovery is moderate, the fact that they are moving back up is significant. Quite a bit of steam is now being let out from the Gold Type segment mainly due to Gold Spot's sedentary posture over the past week. Still, virtually all fractional generic issues are sustaining recent gains with \$3 Indian Princesses in NGC MS62 and \$5 Indians in MS61 continuing to forge ahead.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through a careful study of nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Fall ANA Underway

Commems, Dollars & Type Surge

Most major dealers are in Dallas attending the Fall ANA National Money Show, running October 18-20. A busy set-up day was reported by several in attendance, and a crowded auction lot viewing room may indicate a highly competitive floor sale is ahead. Heritage, the official auctioneer, will have public sales running through Oct 23. Activity within the sight-unseen marketplace will typically slow down just before and during a major coin convention. Dealers will often deactivate their sight-unseen Bids on the dealer-to-dealer trading networks, as to not be financially overextended while away. It makes more sense to be in a strong cash position while at the show, should any large deals pop up. Quite a different experience is taking place within the market leading into this show, as nearly \$200K in sight-unseen trades have been recorded through CCE. Even more impressive are the 1,275 Bid increases that have been placed within several of the regular segments covered here each week. This is the largest number of increases we have published since we started reporting advances and declines on the front page in December of 1996. All of this positive activity has pushed the *CCDN Coin Market Index* up 2.41 points to 995.10, the highest level in some 22 years.

Silver Commems are not only turning around, but a slew of them are coming back aggressively while posting significant advances. Market-makers are hot for 1892 Columbian Halves in NGC MS67, offering as much as 33% over the previous Bid. Grant with Star Halves in MS63 thru MS65, which were among the few issues that remained quite immune to the drawn-out volatility within this segment, also jumped up amazingly as those of the latter grade gained \$900 and \$1,000 in PCGS and NGC slabs, respectively. Just about every Oregon issue in grades MS61 through MS65 is reacting to renewed interest, while Stone Mountain Halves in PCGS MS67 added another \$50 to their gain from last week. 1947 and 1950 Booker T. Washington PDS Sets in MS67 are stronger than ever as those particularly elusive examples of the former date in PCGS holders surged nearly 12% to a sight-unseen Bid of \$7,250. Gold Commems stayed out of the limelight for the most part this week, but as much as \$135 was left on the table when a Grant no Star Dollar in NGC MS65 sold at auction for below sight-unseen Bid.

Even with Silver Spot down \$2 an ounce from its recent peak of \$35 set two weeks ago, activity within the Dollars segment is invigoratingly positive. Common date Morgans are higher in all grades across-the-board through MS66 with the majority of issues increasing by 5% from last week. Those highly reflective Deep Mirror Proof Like and often considered undervalued beauties are the ultimate leaders within Dollars.

Dealers are looking for quantities and have pushed sight-unseen Bids higher in an attempt to pry some loose. Since our last report, MS63DMPLs are up 46%, MS64DMPLs are 30% higher and Gem DMPLs have increased by 24%. While advances among most Peace Dollars are not as dramatic, the plus signs within their MS61 thru MS65 grade columns are quite prolific. A couple denote appreciable gains by as much as 9% for 1922-S issues in NGC MS65 and a \$45 bump for the 1921 in like grade.

Excitement and euphoria within the sight-unseen market extended into much of the Mint State and Proof Type segments and Bidders aren't just in hot pursuit of early Coppers, although Braided Hair Large Cents are still being eagerly sought. Market makers are looking to add numerous varieties of Silver issues of various grades to their inventories as well. Among the most stellar performers this week are 1853 Liberty Seated Halves with Arrows and Rays in MS62, which pegged a rise of 25%, and Trade Dollars in MS61 gained by an equivalent percentage rate. No Motto Liberty Seated Halves in PR64 surged 57% to Bid \$2,200 and a swath of material in MS64+ and MS65+ is also bringing positive momentum to this segment. Buffalo Nickels had a pretty good week too, with mild gains posted for 1913 Type 1 issues in MS64 and MS65. Most significant were the advances posted for 1924 Buffs in NGC MS65 and NGC MS67, along with the 10% jump for 1929 issues in PCGS MS67. Rebounding activity among late-date Mercury Dimes hasn't subsided, as the buoyancy within this segment remains concentrated among those issues in MS67. Bids for a number of war-time issues in MS65FB, MS66, and MS66FB have also been elevated by what appears to be a widespread quest for generic high quality Silver material. Common Walkers in MS64 through MS66 are firming up as well with several examples needed at each grade level. NGC graded 1942 issues in MS67 resumed their descent from last week with another \$15 drop to consummate a reduction of 24% this year while a somewhat steeper decline ensnared those 1947-D Walkers in MS66.

Gold Type's performance was quite muted, largely due to Gold Spot's recent roll-back from the \$1,780 area to close at \$1,743 today. While some of the most Spot sensitive of issues are sinking back a bit, there remains an appreciable amount of current Bid support for most denominations. Type II Gold Dollars in MS63 thru MS66 with CAC approval are in tight supply, and Type I \$20 Libs in MS61 thru MS63, barring those in NGC MS62, also managed to move slightly higher. Sight-unseen Bids for common \$20 Saint-Gaudens with the CAC approval sticker are nearing and even surpassing Bids for slabs in the next higher grade that are absent of the green bean.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through a careful study of market activity and nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of a high Bid. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary from those of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.pcgs.com www.ngc.org www.cac.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{350,000}~~250,000~~ coins with a market value over ~~\$1.3~~ billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

\$1.7
billion

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$200,000,000~~ worth of coins.

[^]
\$250,000,000

So the CAC sticker does not add value
- It is just an easy way to identify
coins that are solid for the grade.
And it gives you confidence in
the value of a coin.

*The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.*

CAC[®]

"Because Confidence is Priceless"

Widespread Walker Advances Silver Commems Have A Pulse

Gold has taken a 5% tumble to \$1,712 after reaching \$1,794 just three weeks ago. Silver has also slipped even further in the same time period, dropping 9% from \$35 per ounce to \$32. Actually, on Wednesday, Gold was just barely clinging to the psychologically important level of \$1,700 an ounce, but bounced back a bit, possibly in part as a result of the statement released by the Fed which gave a less than bright outlook on the US economy. This may have prompted a resumption of at least some safe-haven buying of the yellow metal. Couple this positive bullion activity with the recent surge in higher sight-unseen Bids and the \$23 million realized in Dallas last week and you've got a recipe for quite a healthy market. In addition to the strong ANA Heritage auction, most dealers reported having a fabulous fall show.

Bids for Silver Commems are continuing to surge on top of last week's widespread escalation where nearly 400 advances were recorded. A 31% Bid jump for any Lafayette Dollar grading MS64 by PCGS or NGC is among this week's 226 increases. Dealers will now pay \$500 more for any of the 1,730 examples at this grade level. There were a handful of decliners, but none were down all that sharply. Norfolk issues in PCGS MS67 incurred a 9% reduction, and Huguenot Halves in NGC MS65 were stopped dead in their tracks from making any further advances with a 7% drop. 1935-S San Diego issues in PCGS MS67, on the other hand, surged to Bid now at \$600, while comparably graded and slabbed 1948 Booker T. Washington PDS Sets have taken in a total gain of \$1,000 so far this year. Market-makers shifted much of their attention away from the Dollar segment to focus on other aspects of the market this week, leaving some better-date Morgan issues to encounter a bit of discount activity that mostly resulted in mild declines. Two PCGS graded cartwheels, the 1878 7TF (Rev. of '79) in MS66, and the 1897-O in MS63, dropped by \$800 and \$300, respectively as a result of poor auction outings. Most significant was the fact that every common-date, other than the 1901-O in MS66, sustained itself enough so as to cause no widespread anxiety. Generic Peace Dollars in MS63 are continuing to advance as they did last week, while those key-date 1925-S Dollars in PCGS MS65, surprisingly, missed their current Bid target by 5%, forfeiting their highest Bid ranking within this grade column to the 1928-S.

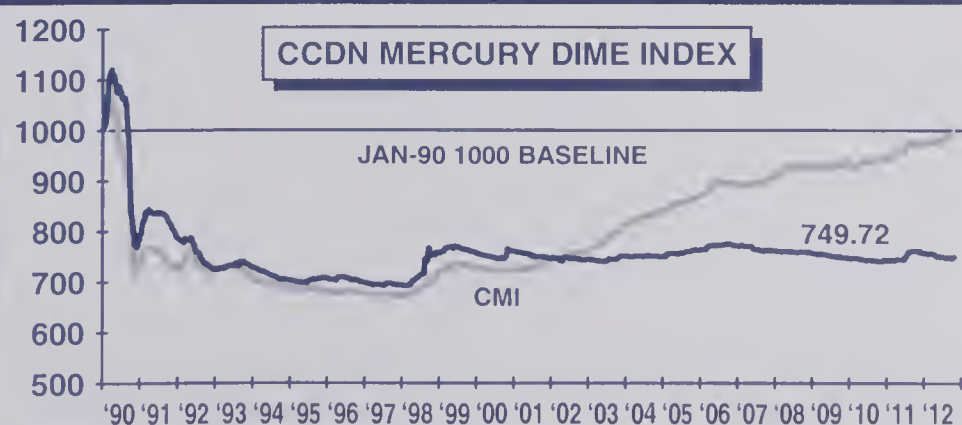

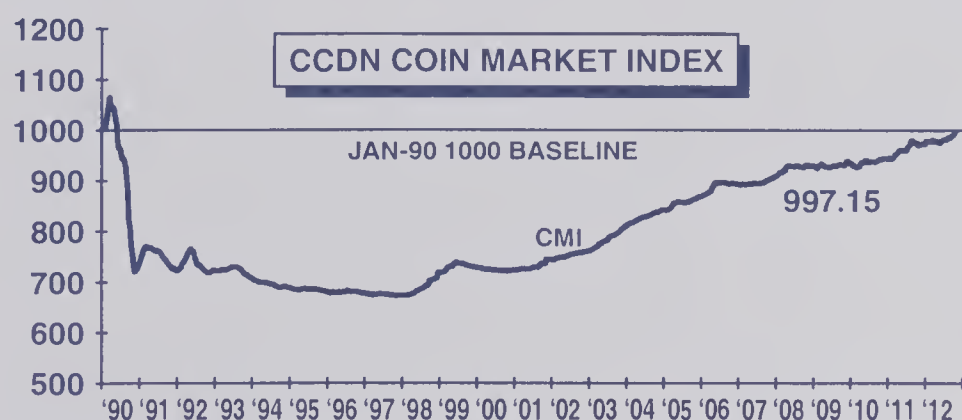

Mint State Type is mixed with advances and declines, as much of this segment is consolidating after a mostly gainful trading session last week. Liberty Seated Dimes

with Legend and 1873-1874 with Arrows in MS61 and MS62 are higher by as much as 16%. Two Cent pieces grading PCGS MS62BN are the ultimate leaders with a 20% jump in Bid. Unfortunately, some Proof Type in Gem and better got quite battered this week. Shield Nickels with Rays in PCGS PR66 scored lower by nearly 9%, but this shortfall paled in comparison to the loss endured by comparably graded 1853-1855 Liberty Seated Dimes with Arrows in NGC slabs. These issues fell from their sight-unseen Bid of \$36,000 to \$23,500 - dropping by 35% - in reaction to the most recent auction performance, and can be seen in this week's Market column. Barber Quarters in PCGS PR67, despite their beauty, got pounded down by \$500 to a Bid of \$2,600 resulting from the same auction.

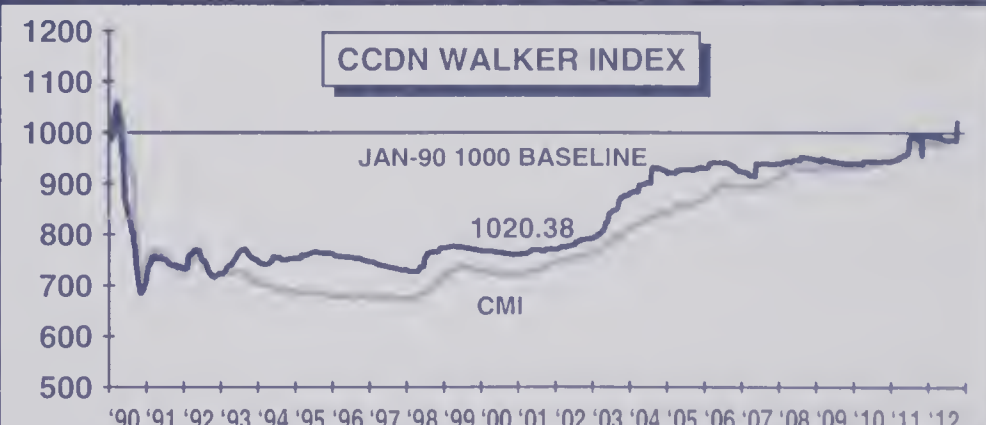

A few Buffalo Nickels got a bit scorched due to weakness in the Dallas sale, namely the 1919-D in MS65, the 1921 in PCGS MS64, and the 1934-D in MS66. In contrast, recent major auction events boded well, for a number of Gem quality Buffs with exceptional eye-appeal. Although 1934-D Mercury Dimes in MS67FB hit a slight bump, Bids for many late-date Mercs in MS65, MS65FB, and MS66FB are adding modest amounts of strength so as to not be precluded from the dynamics of this mostly upbeat market.

A surge in demand for Walking Liberty Halves has this segment proliferated with 347 gains that extend virtually throughout the entire date range for this series, be they PCGS or NGC certified. This round of increases begins with a \$25 advance for 1916 Philadelphia issues in PCGS MS65, to a hefty \$500 boost for 1947-D examples in PCGS MS67. Several early-date Walkers in MS63 are up significantly, such as the 1917-S (Obv.) in MS64 up 39% and the 1918-D in MS62 up 20%. 1940-S issues in MS67 are up by \$500 in NGC slabs, and as much as \$1,500 for those scarcer examples in PCGS holders, of which there are only four reported with just two finer. Believe it or not, a 1947 Walker graded MS67 by PCGS sold at public auction last week for only \$880, while a sight-unseen buyer continues to offer \$1,600 regardless of what the coin looks like.

PCGS has graded its 25 millionth coin this week after opening its doors in 1986. NGC was the first third-party grading service to reach this landmark, which took place in May after 25 years in business. CAC, five years since its inception, recently surpassed 400,000 examined coins with a value of over \$1.8 billion.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an un-purchased Bid. Asks, Trades, and Auction prices which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary according to the needs of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Get your sets ready!

THE 2012 NGC REGISTRY AWARDS

Awards presented for:
BEST COMPETITIVE SETS
BEST CUSTOM SETS
BEST COLLECTORS JOURNALS

*Deadline for
set registration & journal entries:*
DECEMBER 3, 2012

Winners announced:
FRIDAY, JANUARY 11, 2013

We're looking for the top sets in the world — and as the largest and most inclusive registry in the hobby, NGC will see thousands of world-class sets. Make sure yours are among them!

Take the honors in one of these categories and you'll receive a personalized plaque, an icon of recognition next to your set's Registry listing and up to five Deluxe PHOTO PROOF® or NGC Photo Vision™ presentations of NGC coins from your winning set. Sets must be at least 50 percent complete to be eligible.

To join the Registry or for more information about the awards, please visit www.NGCcoin.com

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Solid Sight-Unseen Market Maintained

The sight-unseen market for rare coins is alive and thriving. Over 700 advances have been recorded this week, even in the midst of the mass destruction along the east coast caused by super storm Hurricane Sandy. Some \$275K in sight-unseen trades took place through the dealer-to-dealer trading networks as higher wholesale Bids were hit. Advancing issues have been outpacing decliners for 12 of the past 13 weeks causing the *CCDN Coin Market Index* to move up to 999.28 points. This is the highest level that the index has achieved in over two decades and is ever so close to that all important 1,000 point baseline established in January 1990.

Widespread sight-unseen Bids for Silver Commems continue to rise, with a good number of them adding to their gains of last week. Isabella Quarters in MS65 have completely recovered their losses since January and are in a net gain position for the year, as are Gettysburg issues in NGC MS67, with a 20% increase since then. Just about every Oregon Half in MS61 thru MS65 is being sought-after at higher levels, in addition to several graded MS66 by NGC. However, 1939 Arkansas PDS Sets in MS66 fell by the wayside. These are tough sets to find or put together with consistency in this grade but, despite this, sight-unseen Bid has dropped by 10%. Booker T. Washington 1951 PDS Sets in PCGS MS67 are still climbing higher and are now just \$100 shy from that \$4,000 Bid level. Gold Commems stayed out of the action insofar as any movement was concerned, all clinging on to their current Bids, with no real discounting present.

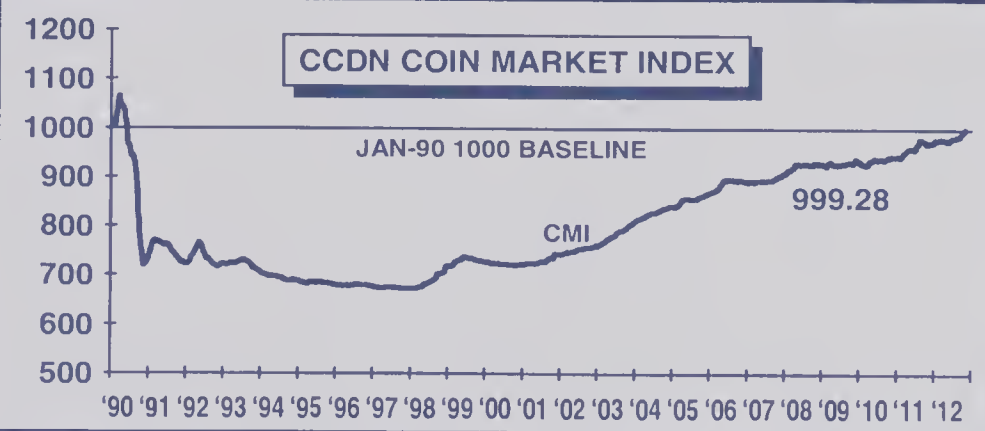

Generic Morgan Dollars in a variety of Mint State grades are trading higher, but not everything is completely stable in the MS65 column as several of the earlier common-date issues receded just slightly. There were, however, a few appreciable advances to report. Carson City Morgan Dollars in their original GSA holders graded MS64 thru MS66 by NGC continue to do well with substantial Bid jumps in place. At least one dealer is now offering \$1,800 for any of those elusive 1883-S Dollars in MS63 and as much as \$3,600 for MS64 examples. Aside from a number of Gem cartwheels in MS65DMPL each gaining \$15, 1888-S Dollars in MS65 rebounded robustly to more than recoup their losses from last week, while comparably graded 1904 issues spiked up by 6% to now Bid \$1,700. Generic Peace Dollars in MS61, MS62, MS64, and MS65 are all showing more teeth, but those of the Gem grade have yet to bite hard enough to get back up above the \$100 Bid level where they last were back in early May. A 1923 graded NGC MS67 sold blindly through the exchange this week for an even \$3,000. This rarity has a combined pop of 136 with 14 approved by CAC.

Trading activity and recent auction results reflect increased demand this week for Draped Bust Half Dimes of both Small and Heraldic Eagle varieties in MS61 and MS62, and these issues are being aggressively sought-after in the higher grades certified by ANACS as well. Several issues within the Silver Proof Type segment, including all Barber denominations are higher – especially the Dimes in grades thru PR66. A good number of early and late-date Buffalo Nickels in Choice and Gem are getting more recognition, perhaps, due to their affordability and the potential they well may represent to dealers and their clients who are cautiously navigating through this market. Bid increases for some Buffs, such as the 1913-S Type II in MS63-MS64 and the 1934 in MS65, were significantly sharp, jumping by as much as 53%.

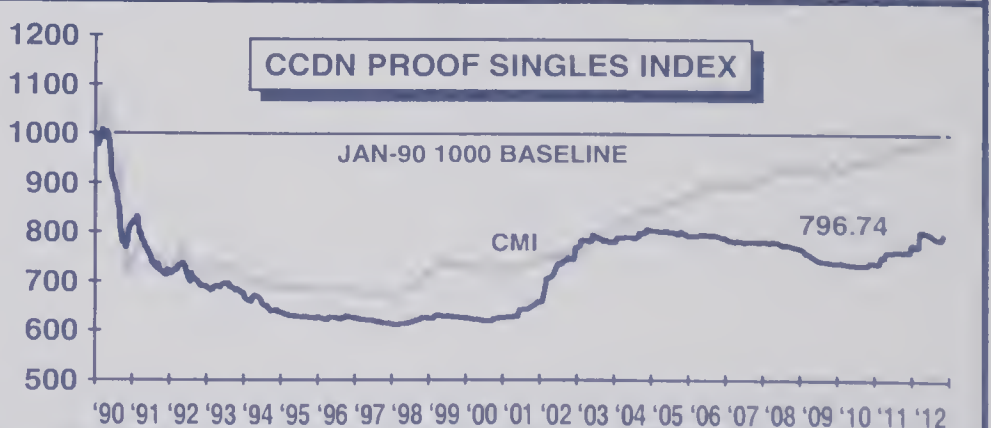

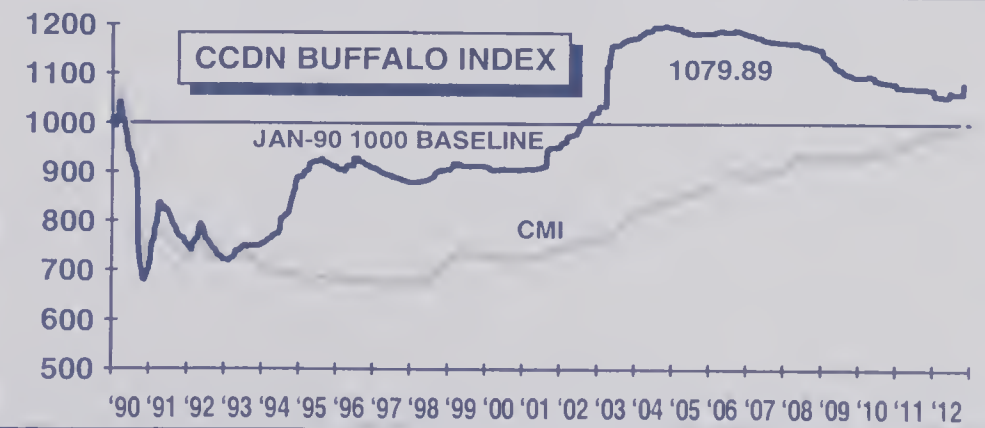

Late-date Mercury Dimes in MS65FB-MS66FB are still embroiled in the ups and downs of weekly volatility within this segment. However, just about any CAC approved Full Band Merc in Gem Mint State can easily be expected to realize a premium when offered at auction, as demonstrated earlier this week when a 1927 issue, graded PCGS MS66FB with the green bean on its slab, fetched \$633 during a Teletrade session. Walking Liberty Halves appear to be in a consolidation mode after last week's heated trading sessions that resulted in quite an uplifting outcome for most of this segment. All PCGS and NGC examples remain neutral, though several ANACS graded issues are higher. Mint State Gold Type hasn't been letting out too much steam, considering that the Gold Spot market hasn't been grabbing a whole lot of attention lately. Pull-backs were minimal for the few issues in decline as the yellow metal managed to close each day's session this week comfortably above the \$1,700 per ounce level.

Baltimore, MD is the locale of the next big show, being held November 15-18, with an auction by Stack's Bowers. See a preview of some of the many highlights listed herein. A wide selection of Early American issues will also be offered in cooperation with the Colonial Coin Collectors Club. Numismatic Consumer Alliance will conduct a coin grading class at the expo which is open to the public with the purpose of helping educate consumers and protecting them from fraud.

CAC Jumps to New Heights!

Five short years ago, CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. While still in its youth, CAC has revolutionized the market and continues to experience impressive growth.

In short order, CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. To date, CAC has examined over 400,000 coins valued at \$1.8 Billion, awarding the green sticker only if a coin meets CAC's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of \$275,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

Washington Quarters Heat Up Generic Gold Firmly Trading Again

More rain, snow and winds hit the northeast Thursday, interrupting power again after Hurricane Sandy wreaked its havoc a couple weeks ago. This time around, though, little if any impact was felt in the financial world. After the presidential election, stocks dropped for the second consecutive day, with Wednesday being the largest single day decline in a year. This downturn was a result of possible tax increases, spending cuts and the Euro crisis. Precious metals are up as Gold gained additional ground over the \$1,700 mark to close at \$1,725, a three-week high, and Silver crept up to \$32.23. Though Platinum rose to \$1,543 an ounce, this other white metal has reached its largest spread between Gold since mid-August. As dealers prepare for the Baltimore Expo and Stack's Bowers auction, one might expect a slowdown in the sight-unseen market. This isn't the case judging by the figures seen on CCE which report over \$500K worth of material trading, sight-unseen. The CCDN Coin Market Index finally surpassed the 1,000 point baseline established in January 1990 in a major way, jumping by over 9 points to 1,008.

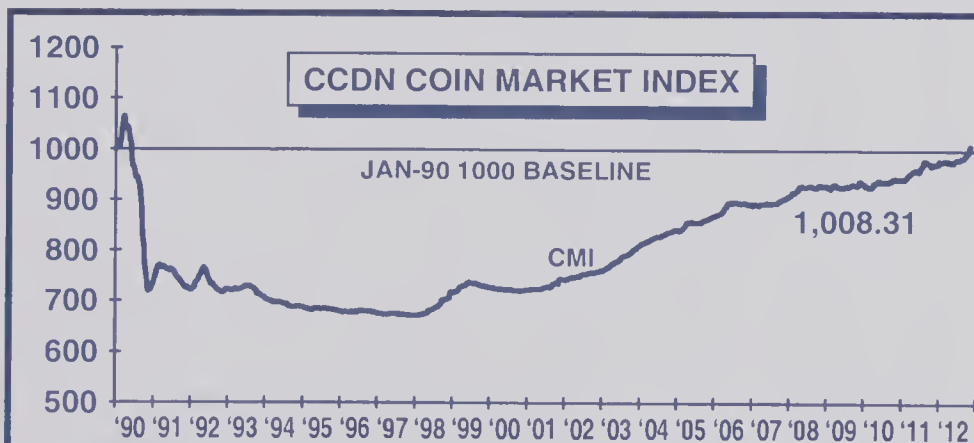

There wasn't a whole lot of motion among Silver Commems, but much of what did move was on the upside as a handful of PCGS graded issues advanced by a mere \$5. These included the Elgin in MS65 and MS66, the 1937-D Oregon in MS66, and the Stone Mountain in MS65 and MS66. New Rochelle Halves in PCGS MS66, however, slid back down by \$20 to Bid \$400 to even up with their like-graded NGC peers. A \$5 rise pulled \$2½ Sesquicentennial Gold Commems up in NGC MS62 and MS63.

Those creamy looking 1883-O Dollars in NGC MS67 are now commanding an even \$2,000, and a few CC-Mint Dollars gained heightened interest from Bidders as well. Climbing moderately higher were those always desirable 1885-CC Dollars in MS63 thru MS65, 1890-CC issues in MS63 and MS64, and 1891-CC cartwheels in MS64, while 1892-CC Dollars in MS62 and MS63 managed to resonate, but with less intensity. Bids for several of the more commonly seen PL Dollars, especially in MS63PL, increased considerably. Market-makers are still stocking up on generic Peace Dollars in MS64, and there appears to be mildly increasing interest for 1934 issues in MS63, which eased up again as they did last week. Mint State Type is mostly quiet this week, but some Three and Five Cent denominated Proof Nickel material is getting more notice, with some recovery activity that includes Shield and Liberty examples in Choice and Gem. Just about every late-date Standing Liberty

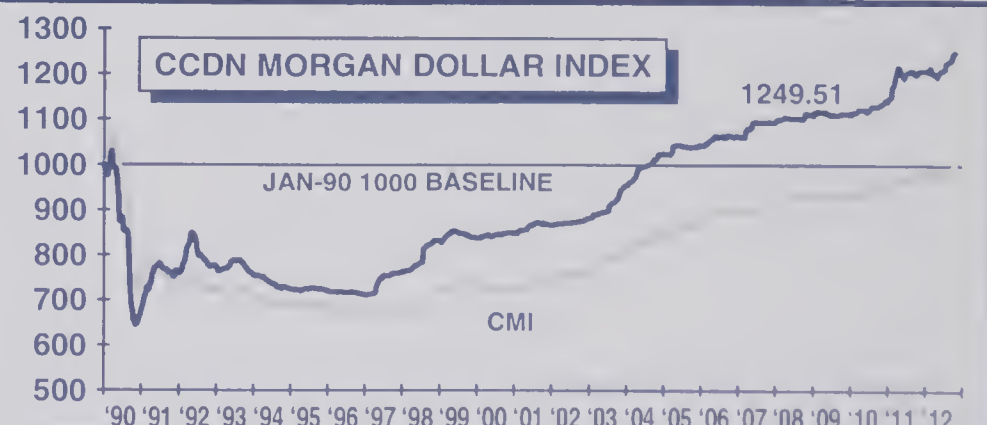

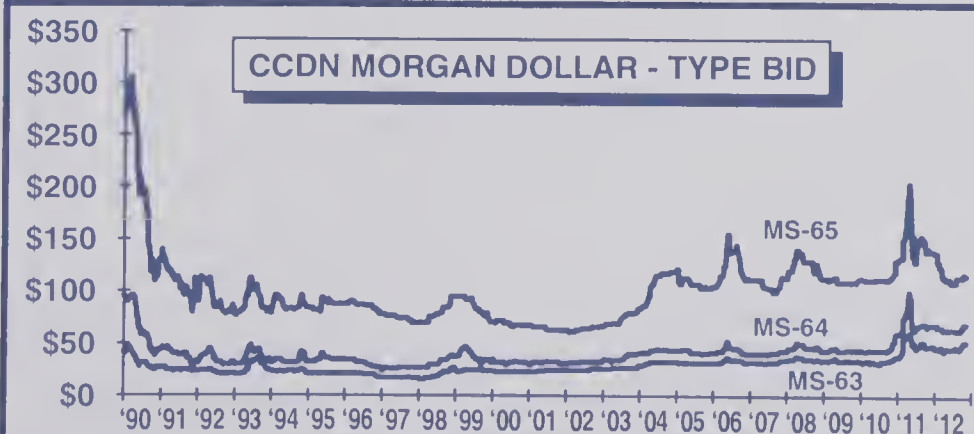

Quarter in MS64FH bounced back to regain twice what it had lost at the time of last month's report, and these same issues in NGC MS65 have been Bid up by \$5. Final issue year 1930-S Quarters in NGC MS65FH and MS66FH are being scooped up whenever available at \$60 and \$30 higher, respectively, but are still down this year by as much as 15%. Washington Quarters don't always excite everyone, but this series is getting hotter and attracting more than just a few serious collectors who still want to build an entire set consisting of a Mint State example of each date. A colorfully toned and very scarce 1934 issue with Light Motto, one of only six graded MS67 by PCGS and only two at this grade with CAC approval, is expected to set a record price by the time the final Bid gets called for it next week at the Stack's Bowers Rarities Night auction in Baltimore.

A seldom seen 1924-D Buffalo Nickel, graded PCGS MS66, has been getting exceptionally strong reception so far from online Bidders participating in the Stack's Bowers auction. This is one of only three such Buffs assigned this grade by either service with none finer. Solid current Bid support for several Buffs that posted hefty gains during last week's upsurge attests to this series' continuing popularity. Among the incredible late-date Mercury Dimes featured next week during Stack's Bowers auction is a 1942/1-D in MS65FB and a colorfully toned 1945-S (Micro S) in MS68FB with CAC approval, both certified by PCGS. The most common late-date Walking Liberty Halves in MS64 all seem poised to regain that sight-unseen Bid of \$60 again, a minimum level not seen for these issues since December of last year. Trading within this segment was moderately active, as virtually every Walker issue sustained itself for a second straight week following this segment's remarkable rally late last month.

Some generic Gold Type issues assumed an ascending posture and didn't wait for Gold Spot to adjust back up to above the \$1,700 per ounce level, such as Type III Gold Dollars in MS62 and \$3 Indian Princesses in MS63, whose peers in NGC MS66 regained that benchmark \$15,000 Bid. Type III \$20 Libs in MS65, however, fell back to \$3,100. However, generic Gold is trading in quantity sight-unseen through the dealer-to-dealer networks once again with over \$520K changing hands through CCE in the first eight days of November. This is on top of \$734K that traded in October. All this adds to a total of \$74 million in common date Gold trades since the CCE Generic Big Market began in November 2007.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through analysis of nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of a Bid. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary according to the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at B-1 levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

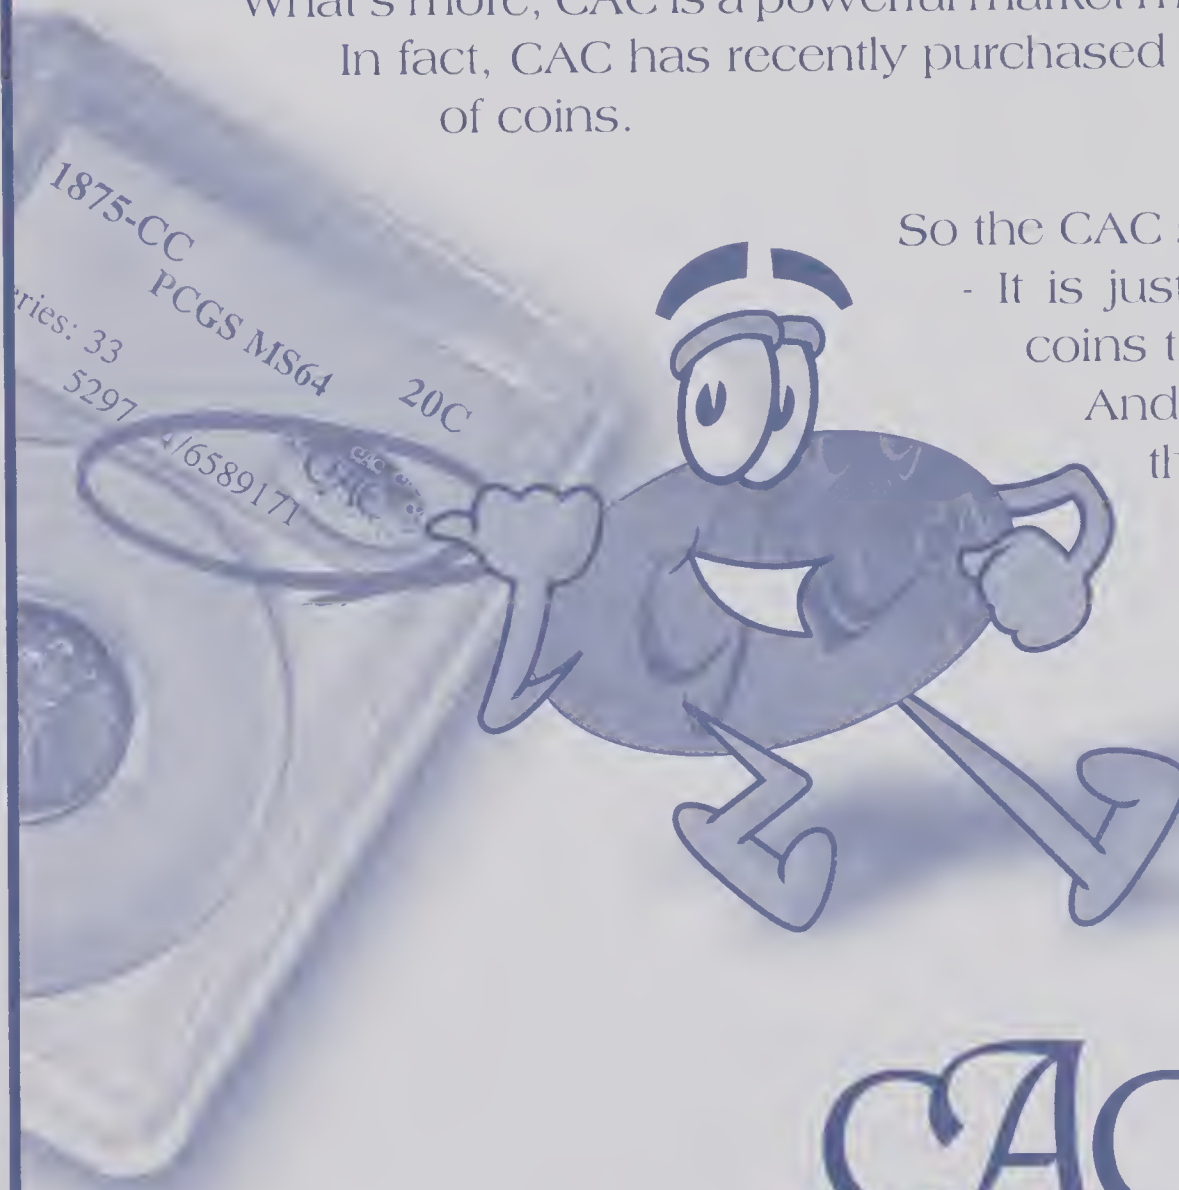

CAC has evaluated over ~~350,000~~^{400,000} coins with a market value over ~~\$1.5 billion~~^{\$1.8 billion}. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$250,000,000~~^{\$275,000,000} worth of coins.

So the CAC sticker does not add value
- It is just an easy way to identify coins that are solid for the grade.
And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at the Bid or Buy Price. As sight-seen trades can be expected to occur at substantially higher levels in many cases.

Sight-Unseen Market Moving Higher

CAC/+ Coverage – One Year Later

Most major dealers and many serious collectors are in Baltimore attending the Whitman Coin Expo and auction by Stack's Bowers running thru Nov 10. This has been a highly anticipated event and many dealers were openly optimistic from the outset. Reports of a busy dealer-to-dealer setup day have already been conveyed with plenty of wholesale activity occurring. Trading was light among Silver Commems again this week, but a pair of Classics encountered some uneasiness. Monroe Doctrines in PCGS MS61 and MS62 lost a rather large proportion of their sight-unseen Bids, especially those of the former grade, while 1935-S San Diego issues in PCGS MS65 slouched off just a tad. Bidders, however, greatly raised the stakes for Lafayette Dollars in NGC MS64+ by 42% since last month's report covering CAC and + grades. Grant with Star in NGC MS65+ is also higher, now Bid nearly \$1,000 more sight-unseen. Increased Bids are gravitating towards Oregon, Texas, and Washington-Carver Halves in NGC + grades as well. A magnificently toned 1939-S Oregon Trail Half, graded PCGS MS68 with CAC approval, has so far stood at the top among the Silver Commem lots featured in Baltimore at the Stack's Bowers auction. Gold Commems remain solid for the most part, but a few of these issues with the green bean attached slipped lower, especially those 1916 McKinley Dollars and \$2½ Sesquicentennials in MS64.

Collectors and market-makers alike are demonstrating their awareness of how truly scarce DMPL Dollars are, even common-date issues, in relation to their peers without those highly reflective fields. Although several of the earlier dated Morgan Dollars in MS63DMPL edged higher just marginally, their peers in MS65DMPL made greater strides towards the upside. Cartwheels of the latter grade, such as the 1881-S in PCGS slabs and 1888 issues graded by either service, each advanced by at least \$100, and 1888-O Dollars in MS65DMPL now command \$1,500 sight-unseen. The advances got much more pronounced, however, among the late-date Morgans in PCGS MS63DMPL and MS64DMPL, especially for final year 1921 and 1921-D Dollars, which have been Bid up in these grades by several hundred dollars. PCGS has graded three '21 in 63DMPL; six in 64DMPL and only one '21-D as a 64DMPL. There was far less sensation among Peace Dollars, but ongoing demand remains in place for the generic issues in MS64 as Bid increased by at least \$2.

A very scarce 1896-S Barber Quarter, graded PCGS MS66, with a combined pop of just 3 and 1 finer, is among the top lots contending for offers through the upcoming

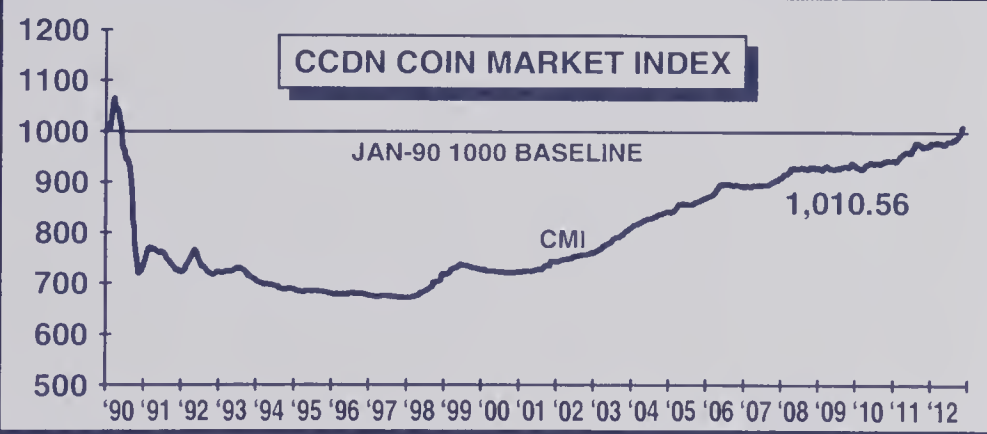

Heritage auction in Houston. This coin has a considerably lower combined pop in this grade than the more popular 1913-S, the lowest mintage of the series, and lower even than the highly coveted 1901-S, with its combined pop of 5 with 6 finer and which Bids higher than the 1896-S by as much as a third in MS65. Aside from No Rays Shield Nickels in PR61 losing \$5, most of the activity within the Type segment was such so as to prove positive for a handful of issues with CAC stickers and in various + designated grades. The time for procrastinating to pick up a few nice Buffalo Nickels may be coming to an end as many of the Buffs in the MS63 thru MS66 grade range that have for so long been regarded as "too cheap" are in ascent again, adding substantially to their gains from two weeks ago.

The finest known 1928-D Buffalo Nickel, graded NGC MS67★ is set to cross the block in Houston and is getting quite a bit of attention already from online Bidders. Those classic 1937-D 3-Legged Buffs in MS63 now have sight-unseen buyers paying a minimum of \$3,000 for any example graded by PCGS/NGC, regardless of what it looks like.

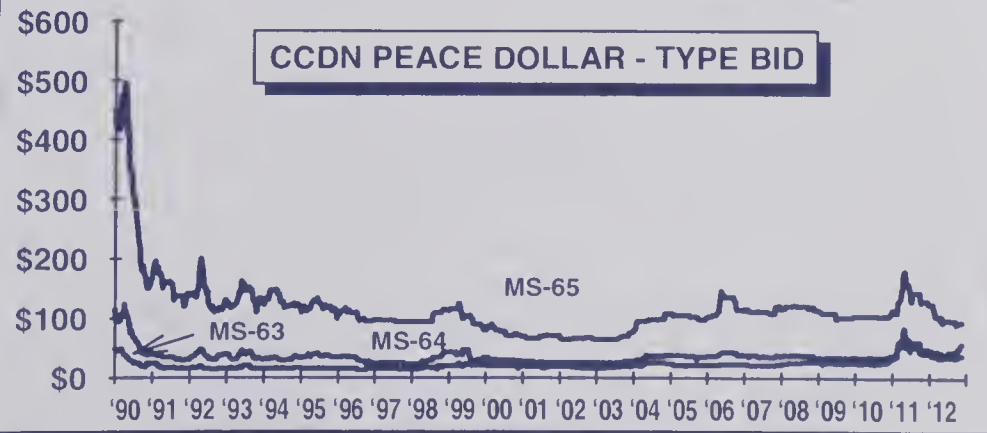

Walkers are ablaze with activity resulting in higher sight-unseen Bids, and while market-participants are offering significantly greater amounts for several of the early-date issues, some of the late-date Walkers are getting a nice jolt of renewed energy as well. Those highly sought-after 1921 issues in MS64+ and in MS64 with the green bean, of which CAC reported only 6 examples in this grade, are being pursued now with a Bid higher by as much as 20%, and they are up by nearly twice that rate in NGC MS65+. Market-makers are also trying to pry away one of only 3 known examples of the 1935-S graded MS67 by NGC with a \$500 higher sight-unseen Bid. Gold Type didn't provide as much excitement as some of the other segments, but the gainers outnumbered the losers as some fractional denominations in less than Choice Mint

State and, particularly, \$20 Saints in NGC MS61 thru MS65, defied what often occurs as downward pressure on generic material whenever Gold Spot persists in its narrow range of volatility as it has been this week. Common date Double Eagles approved by CAC are selectively higher with some \$20 Saint Bids having increased by as much as 12% since they debuted a year ago.

The 56th annual Money Show of the Southwest is up next, taking place Nov 29-Dec 1 in Houston, TX. Heritage will hold an 8,000 lot coin auction in conjunction with the show running through Dec 2. We have listed a few of the many highlights above.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity. It is not intended to be a nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid. Bids by Auctioneers and Dealers which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 19 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVII No. 47

November 23, 2012

Single copy price \$5.00

Coin Market Index Climbing Higher Buffalo Nickel Bids

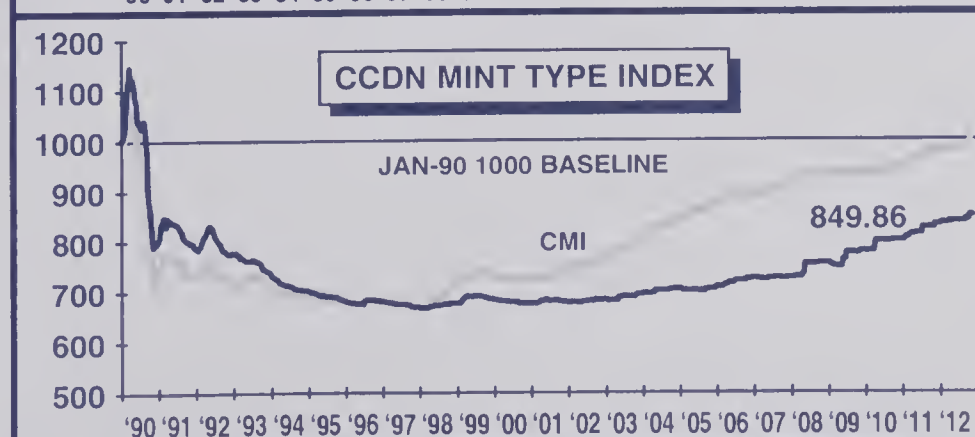

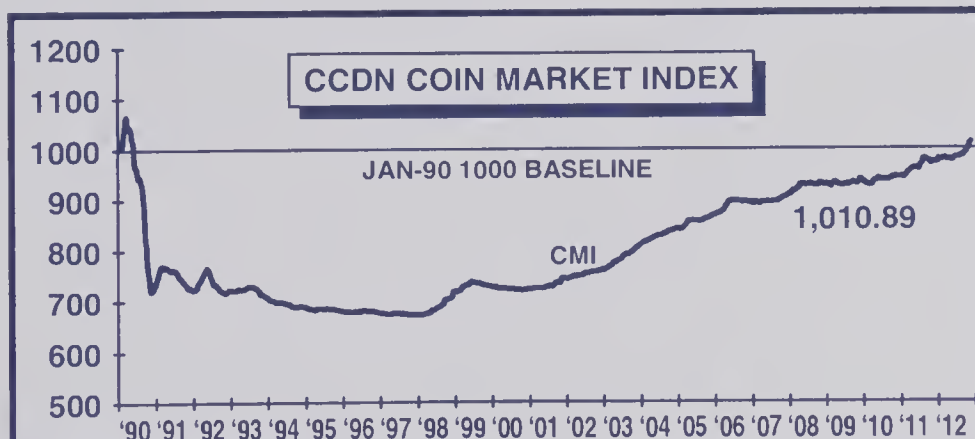

After a very successful Baltimore expo and auction by Stack's Bowers, many dealers are basking in the glow of their conquests. Several booth holders and attendees remarked that this was one of their best shows ever. Numismatic Gold was a particularly hot item on the bourse. Concerns over fiscal instabilities and tensions in the Middle East likely provide a fairly solid floor for some of the cautious movement to the upside within the Gold Type segment, although the activity is far from what can be called a buying frenzy. Still, solid increases are in place for common Double Eagles in most grades in addition to numerous increases for minor denominations. PCGS graded Type 3 \$20 Libs are being targeted at much higher levels than their NGC counterparts with a \$100 premium offered for MS63 and MS64 examples. The high Bidder will even pay \$110 more for spot-free specimens and will take roll quantities. This may be a temporary situation as ultra generic material graded by NGC and PCGS usually trade sight-unseen for nearly the same levels through the electronic dealer-to-dealer trading networks. Ben Bernanke spoke Tuesday, November 20 urging congress and the president's administration to reach a deal on the budget to avoid the "fiscal cliff" that will otherwise take place in January. Precious metals did recede, but the decreases were fairly moderate. Despite volatility, Gold remains fundamentally strong, as does Silver, closing at \$1,723 and \$32.92 respectively.

The CCDN Coin Market Index, a weekly snapshot of the entire sight-unseen market as compared to January 1990, continues to ascend. After surpassing the 1,000 point baseline for the first time in over 20 years, two weeks ago, the current CMI stands at 1,010.89. Walkers are the most recent core segment to blast through the 1,000 point level on October 26, to join Buffalo Nickels, which have been in the 1,000 point plus club since early August, 2002; Proof Gold Type, having been above 1,000 since early June of 2010, and Morgan Dollars eclipsed the baseline back in August, 2004.

Sight-Unseen Bid for 1936 Texas PDS Sets in PCGS MS66 dropped down to an even \$800, for a total decline of \$75 this year. While this week's sight-unseen activity was of little consequence to Classic Commems, all other issues, both Gold and Silver, managed to stave off the effects of the all too

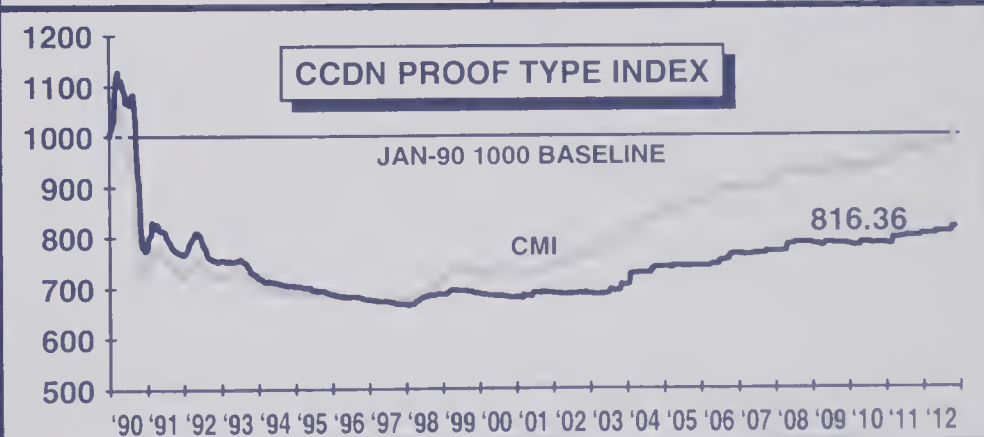

prevalent "fire sale" activity that still can be encountered within this segment. One of only four known 1880-S Morgan Dollars graded MS69 by NGC received a final Bid of \$19,000 in the Baltimore auction conducted by Stack's Bowers. There are six other such Morgans certified at this elite grade level by PCGS, one of which is a finest known PL. Among the top Morgan Dollar lots featured in this auction were an 1878-CC in MS66+, with a combined pop of 8 with 14 finer, and an 1895 in PR64Cam, both graded by PCGS with CAC approval. Stability reigned throughout the Dollar segment, with a handful of early-date Morgans advancing moderately this week, while Peace Dollars all refrained from movement in either direction. Barber Dimes in NGC MS62 slipped a tad and are back down to the \$102 Bid where they last stood in May before dropping down to a Bid of \$88. Some astounding prices realized for many of the lots featuring rare Type material, such as pre-1858 Proof issues of various denominations, are expected to be reported once the final results from the Baltimore Stack's Bowers Rarities Night Auction are revealed.

The positive momentum for Buffalo Nickels is persisting, with several more gainers present this week on top of last week's upswing with more increases recorded than any other segment. Those pristine 1929 Buffs in PCGS MS67 are sought after now at an even \$3,000 Bid for any of the three PCGS has certified. Ever popular 1937-D 3-Legged issues in NGC MS65 rose by \$1,000 to \$11,000 Bid while buyers will blindly pay \$30,000 for the same grade in PCGS plastic. Collectors and enthusiasts of Mercury Dimes realize that, while this segment is quite short on much needed fresh material, many who possess those highly desired specimens, especially with sharply struck Fully Split Band detail, really don't want to part with such hard to come by material. A quick look through this week's Market columns will reveal that very few examples are available, especially in high grade, and not many have been auctioned recently. All of the Walking Liberty Halves that were involved in last week's rally are firmly holding onto their newly acquired higher Bids. In contrast, this week's activity concerning Walkers was kept to a minimum, as 1942-D and 1944-S issues in PCGS MS63 each incurred minimal declines.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity in the high nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by a lower Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that prices exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guarantee or that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin may display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete significant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "It" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CCDN does not represent that it is possible to purchase selected commodities at lower prices. Only sight-seen trades can be expected to occur at substantially higher prices than in the spot market.

Bids for Lincoln Cents are for Red and Brown examples in PR62-PR63 and full Red in PR64 and higher.

CAC Jumps to New Heights!

Five short years ago, CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. While still in its youth, CAC has revolutionized the market and continues to experience impressive growth.

In short order, CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. To date, CAC has examined over 400,000 coins valued at \$1.8 Billion, awarding the green sticker only if a coin meets CAC's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of \$275,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

Gold Type Leads Sight-Unseen Market

Stack's Bowers Hammers \$16.8 Million

Dealers are moving on from the Thanksgiving holiday which was preceded by a very busy week in Baltimore where Stack's Bowers brought in \$16.8 million at public auction. Many dealers are now at the Money Show of the Southwest in Houston. Heritage's live floor auction is underway through Friday, November 30 at the show and concludes December 2 via the internet.

Some uneasiness re-emerged this week concerning activity relating to Classic Commemoratives. Among the Silver Halves, Lynchburg issues in MS62 thru MS64 teetered somewhat, although their peers in MS66 managed to ascend just slightly enough to achieve an even Bid of \$300, while comparably graded 1933-D Oregon Trail issues in PCGS holders slid back to \$320. Most of the tenuosness occurred among the Gold issues, and Grant with Star Dollars in PCGS MS61 thru MS65 were the hardest hit. 1916 McKinley Dollars in NGC MS65 are down by \$25 and \$2½ Pan-Pac issues in PCGS MS64 settled at just above the \$4,000 level. Common-date Morgan Dollars in MS64 took on marginal gains, now Bid \$71 sight-unseen, which is \$2 higher from January, yet 30% below their recent April 2011 peak of \$101. Those often plentiful 1882-CC cartwheels in MS63 and MS64 each sold for a discount resulting in moderate declines. The less ubiquitous and usually eye-pleasing 1883-CC in PCGS MS65DMPL didn't get the usual dose of appreciation either, as these issues dipped by \$55. Last issue year 1921 Morgan Dollars in MS61 thru MS64 are gaining strength, but those of the latter grade are still \$14 short of regaining their losses for the year. A not so easy to find Peace Dollar, the 1923-D in PCGS MS66, with a combined pop of an even 100 and only a single finer example of the same numerical grade designated with a + assigned by PCGS, is now Bidding sight-unseen for \$125 less. Peace Dollars in MS61-MS63 may look undervalued at \$32-\$38 Bid with dealers paying \$31 for heavily circulated raw examples.

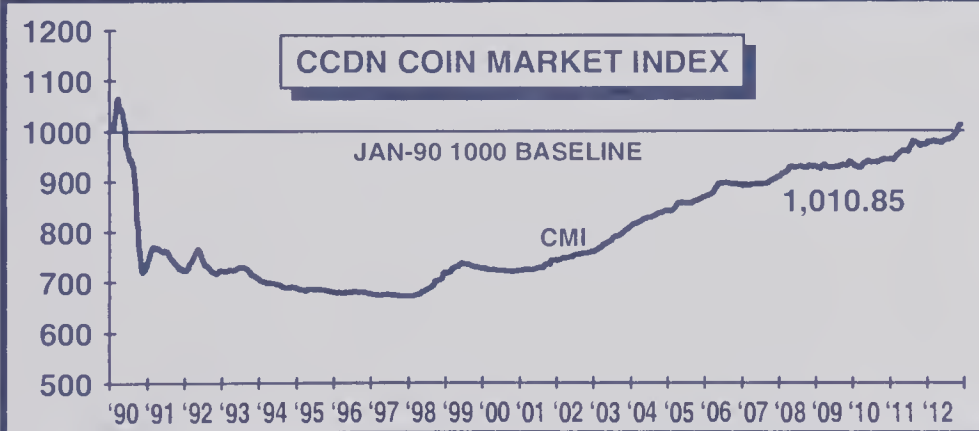

As the year draws to an end, it's hard to overlook the fact that early Coppers have been among the best, if not the best, performing material of the Type segment, and next year may well allow us to see a continuation of the heightened demand for and fascination over these most historic of U.S. coins. Stack's Bowers recently announced that it will auction off the amazingly well-preserved 1793 Wreath Cent, graded MS69BN by PCGS, as part of the Cardinal Collection during its upcoming New York Americana Sale in January. Shield Nickels With Rays in PCGS PR65 and

comparably graded Liberty Seated Dimes with Stars in NGC plastic while still highly revered by many collectors, both had somewhat disappointing auction conclusions this week, and these issues are 8% lower now as a result. It is quite perplexing that more than just a few of the high-grade Proof issues in NGC slabs, such as Barber Quarters in PR66 and PR67, are being sold at auction for less than their sight-unseen Bids. Some minor readjusting motion to the downside occurred within the Buffalo Nickels segment, as many of the Buffs are still in a testing phase with regards to their recently elevated Bids. Only a few late-date issues incurred negligible declines.

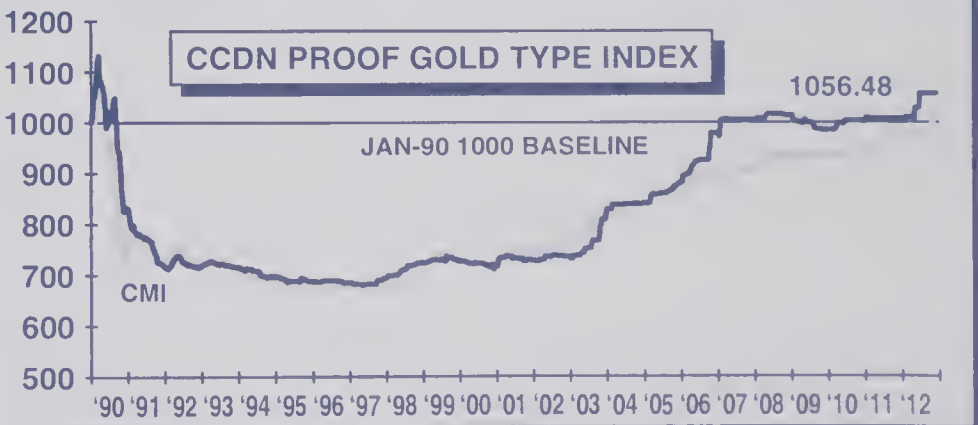

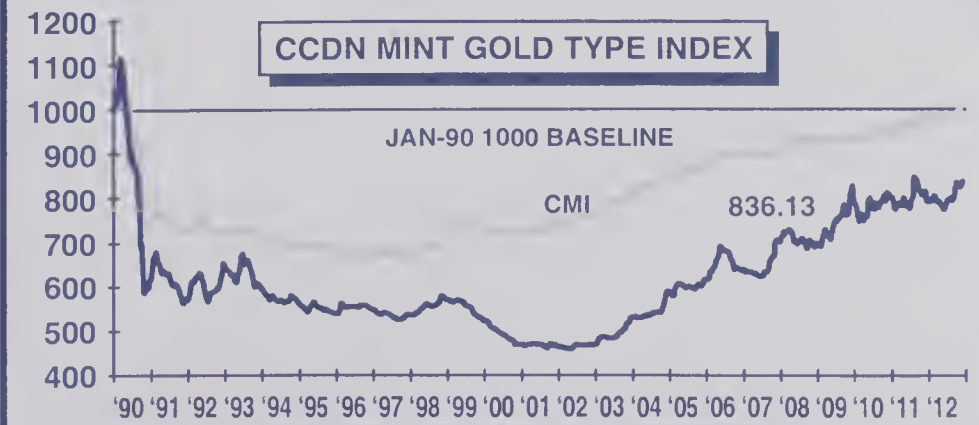

Among the most eye-catching 1916-D Mercury Dimes to appear at a major auction venue, graded MS66FB★ by NGC, sold for a respectable sum of \$44,275 during Stack's Bowers Baltimore Rarities Night event. Another example of the same date, graded PCGS AU55 with CAC approval, fetched \$8,848. On-line auction results forced some downward pressure on 1941-S Mercs in PCGS MS65FB. A 1917-S (Rev.) Walking Liberty Half, graded PCGS MS66, took in just over \$20,000 during the Stack's Bowers November Baltimore auction. 1939-D Walkers, primarily those graded MS65 and MS66 by NGC, had it tough this week maintaining previous Bid along with a handful of lower-graded late-date issues in PCGS holders. The auction scene didn't bode well for those highly scarce \$10 Libs with Motto in PCGS MS67, which fell short of their sight-unseen Bid target by a somewhat hefty \$3,000. Only 17 examples have been graded by PCGS with 2 higher. NGC has encapsulated 57 in MS67 with 4 in MS68 and 3 in MS69. Of these 83 pristine Eagles, CAC has only approved 5. Roman Numeral High Relief \$20 Saints in MS65 are drifting lower too, and those in NGC slabs have been reduced this year by \$5,500. Nonetheless, Gold Type material offered at the lowest premium over Spot continues to gain moderately. The gap between PCGS and NGC sight-unseen Bids for Type 3 \$20 Libs in MS63 and MS64 is widening on average with dealers paying \$80 and \$150 more for PCGS plastic. Gold Type Bids between PCGS and NGC remain close if not identical for most of the other generic issues. The CCDN Coin Market Index for Gold Type is continuing to rise, leading the market this week by moving up 4.91 points.

Next up is the PCGS members only Vegas show, December 12-15 at the Cosmopolitan hotel and casino. Legend~Morphy will host an auction at this event December 13, in room Gracia #1 at 6 p.m., featuring over 300 lots. We have listed several highlights herein.

NGCNumismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid. Asks, Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly confidential, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXVII No. 49

December 7, 2012

Single copy price \$5.00

Gold Type Shines

GSA Carson City Dollars On A Roll

Cleveland Commemorative Halves in various Mint State grades pop up more often than a lot of market participants realize, but those far less available examples graded MS67 lost some appeal, to the tune of \$50 for NGC examples, while Maryland Halves of the same grade by PCGS slumped down by \$35. Both varieties of Missouri issues in PCGS MS65 retracted further to an even Bid of \$1,600, as Lynchburg Halves in MS64 recouped what they lost last week and are back to trading at \$200. A few PCGS graded PDS Sets were discounted to a moderate extent, along with a handful of individual Silver Commems that dropped lower this week, mostly due to weak auction results. The faltering PDS Sets include 1936 Boone in MS66, which fell by 6%, compared to a 4% drop for Cincinnati Sets in MS64, while 1952 Washington-Carver Sets from either certification service in MS64 gained. Those gorgeous Pan-Pac Gold Dollars in NGC MS67 got a hammering at auction, dropping by \$835, and this segment may soon be signaling a buying opportunity.

Morgan Dollars will always have their fair share of enthusiasts, but Bidders who are actively participating in this segment are again leaning on the side of caution with respect to their sight-unseen offers for Mint State cartwheels. Generic Morgans in ICG MS63 are still drawing attention, as they did last month, and there is a bit of activity bolstering Bids for a few lower graded better-date issues in these slabs. Carson City mintmarked Morgan Dollars remain extremely popular with collectors though sight-unseen Bids continue to be somewhat volatile as dealer promotions come and go. Those CC Dollars in original GSA holders with and without the NGC wraparound grade sticker seem to be increasing in popularity with a number of higher Bids in place this week. Common date Peace Dollars are holding firm for the most part with only ANACS examples slipping slightly in Gem.

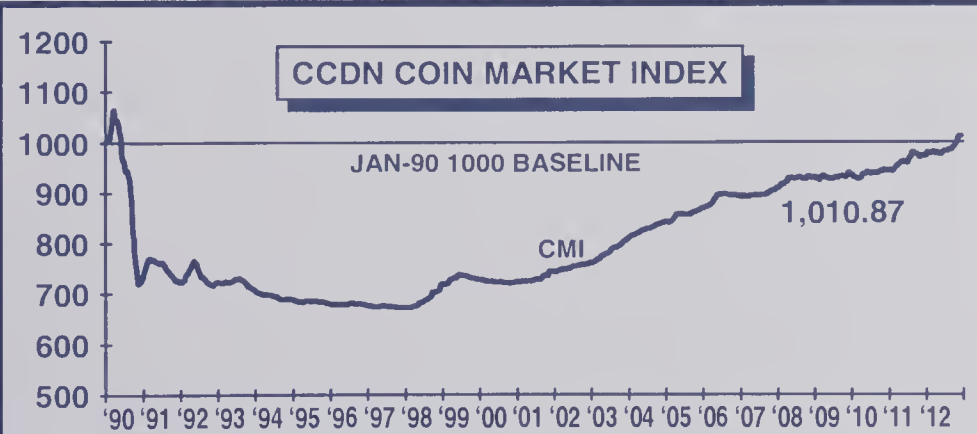

Activity within Silver Type is somewhat mixed. Reduced Size Capped Bust Dimes in MS61 and MS62 had a spectacular week, especially those in PCGS plastic, and comparably graded 1853 Liberty Seated Quarters with Arrows and Rays are in a rally as well. But some Half Dime denominated issues in Choice and Gem NGC grades are having challenges meeting current Bid goals at auction, while Twenty-Cent Pieces in NGC MS65 pulled back by \$200. Liberty Seated Half Dimes of the with Stars variety in NGC PR62 were forced to give up 8% of their previous Bid, while Barber Halves in NGC PR67 lost \$100. Dealers are now paying \$4,800 sight-unseen for any Liberty Seated Dollar with Motto in PR64. To date, PCGS has

graded 455 at the 64 level while NGC has recorded 402. Too important for the savvy Buffalo Nickel enthusiast to overlook is the fact that Heritage's Orlando FUN Show Auction next month will feature a rather large quantity of beautiful high-quality Mint State Buffs in both PCGS and NGC slabs that are adorned with those highly desirable Gold CAC stickers. These under-graded examples should attract some very lively Bidding when the time comes. Early Mercury Dimes have often resisted the effects of a weak market but they are not always immune to discount pressures, as was the case for 1918-D Meres in PCGS MS64-MS65 and 1918-S issues in NGC MS64. Fully Split Band issues getting singled a bit this week include the 1923 in PCGS MS66FB and 1936-D in NGC MS67FB, which are down by nearly \$100 since April.

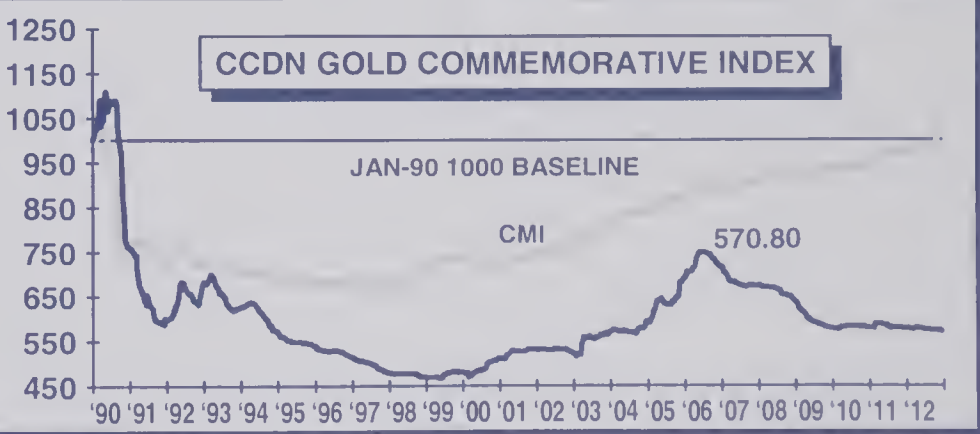

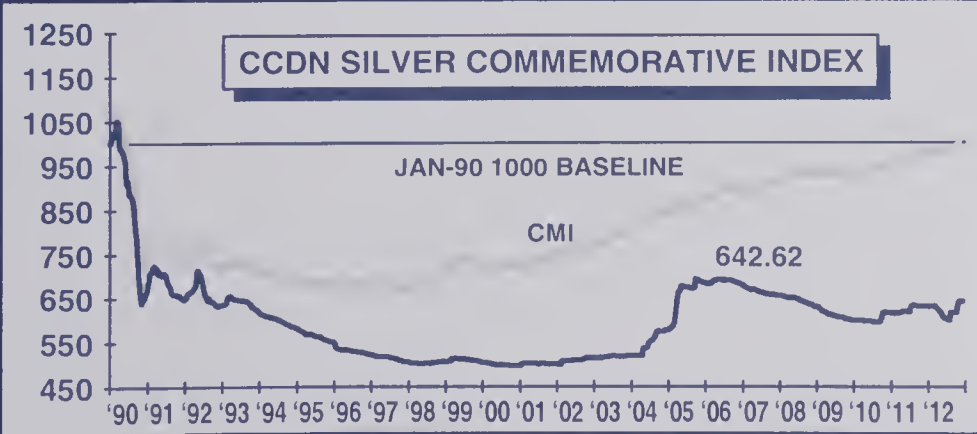

Walking Liberty Halves have had worse weeks than this one, of course, but 1934-S issues in PCGS MS65 slipped some more to consummate a near 9% drop this year. These issues have a comparatively low combined pop in relation to their similarly graded late-date peers – 349 with 140 finer – and are almost as coveted by collectors as are 1933-S examples in Gem. Three wartime issued D-Mint Walkers in NGC MS67, including the 1942-D, have all now fallen well below \$500, and the 1946 in PCGS MS66 plunged 13%. A decent amount of resilience is permeating the Gold Type segment, despite a rather significant decline in Gold Spot this week. This could be a sign that Gold bugs and collector/investors aren't putting their guard down amidst the doom and gloom references continuing in relation to the "fiscal cliff" issues that often overshadow reports of improved consumer confidence and job growth prospects. Bidders are in need of more Gold Dollars of all Types in MS61 and MS62 and are becoming more aggressive in their pursuit of \$10 Indians in MS62 thru MS64.

Gold climbed back over \$1,700 per ounce after spending two days below this benchmark. Platinum is up to over \$1,600 an ounce. The spread between these two metals is less than \$100 and is as small as it's been since mid-October. Now that The Money Show of the Southwest is in the books, collectors and dealers can look forward to December 12-15 which is slated for the PCGS members only show in Las Vegas. This gathering will take place at the Cosmopolitan hotel, with an auction by Legend-Morphy on the 13th. Bonhams will hold an auction on this same date in New York. See a few highlights herein.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~350,000~~^{400,000} coins with a market value over ~~\$1.5 billion~~^{\$1.8 billion}. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

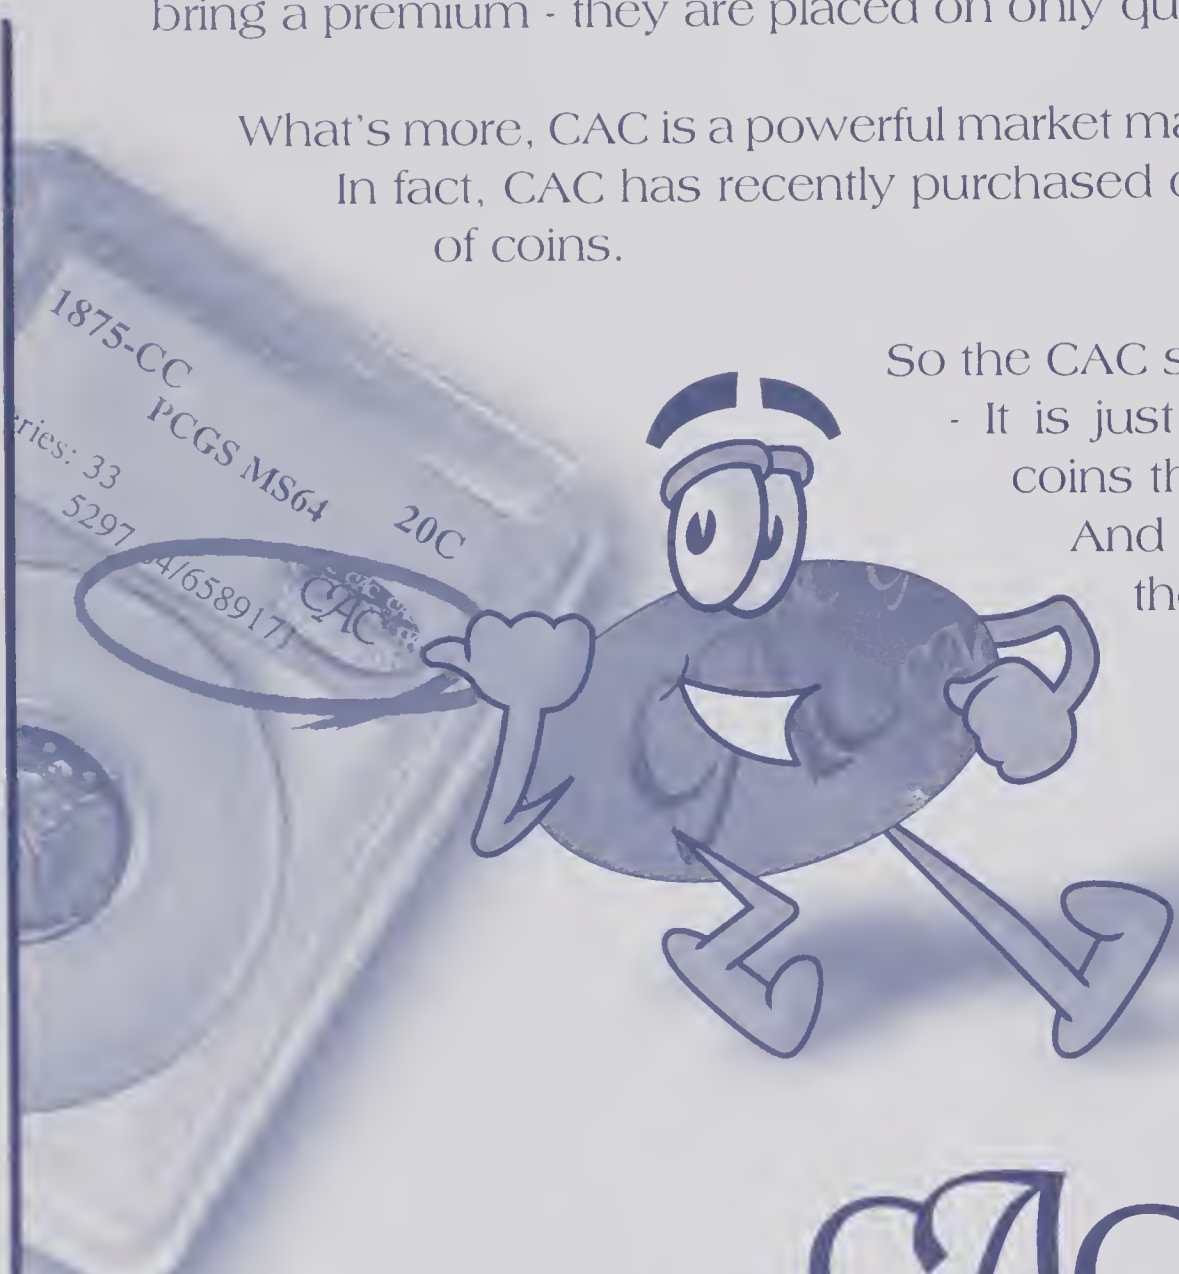

What's more, CAC is a powerful market maker for its stickered coins.

In fact, CAC has recently purchased over ~~\$250,000,000~~^{\$275,000,000} worth of coins.

So the CAC sticker does not add value
- It is just an easy way to identify coins that are solid for the grade.

And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVII No. 50

December 14, 2012

Single copy price \$5.00

Dollars Continue To Dominate Minor Gold Type Side-Steps Bullion Slip

Commems are mixed with both advancers and decliners, and overall this segment continues to suffer. A quick glance at the CCDN CMI reveals Silver Commems as one of the weakest areas within the sight-unseen market, with Gold Commems even worse off. Among the movers assuming a positive direction are those tough to find Grant (No Star) Halves in MS67, which gained \$100. Four examples of this pop 66 coin have sold at auction this year ranging from a low of \$2,200 to a high of \$4,313. Comparably graded Iowa Halves rounded off their Bids to the upside; Roanoke issues of the same grade are up now to \$375 Bid. Two decliners in this grade column, however, were Cleveland Halves in NGC slabs and Maryland issues in PCGS plastic, as each resumed in their descent from last week. Within Gold Commems, Pan-Pac Dollars in NGC MS65 are still having a tough go at getting back up to their \$1,000 benchmark Bid.

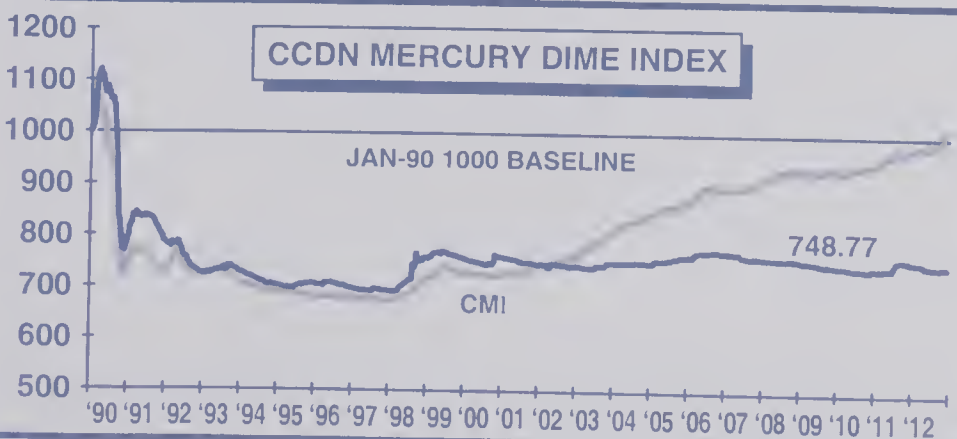

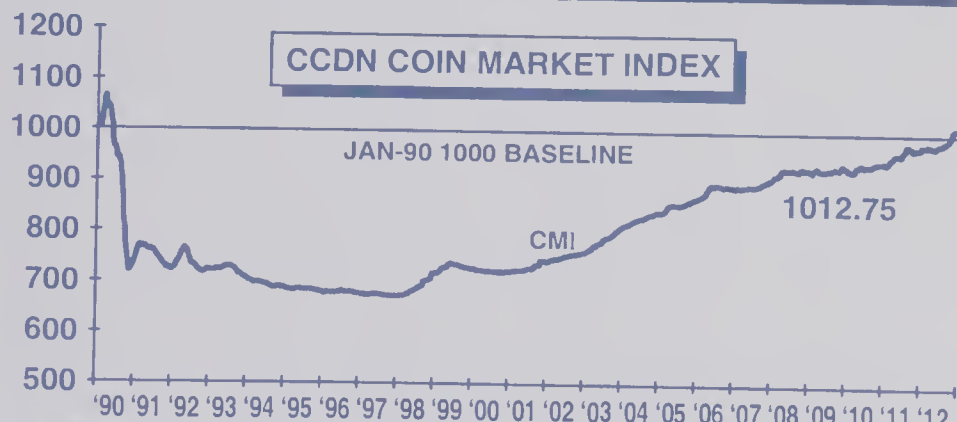

Morgan Dollars continue to be eagerly sought at higher levels with Bidders focused on acquiring those better-date cartwheels in MS65 and lower. Common-date PL Dollars are still strengthening with higher sight-unseen Bids in place for all grades. 1901-O Dollars in PCGS MS65DMPL, however, ran into a \$200 shortfall as did a few late-date generic issues in MS64, now below the \$70 Bid level. Next month's FUN Show Heritage auction in Orlando will offer a seldom seen 1901 Morgan Dollar in PCGS MS64, one of only two graded as such with a CAC sticker. Another highlighted feature of this auction will be the finest certified specimen of the 1921 Zerbe Proof Morgan Dollar, graded NGC PR67. Peace Dollars, mostly in MS61 thru MS64, are bustling with a number of healthy gains this week as well, and the buoyancy extended to include first year 1921 and final year 1935-S issues in MS65.

A lack of blind Bids combined with a weak auction outing for Liberty Seated Quarters with Motto in PCGS MS67 resulted in their decline by 9%. Market-makers have been persistent in significantly upping the ante to pry loose one of those first year P-Mint Washington Quarters in MS67, as there are only four certified as such by either service (two each) with none finer, and sight-unseen Bids for these 20th century condition rarities have risen this year by as much as 180%. This coin has crossed the auction block three times in the past five years, realizing \$6,289; \$21,850; and \$40,250. Matte Proof Lincoln Cents in PCGS PR66RB added a touch of gleam this week. These issues, in either PCGS or NGC plastic, have actually risen by an average of almost 15% each of these past two years. Bid for Liberty Seated Dimes with Legend in PR62 took on a \$15 advance.

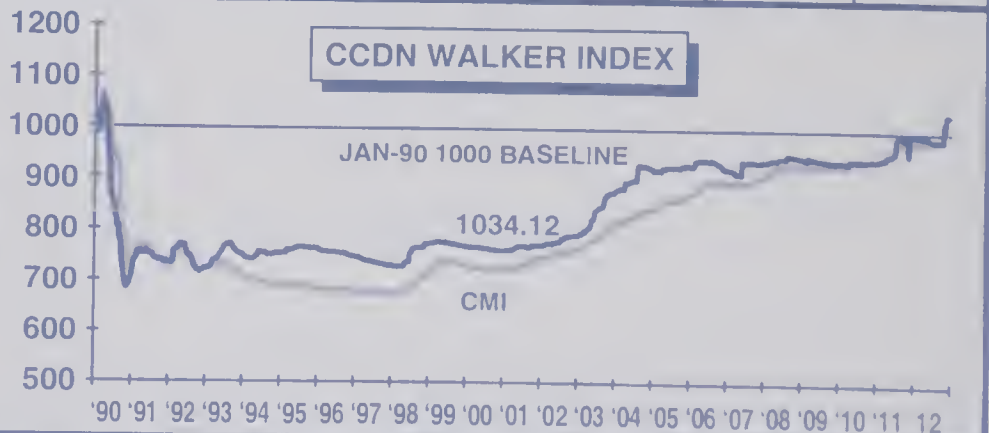

Those 1923-S Buffalo Nickels in NGC MS66 are getting battered again, and this recent tumultuous decline of 20% adds up to a total loss of \$7,250 this year for these issues. The remainder of the Buffs concluded the week in neutral territory. The on-line auction scene got a bit slippery for 1937-D Mercury Dimes in PCGS MS66 and NGC MS67FB, as well as for a few other Mercs. Nonetheless, this past weekend's Teletrade session really demonstrated how Ultra-Gem quality late-date Mercs even without Full Bands, are capable of raking in considerable sums. A 1943-S in PCGS MS67 and an iridescently toned 1944 in NGC MS68 fetched \$391 and \$1,265, respectively. A sole gainer among Walking Liberty Halves, the 1935 in NGC MS65, took back some of what it gave up last week, but all other movers within this segment, all of which were wartime issues, including the 1942-S in MS66, are still perceived as being too abundant in supply to hold at their previous sight-unseen Bid levels.

Gold Spot fell \$21 today, below the psychologically important \$1,700 mark closing at \$1,696. Minor Gold held its strength and continued to escalate in some instances. Type 1 Gold Dollars in MS61, MS62, and MS64, along with \$2½ Indians in MS61, are still coming on strong. Downward pressure persists in bogging down \$20 Type 3 Libs in MS61 and MS62, as well as \$20 Saints in several Mint State grades including those in Gem and better, likely due to the aftershock of Gold Spot's latest regression. Nonetheless, the resultant declines are hardly reason for alarm as premiums remain well off their lows. In November, the US Mint sold 129,500 one-ounce Gold Eagles, the highest amount sold on a month to month basis in almost two years. For 2012, these sales represent a 54% increase over the next best selling month. The Fed stated December 12 that it will keep the federal funds rate at 0 to ¼ percent. In addition, the committee will continue to purchase mortgage-backed securities at a pace of \$40 billion per month, and it will also purchase longer-term Treasury securities initially at a pace of \$45 billion per month.

Beginning January 1, 2013, PCGS will offer a restoration service. This will basically be limited to dipping coins that have spots or unattractive toning. Those coins with "nice, natural toning" will not be dipped. If a coin is restored, there is no guarantee that it will upgrade. Only PCGS encapsulated and raw coins qualify for this service. If the coin should not or cannot be restored, the fee is \$25. A fee of 4% of the coin's value will be charged if the coin is actually restored, plus the grading fee. Also starting up at the new year is the reconsideration service whereby a PCGS coin can be regraded without being removed from its current holder. If the coin is determined to be a point or more higher, it will be placed in a new holder with the new grade assigned.

The Certified Coin Dealer newsletter, the Bluesheet, reports current wholesale market Bids for coins certified by the most active grading services. It also reports current sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will continue to report it. Trades which are near or below current Bid. CCDN uses every means available to ensure accuracy and completeness of the wholesale levels shown. It is not a buy or sell recommendation, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bids shown.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market.

Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CAC[®]

"Because Confidence is Priceless"

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 19 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

CCDN does not represent that it is possible to perform a perfect search of the market. The market is constantly changing and sight-seen trades can be expected to occur at all times. Any dealer who is not a member of the CCN is not a member of the CCN.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVII No. 51

December 21, 2012

Single copy price \$5.00

Plusses Pepper CAC & + Dollars Last Issue Of 2012 — Happy Holidays!

This is the last issue of the CCDN for 2012. Have a safe, happy and healthy holiday season. Our next issue will be published January 4, 2013.

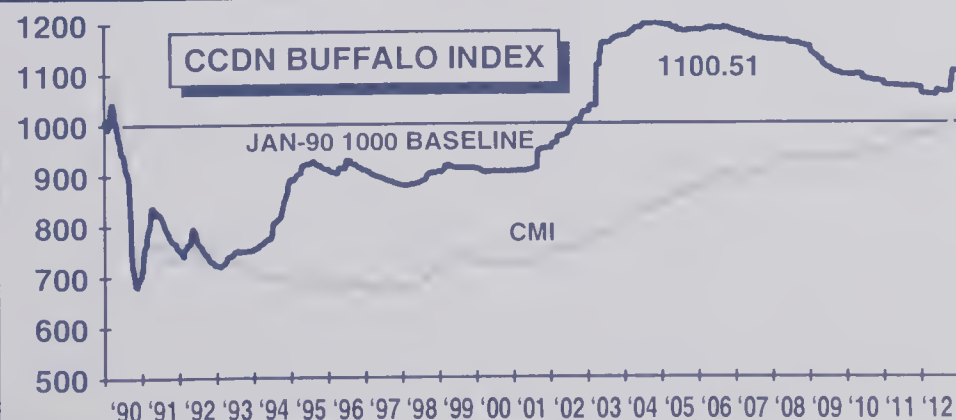

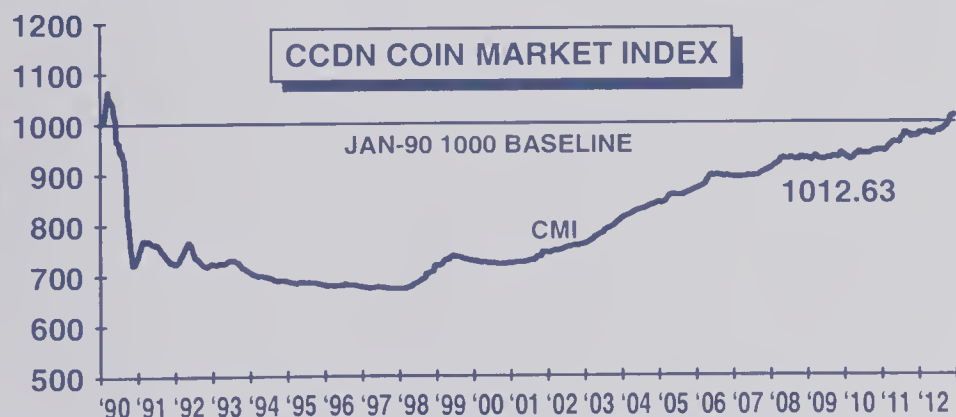

Precious metals are seeing some weakness as Gold takes one on the chin losing over \$70 in the last six trading days, closing today at \$1,645. Silver has fallen below \$30 an ounce, to a close of \$29.61, which hasn't taken place since late August. Platinum has also lost in the last six trading days, to the tune of more than \$100, closing at \$1,546. Palladium has been fairly stable lately in the high \$600s to low \$700s, settling today at \$698.

Among Silver Commems, Arkansas Type in MS66 is now Bid \$15 higher while Lynchburg issues in NGC MS64 jumped back up to regain a sight-unseen Bid of \$200 after fluctuating all this month. Although Lexington Halves in PCGS MS66 dropped by \$25, those 1947 B.T. Washington PDS Sets in MS67 made a most noteworthy move, adding more muscle this week so as to result in a year's gain of 56% and a 34% gain for those slabbed by NGC. 1904 Lewis & Clark Gold Dollars in PCGS MS63 were singled out by some traders' intent on keeping up the discount activities within this segment. Other than a few fairly moderate Bid adjustments, not much significant movement occurred within the primary columns of the Dollars segment this week. However, 1921-S Morgans in MS65 consummated a healthy 15% gain this year. CAC stickered and + graded slabs are receiving extraordinary attention with a number of higher sight-unseen Bids in place for Morgan and Peace Dollars in grades MS64 thru MS66. A half dozen five-figure Peace Dollars graded MS66+ by PCGS are needed at ever higher levels. For example, 1923-S Peace Dollars surged by \$10,000 since last month's report, and have been sky-rocketing in the hopes of luring these rare Dollars into the market.

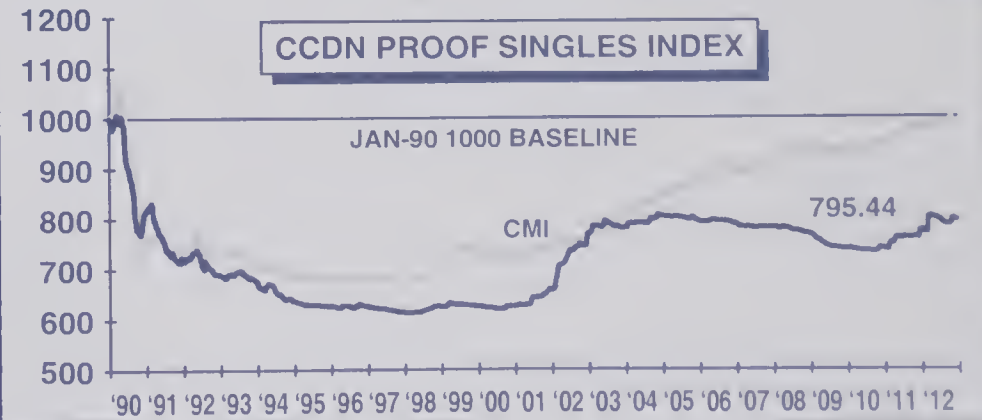

Stack's Bowers has been preparing for its New York Americana Sale due to take place late next month, and this event will feature some of the most astoundingly well preserved, high-quality Mint State early Copper specimens comprising the fabulous Cardinal Collection. No doubt, there will be record-breaking prices being set during this closely watched sale since the market for

such material has remained remarkably strong. Several of these early Coppers are oozing with historic lore and pedigreed as having been center-piece material within past collections of such notable numismatists as Bareford, Eliasberg, Naftzger, Sheldon, and Starr. Liberty Seated Quarters, No Drapery in MS61 and Reeded Edge Capped Bust Halves in MS61 and MS62 were among those issues most benefiting from enhanced demand this week. Sight-unseen Bid for 1937-D 3-Legged Buffalo Nickels in NGC MS65 (pop 58, with 23 finer) is nearly one-third that of comparably graded examples in PCGS slabs (pop 49/8). A Teletrade Bidder took ownership of such a specimen in NGC plastic for \$25,300 this past weekend. There are just a few decliners among late-date Mercury Dimes which include 1938-D issues in PCGS MS65FB and comparably graded 1942-S Merces in NGC slabs, both of which got pulled down by 16%. The remainder of Mercury Dimes, both with and without CAC/+ endorsement remain steady overall.

This was a trying year for Walking Liberty Halves, including some of those early, key-dates. Exceptions can be found, however, among a few + graded Walkers, particularly those 1918-D and 1920-D issues in PCGS MS64+, each of which shot up this month alone by a hefty \$900. Bids for a handful of late-dates continue to drizzle lower, but an end of year boost of \$100 for 1946-D examples in MS67 is bringing a bit of positive prospects to this segment. Gold bugs are confronting another significant drop in Gold Spot this holiday season, but the Gold Type segment as a whole has really yet to reflect the gravity of the yellow metal's more than \$100 per ounce decline over the past month. Aside from Type III Gold Dollars in MS66, slight downward pressure has also affected generic \$20 Saints, mostly in MS61 thru MS63. However, market-makers are now offering \$3,500 more, sight-unseen, for any of the 27 CAC approved \$20 High Relief Saints in MS66. After the holidays, action picks up again with the 58th annual FUN convention running January 10-13, in Orlando, Florida, with an auction by Heritage. Following this extravaganza is the much anticipated Stack's Bowers New York Americana Sale featuring selections from the Cardinal Collection, scheduled for January 22-24.

The Certified Coin Dealer Newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through a study of nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of prices. Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary according to the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CAC Jumps to New Heights!

Five short years ago, CAC was established by leading members in the numismatic industry who recognized the need for a higher level of grading. While still in its youth, CAC has revolutionized the market and continues to experience impressive growth.

In short order, CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. To date, CAC has examined over 400,000 coins valued at \$1.8 Billion, awarding the green sticker only if a coin meets CAC's stringent standards. What's more, CAC provides liquidity to the market. Since its inception, CAC has purchased coins in excess of \$275,000,000.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to profit from trading coins at auction. Bid amounts shown are sight seen trades can be expected to occur at a higher price than the lowest bidder's amount.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.
